Appendix A: Title History of Hubbs Harlow Vested Rights Area

A. Introduction

The Hubbs Harlow Vested Rights Area ("HH VRA") is located in Sections 10 and 15, Township 4 South, Range 6 West in Riverside County. Originally part of the Mexican land grant Rancho El Sobrante de San Jacinto Viejo y Nuevo (literally, "the surplus of the Old and New Rancho San Jacinto"),¹ by 1925, the HH VRA was a separate property under the ownership of local real-estate developer E.E. Peacock. After Peacock's death in the early 1930s, the HH VRA was acquired by F.M. Kuhry. A little later, Leilamae Harlow joined Kuhry as a co-tenant, eventually assuming sole ownership in 1952. The property would remain in Harlow's possession for over forty years, until after her death and the disposition of her estate by 1976. From 1976 until 1979, the HH VRA was owned by Occidental College, which acquired it during the disposition of Harlow's estate to cover her debts. In 1979, Occidental College sold the property to long-time tenant Paul J. Hubbs, who had been associated with mining on the HH VRA since at least the earlyto-mid-1960s.

After Hubbs' acquisition of the HH VRA, he conveyed a portion of the Property to the Brion Corporation (and related entities S.T. & Koo International Corporation and Sun-On Enterprises, collective, "BKS") ("Brion Parcel") in 1983. In 2004, BKS conveyed the Brion Parcel to Cajalco Associates, LLC, who in turn conveyed it to Corona Twin Creeks, LLC. Corona Twin Creeks merged with the current property owner, and RRM's lessor, Corona Cajalco Road Development LP ("CCRD"), in 2009.

The remainder of the HH VRA ("the Hubbs Parcel"), remained with Hubbs until 2006, when it was conveyed to Temescal Cliffs, LLC. Temescal Cliffs, LLC went bankrupt in the Great Recession, and the Hubbs Parcel was acquired in 2011 by Cajalco Road Quarry ("CRQ"), an affiliate of CCRD, thus once again consolidating ownership of the HH VRA. In 2013, CRQ and CCRD entered into a lease for the entire HH VRA with Robertson's Ready Mix, Limited ("RRM"), the applicant for the Request for Determination of Vested Rights ("RFD").

B. Part 1: The Rancho El Sobrante de San Jacinto

The HH VRA was once a part of the much larger Rancho El Sobrante de San Jacinto ("El Sobrante"). El Sobrante was a Mexican land grant given to Maria del Rosario Estudillo

¹ Exhibit ("Exh.") C-4.1 (United States v. San Jacinto Tin Co., 125 U.S. 273, 275 (1888) ("San Jacinto")).

de Aguirre by Governor of Mexico Pio Pico in 1846.² Following the Treaty of Guadalupe Hidalgo (and the transfer of California from Mexico to the United States), Aguirre's claim to the El Sobrante was presented to the board of land commissioners, created by the Act of Congress of March 3, 1851, to settle private land claims in California. The validity of that grant was confirmed by both the District Court for the Southern District of California and the Supreme Court of the United States in 1863.³ Following confirmation of the grant in 1863, the United States surveyed the El Sobrante to determine its location and issued the El Sobrante Patent on October 26, 1867, for eleven square leagues (approximately 131 square miles or 84,000 acres).⁴

After issuing the patent, disputes over the actual land encompassed in El Sobrante persisted and, in 1883, the United States sued to set aside and declare void the patent, arguing that it had been procured by fraud and that the land described in the patent was not the land actually granted to Aguirre or confirmed by the United States Land Commission.⁵ For the second time, the Supreme Court of the United States ruled regarding the validity and extent of the El Sobrante and confirmed the validity of the 1867 patent.⁶

A few years after the lawsuit was resolved, the San Jacinto Tin Company, which had acquired El Sobrante from Ms. Aguirre, sold the entire tract to the San Jacinto Land Company ("San Jacinto Land"), under the stewardship of John Fletcher Moulton and Herbert Bulkley Praed.⁷ San Jacinto Land, and a series of affiliated companies and individuals, apparently sought to develop and sell portions of El Sobrante during the late nineteenth and early twentieth century.⁸

C. Part 2: The HH VRA As an Independent Property

1. <u>E.E. Peacock</u>

By the end of 1925, the historical record is clear that the HH VRA had separated from the broader El Sobrante Property and was in the possession of local real estate developer E.E. Peacock.⁹

From 1925 through March 23, 1932, while Peacock owned the HH VRA (and for a brief period after his death during resolution of his estate), he subdivided and gave away hundreds of extremely limited, surface estates, free with sales of a \$126 set of the Encyclopedia Britannica. These became known as encyclopedia lots ("E-Lots"). They were small lots, essentially without value because they were isolated, steep and unbuildable, and all without access, water or mineral rights, and all were encumbered by and subservient to broad easements in favor of the remainder of the HH VRA. In each and every E-Lot deed, Peacock reserved to himself or his assigns "right of way or easements for powerlines, [etc.], or other necessary or useful purposes in, on, above or below," and "water rights," and "the oil and mineral rights" from each E-Lot parcel.¹⁰ These reservations vested ownership of all mineral rights in the E-Lots to Peacock (and his successors-in-interest, including RRM), and provided broad rights-of-way to access and mine each and every E-lot.

2. <u>F.M Kuhry and Leilamae Harlow</u>

E.E. Peacock passed away sometime before March 1932. Following Peacock's death, F.M. Kuhry, who held a judgment lien against Peacock, filed a petition with the Los Angeles County Superior Court in the proceeding *In the Matter of the Estate of Peacock*, deceased, No. 115459.¹¹ Kuhry's petition was granted in February 1932, causing the public auction sale subsequent to statutorily mandated notice requirements, of the HH VRA on March 23, 1932.¹² Kuhry was the successful bidder, and obtained title in the HH VRA.¹³ Following a one-year waiting period from the date of the sale, the

Commissioners in charge of the auction issued a deed on May 27, 1933, which Kuhry promptly recorded on June 12, 1933.¹⁴

Shortly after Kuhry's acquisition of the HH VRA (for which he paid or credit bid \$6,500), he granted the property to Richard A. Terrell in October 1933 for ten dollars (\$10.00).¹⁵ Terrell promptly re-conveyed the property to Kuhry and Leilamae Harlow as joint tenants with full right of survivorship.¹⁶ Despite the deeds subsequent to Kuhry remaining unrecorded until July 14, 1939, Harlow and Kuhry oversaw the mineral development of the property together, including leasing portions of the property and seeking to expand their mineral land holdings, as described in greater detail in **Section V.C** of the RFD. During Kuhry and Harlow's ownership of the HH VRA and in furtherance of their mining ambitions, Harlow commissioned, and in 1948, recorded a Record of Survey of the HH VRA and other neighboring properties.¹⁷

Kuhry and Harlow retained joint ownership of the HH VRA until 1952. On March 5, 1952, Kuhry signed a grant deed granting the entirety of the HH VRA to Harlow, which was notarized on June 16, 1952 and recorded June 17, 1952.¹⁸ Leilamae Harlow would maintain ownership of the HH VRA until her death in 1972, subject to the changes described in **Section 3**, *infra*.

3. <u>Harlow's Sole Ownership of the HH VRA</u>

Between 1952 and 1976, the extent of the HH VRA continued to evolve. Certain parcels were sold off (possibly to satisfy Harlow's debts), while Harlow also reacquired certain E-Lots previously deeded out by Peacock. During this period, there were two significant transactions.

First, in 1966, Harlow executed a deed of trust, conveying the entire HH VRA to the Security Title Insurance Company as trustee for the Benefit of Occidental College.¹⁹ It was this act that would eventually result in Paul J. Hubbs owning the HH VRA, as described in **Section 4**, *infra*.

Second, in 1968, Harlow conveyed a strip of land to Southern California Edison.²⁰ In that grant, Harlow explicitly reserved mineral interests, including (1) "all of the tin ore or ores carrying tin or related thereto, which may lay under said land" and (2) "all remaining interest in all oil, gas, petroleum and other mineral or hydrocarbon substances in and under or which may be produced from said land[.]""²¹ The structure of the 1968 conveyance makes clear that Harlow retained the ability to mine the property, so long as such mining did not interfere with any transmission line SCE would erect on the site. To date, SCE has not erected any infrastructure.

4. <u>Harlow's Death and Disposition of the HH VRA</u>

Upon Harlow's death on December 1, 1971, her estate entered into protracted litigation, with significant disputes among her heirs regarding the disposition of her estate, including the HH VRA. During the litigation, several alleged-heirs made claims for the entirety of Harlow's real property, including the HH VRA; however, the court rejected all such claims in the final judgment on May 17, 1977.²²

However, the title in the HH VRA was not disposed of in that judgment, but instead through a slightly earlier trustee's sale in March 1977. Occidental College, the beneficiary of the 1966 deed of trust, caused a trustee's sale, which occurred on March 7, 1977.²³ Occidental was also the successful bidder at the trustee's sale public auction, and recorded its trustee's deed on March 8, 1977.²⁴ During this period, the site was leased to Hubbs Construction Co., who maintained mining operations throughout the disposition of Harlow's estate and Occidental's subsequent ownership.

5. <u>From Paul J. Hubbs to RRM</u>

In 1979, Paul J. Hubbs, operator of the on-going mining operations as lessee, purchased the HH VRA from Occidental College.²⁵ Occidental College conveyed its entire interest in the HH VRA (after cleaning up title exceptions) thereby consolidating ownership of the HH VRA in the long-running mining operation.

A few years after Hubbs acquired the HH VRA, he sold a portion of it, the Brion Parcel to BKS in 1983.²⁶ BKS held the Brion Parcel until 2004.²⁷ On September 2, 2004, S.T. & Koo International conveyed the Brion Parcel to Cajalco Associates LLC.²⁸ Cajalco Associates LLC then conveyed the Brion Parcel to Corona Twin Creeks, LLC three years later in 2007.²⁹ As described in **Section IV.F**, Corona Twin Creeks sought to continue mining development throughout the HH VRA. In 2009, Corona Twin Creeks merged with the current property owner, CCRD (an affiliate of CRQ), owner of the Hubbs Parcel).³⁰

Hubbs retained the remainder of the HH VRA (the "Hubbs Parcel") until 2006, when he sold the property to Temescal Cliffs, LLC.³¹ Temescal Cliffs subsequently entered into bankruptcy, after which the Hubbs Parcel was acquired by CRQ, whereupon the entirety of the HH VRA (Brion Parcel and Hubbs Parcel) was again consolidated and leased by CRQ and CCRD to RRM.³²

DECLARATION OF CHRISTINE GOEYVAERTS

I, Christine Goeyvaerts, declare as follows:

1. I am the Planning and Development Manager for the HH VRA. I have personal knowledge of the facts set forth herein. except as to those stated on information and belief and, as to those, I am informed and believe them to be true. If called as a witness, I could and would competently testify to the matters stated herein. I make this declaration in support of RRM's Request for Determination of Vested Rights ("RFD"), dated December 15, 2021.

2. I have been employed by RRM for 27 years. In my capacity as Property Manager, I have knowledge regarding the history, acquisition, and development of RRM's property assets, including the property at issue in the RFD, referred to as the Hubbs/Harlow Vested Rights Area ("HH VRA"), which RRM leases from property owners Cajalco Road Quarry ("CRQ") and Corona Cajalco Road Development ("CCRD"). I have also reviewed RRM's and CRQ's files relating to the history, acquisition, and development of the HH VRA.

3. RRM, CRQ, and CCRD acquired interests in the HH VRA beginning in approximately 2007, when Corona Twin Creeks LLC (who would later merge CCRD) acquired a portion of the HH VRA from Cajalco Associates. This portion of the HH VRA (referred to in the RFD as the "Brion Parcel") consisted of the areas north and east of the Hubbs Harlow Quarry, then being actively mined by Hubbs Construction Company pursuant to a County-confirmed vested right and County-approved Reclamation Plan (RP 118).

4. Following the financial crash in 2008, RRM, CRQ, and CRD acquired the remaining interests in the HH VRA (the "Hubbs Parcel"). During the financial crash, then-owner of the Hubbs Parcel Temescal Cliffs was forced into bankruptcy. During those bankruptcy proceedings, lenders who facilitated the Temescal Cliffs purchase of the Hubbs Harlow Quarry

and the larger Dos Lagos Development discovered that surface mining activities had long been conducted on neighboring properties (owned at that point by CCRD) regardless of ownership

 Rather than foreclose on the Hubbs Parcel, the lenders facilitated the sale of the HH VRA to CRQ, thereby consolidating ownership of the HH VRA under CRQ and CCRD.
 This purchase was completed in 2011.

6. Upon acquisition of the Brion Parcel in 2007, and through to the present day, CRQ and RRM evaluated phased mine development and Reclamation across the entire HH VRA site, as demonstrated by the attached figures, taken from a 2007 internal evaluation. Attached hereto are true and correct copies of figures showing Corona Twin Creeks LLC's proposed mining area (**Exhibit 1**) and Phased Mining Operation (**Exhibit 2**).

7. During this period, CRQ and RRM also evaluated the market demand for rock, sand, and gravel aggregate production, and determined that, in 2007, market conditions were favorable enough to warrant development of phased mining and reclamation plans for the entirety of the HH VRA. However; by 2008, market conditions had sufficiently changed due to the Great Recession such that expansion plans were no longer economically feasible at that time.

8. Despite the unfavorable economic conditions at that time, RRM and CRQ continued ongoing surface mining operations on the property, which had been ongoing for decades, and continued to plan for eventual mining and reclamation operations within the HH VRA at such future time as economic considerations warranted further pursuit..

9. I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed on this 15th day of December, 2021, at Allen, Texas.
