Pauma Valley, CA 92061

RE: Native American Consultation request for General Plan Amendment No. 1129

Dear Mr. Majel,

The County of Riverside requests your participation in the review of General Plan Amendment No.1129. This project is subject to the California Environmental Quality Act (CEQA) and Section 65352.3 of the Government Code (Senate Bill 18 [2004]).

General Plan Amendment No. 1129 proposes an **Extraordinary Foundation Level Amendment** to amend the Riverside County General Plan Land Use Element from Rural Community: Estate Density Residential (2 Acre Minimum) to Community Development: Medium Density Residential (2-5 Du/Ac).

Staff contacted the Native American Heritage Commission (NAHC) which conducted a Sacred Lands file search of the "Area of Potential Effect" (APE) and did identify Native American cultural resources in the proposed project area. The NAHC recommended that your tribal government be contacted in order to determine if any cultural places might be impacted by the proposed action. Any information you have regarding cultural places will be kept strictly confidential and will not be divulged to the public.

Riverside County feels that your assistance is vital to the preservation and conservation of ancestral tribal sites during the current growth that the County is experiencing. It is the desire of Riverside County to protect the past and our collective heritage as we proceed towards the future. Please forward any comments or requests for meetings concerning this project to Matt Straite at (951) 955-8631 by March 07, 2014.

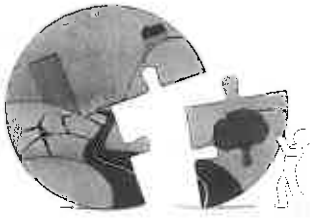

Sincerely,
Riverside County Planning Department

Matt Straite, Project Planner

RE: Native American Consultation pursuant to California Government Code Sections 6540.2, 65092, 65351, 65352.3,, 65352.4, 65562.5 et seq. for "General Plan Amendment No. 1129 (from Rural Community Estate Density to Community Development: Medium Density Residential); located in the Winchester area; Riverside County, California

Dear Mr. Gallatin:

Government Code Sections 65351, 65352.3, 65562.5, *et seq.* incorporates the protection of California traditional tribal cultural places into land use planning for cities, counties and agencies by establishing responsibilities for local governments to contact, refer plans to, and consult with California Native American tribes as part of the adoption or amendment of any general or specific plan proposed on or after January 1, 2005. California Native American tribes are identified on a list maintained by the Native American Heritage Commission (NAHC).

In the 1985 Appellate Court decision (170 Cal App 3rd 604), the court held that the NAHC has jurisdiction and special expertise, as a state agency, over affected Native American resources impacted by proposed projects, including archaeological places of religious significance to Native Americans, and to Native American burial sites. Note that the NAHC does NOT APPROVE General or Specific Plan; rather, it provides a list of tribal governments with which local jurisdictions must consult concerning any proposed impact to cultural resources as a result of the proposed action.

The NAHC did conduct a Sacred Lands file search of the 'area of potential effect' or APE and **DID identify** Native American cultural resources in the proposed project area. However, there are Native American cultural resources in close proximity to the Area of Potential Effect, project site. As part of the tribal consultation process, the NAHC

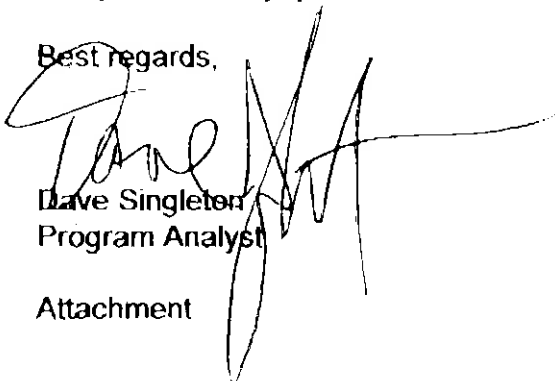

recommends that local governments and project developers contact the tribal governments, on the attached list, in order to determine if any cultural places might be impacted by the proposed action and Mitigation & Monitoring Plan, as appropriate. Also, the absence of specific site information in the sacred lands file does not preclude their existence. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

Attached is a consultation list of tribal governments with traditional lands or cultural places located in the vicinity of the Project Area (APE). The tribal entities on the list are for your guidance for **government-to-government consultation** purposes.

A Native American tribe or individual may be the only source of the presence of traditional cultural places. For that reason, a list of Native American Contacts is enclosed as they may have knowledge of cultural resources and about potential impact, if any, of the proposed project.

If you have any questions, please contact me at (916) 373-3715.

Best regards,

Dave Singleton
Program Analyst
