Riverside, CA 92507

RE: Tract 10168-1

The Local Solid Waste Management Enforcement Agency for Riverside County (LEA) requests that you require our clearance prior to your construction approval of Tract 10168-1.

Tract 10168-1 is located next to the closed Corona Landfill which raises our concern for landfill gas migration into the proposed development.

The property should be evaluated for purposes of requiring installation of a landfill gas migration control system. Permanent landfill gas monitoring wells should be in place and routinely monitored prior to construction approval.

Your assistance would help assure that the proposed residential home development would be protected from landfill gas migration.

If you have any questions regarding this letter, please call me at (714) 787-6543.

Sincerely,

Steven L. Samaniego
