One copy of an exhibit showing a 600 foot radius from the subject property boundary and the extended notification radius line, if applicable, and all parcels within those areas, and all property that is located within an agricultural preserve where any portion of the agricultural preserve is within 1 mile of the exterior property boundary of the subject proposal. On the exhibit (map), print the last name of all property owners within the identified notification area as they are listed on the self-sticking labels.

Note that the Riverside County's Assessor's Office will not prepare, nor certify the property owner's list. A title insurance company can be contacted to prepare the labels packages (generally for a fee), or by requesting the Riverside County Transportation Land Management Agency's (TLMA) Geographic Information System staff, at (951) 955-1844, to prepare the labels packages (a charge will be determined by GIS staff based upon the number of labels required.) Or, an individual can prepare their own labels packages by determining the property owner and mailing address for properties within the County from the Riverside County Assessor's Office through the use of Assessor's Map Books and microfiche records.
