CHAPTER II - B

COMMERCIAL ZONES

SECTION 1.0 The Commercial Zones are intended to provide for areas for retail, office, and service establishments. Each of the zones in this chapter addresses a unique need in Riverside County for certain types and intensities of commercial activities. The purpose of each commercial zone is as follows:

- A. **C-1 / C-P: General Commercial** is the standard commercial zone used in most instances, and is to be applied under most circumstances when establishing a new commercial area. The C-1/C-P zone is considered to be generally consistent with the Community Development Foundation Component of the General Plan.
- B. **C-T: Tourist Commercial** is generally a less-intensive commercial area that encourages small-scale retail activities, as well as hotel and motel uses. This zone is intended to be established in resort areas. The C-T zone is considered to be generally consistent with the Community Development Foundation Component of the General Plan.
- C. **C-P-S: Scenic Highway Commercial** is intended to be used around established Scenic Highways, and is intended to be more restrictive in architecture allowable uses than the C-1/C-P zone. The C-P-S zone is considered to be generally consistent with the Community Development Foundation Component of the General Plan.
- D. **C-R: Rural Commercial.** The Board of Supervisors finds that because there is a need for small-scale, commercial uses in the outlying areas of the County along rural highway corridors for the convenience of residents and travelers, and because the development standards for these commercial uses should reflect areas where urban services and facilities are generally unavailable and are not likely to be provided in the near future, it is desirable to establish a zone classification which will promote these rural commercial uses on parcels of generally less than 2½ acres. This zone is not to be used within specific plans, within any city sphere of influence, or within 300ft of a freeway. The C-P-S zone is considered to be generally consistent with the Community Development Foundation Component of the General Plan. *(Section 9.61 of 348)*
- E. **C-O: Commercial – Office.** The Board of Supervisors finds that there is a need in the County of Riverside for a zone classification designed to provide areas where primarily professional and administrative offices and related uses may be located. It is the intent that this zone classification ensures that such uses are well designed and landscaped to be harmonious and compatible with surrounding land uses. The C-O zone is considered to be generally consistent with the Community Development Foundation Component of the General Plan. *(Section 9.71 of 348)*
- F. **C-C/V: Commercial Citrus/Vineyard.** The Board of Supervisors (~~Board~~) finds that there is a need in the County of Riverside for a zone classification within the "Citrus Vineyard Rural Policy Area" of the Riverside County General Plan that would encourage agricultural cultivation, vineyards, and wineries that would preserve the rural lifestyle, wine-making

Commercial Section of Chapter II; draft 8/30/18

atmosphere and long term viability of wine-industry where such activities are occurring and that would protect such areas from incompatible uses which could result in reduced agricultural productivity and increased urbanization within the policy area. The Board further finds that there is a need in the County of Riverside for small-scale, commercial uses that would not require a high level of public services and that would enhance the agricultural activities occurring in the policy area. The Commercial-Citrus/Vineyard (C-C/V) zone classification is intended to meet the above-referenced objectives and is used very meticulously. The C-C/V zone is considered to be generally consistent with the Agriculture Foundation Component of the General Plan.

~~In conjunction with development, the use of rural road standards as outlined in Ordinance No. 460 (Regulating the Division of Land) shall be implemented so as to reinforce the intent of this zone classification. The introduction of curbs, gutters, and streetlights shall be discouraged.~~

With the adoption of the Wine Country zones (WC's), the use of this zone is no longer encouraged, and no further properties will be zoned C-C/V. (14.81 of 348)
