January 2009
Every day, the Bermuda Dunes Logo will be noticed on communication material ranging from stationary to signage. Each impression represents the community of Bermuda Dunes and the County of Riverside. The logo and style guidelines unify communications and help them make a clear, strong, consistent message.

Each communication, through its content and presentation, provides information about the Bermuda Dunes image. Direct information is given through what is stated; indirect information is given through the clarity, tone, style, and professionalism with which the information is presented. The result of this dedication to excellence within the marketing communications will only lead to strengthening the image and character of Bermuda Dunes.
The Bermuda Dunes Logo has a 6 color CMYK design treatment. The logo is designed to be reproduced primarily in CMYK*/color format.

However, PMS (Pantone Matching System) equivalents for these CMYK colors are supplied for the purposes of ensuring consistency of color reproduction.

Ideally the logo will be used on a uniformly colored and patterned background for maximum impact and clarity. The logo will have a minimum of 1/3 X-Height white space around it.

*Abbreviation for cyan, magenta, yellow and key (black), the 4 process colors, which combined together in varying proportions can be made to produce the full colour spectrum.

In order to maintain legibility of the Bermuda Dunes Logo, the minimum height dimension is 1/2”, 1.28 centimeters, 3.0 picas, or 36 points on letterhead and similar printed materials.

Ideally the logo will be used on a white background on letterhead and similar printed materials for maximum impact and clarity. The logo will have a minimum of 1/4 X-Height white space around it.

When used on signage, walls and other elements of the streetscape, the background should be a uniformly colored and patterned background.

Note: Do not attempt to construct this logo design. Electronic files in PDF format will be provided.

For most applications the optimum placement for the Bermuda Dunes Logo is the top left corner, or right corner of the layout with 1x-height white space around it, or a reasonable margin.

If required, the logo placements shown below are also acceptable. However for signage and large applications the logo must be placed at least 3 feet from the ground.

The size and location of the logo must be in proportion to the required size of signage text and form.

As is evident by the examples shown below, the logo can be presented and applied to various materials without altering the colors or the main graphic language that makes up the logo. This way the integrity of the logo can be maintained while still portraying the unique Bermuda Dunes brand.
Note: It may be necessary to adjust dimensions to accommodate site conditions or engineering. Keep proportions the same as shown.
