Agreement for Payment of Costs of Application Processing

TO BE COMPLETED BY APPLICANT:

This agreement is by and between the County of Riverside, hereafter "County of Riverside",
and DON GARLAND hereafter "Applicant" and DON GARLAND "Property Owner".

Description of application/permit use:
WORKSHOP ADDITION TO EXISTING GARAGE

If your application is subject to Deposit-based Fee, the following applies

Section 1. Deposit-based Fees

Purpose: The Riverside County Board of Supervisors has adopted ordinances to collect "Deposit-based Fees" for the costs of reviewing certain applications for land use review and permits. The Applicant is required to deposit funds to initiate staff review of an application. The initial deposit may be supplemented by additional fees, based upon actual and projected labor costs for the permit. County departments draw against these deposited funds at the staff hourly rates adopted by the Board of Supervisors. The Applicant and Property Owner are responsible for any supplemental fees necessary to cover any costs which were not covered by the initial deposit.

Section 2. Applicant and Property Owner Responsibilities for Deposit-based Fee Applications

A. Applicant agrees to make an initial deposit in the amount as indicated by County ordinance, at the time this Agreement is signed and submitted with a complete application to the County of Riverside. Applicant acknowledges that this is an initial deposit and additional funds may be needed to complete their case. The County of Riverside will not pay interest on deposits. Applicant understands that any delays in making a subsequent deposit from the date of written notice requesting such additional deposit by County of Riverside, may result in the stoppage of work.

B. Within 15 days of the service by mail of the County of Riverside’s written notice that the application permit deposit has been reduced to a balance of less than 20% of the initial deposit or that the deposit is otherwise insufficient to cover the expected costs to completion, the Applicant agrees to make an additional payment of an amount as determined by the County of Riverside to replenish the deposit. Please note that the processing of the application or permit may stop if the amount on deposit has been expended. The Applicant agrees to continue making such payments until the County of Riverside is reimbursed for all costs related to this application or permit. The County of Riverside is entitled to recover its costs, including attorney's fees, in collecting unpaid accounts that would have been drawn on the deposit were it not depleted.

C. The Property Owner acknowledges that the Applicant is authorized to submit this agreement and related application(s) for land use review or permit on this property. The Property Owner also acknowledges that should the Applicant not reimburse the County of Riverside for all costs related to this application or permit, the Property Owner shall become immediately liable for these costs which shall be paid within 15 days of the service by mail of notice to said property Owner by the County.
This Agreement shall only be executed by an authorized representative of the Applicant and the Property Owner. The person(s) executing this Agreement represents that he/she has the express authority to enter into this agreement on behalf of the Applicant and/or Property Owner.

This Agreement is not assignable without written consent by the County of Riverside. The County of Riverside will not consent to assignment of this Agreement until all outstanding costs have been paid by Applicant.

Deposit statements, requests for deposits or refunds shall be directed to Applicant at the address identified in Section 4.

Section 3. To ensure quality service, Applicant is responsible to provide one-week written notice to the County of Riverside Transportation and Land Management Agency (TLMA) Permit Assistance Centers if any information below changes.

To whom it may concern:

We have lived next door to the Grant’s for approximately 8 years and they have been great neighbors and a great asset to the neighborhood. They recently added a barn to their property but it has not had any negative impact on the area and it is not even noticeable from my property. Please let me know if you have any questions or I can be of any service.

Form 295-1022 (12/12/12)
COUNTY OF RIVERSIDE PLANNING DEPARTMENT
STAFF REPORT

PROJECT DESCRIPTION AND LOCATION:

The Plot Plan is a proposal to permit an existing unpermitted 702 square foot detached steel building on 2.45 acres.

ISSUES OF RELEVANCE:

Property is located in a State Fire Responsibility Area. Project has been reviewed and conditioned by Riverside County Fire Department. The property currently has a code violation CV1203953 for construction without permit.

RECOMMENDATIONS:

APPROVAL of PLOT PLAN NO. 25434, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

FINDINGS: The following findings are in addition to those incorporated in the summary of findings, which is incorporated herein by reference.

1. The project has a primary dwelling on the parcel where the detached accessory building is proposed.

2. The project site is designated Rural Community: Very Low Density Residential (1 Acre Minimum) on Lake Mathews/Woodcrest Area Plan.

3. The proposed detached accessory use is a permitted use in the general plan designation.

4. The proposed detached accessory building is a permitted use, subject to approval of a plot plan in the Residential Agricultural (R-A-1) zone.

5. The proposed detached accessory building use is consistent with the development standards set forth in the R-A-1 zone.

6. The proposed 702 square foot detached steel storage building is considered detached accessory building under Section 18.18 of Ordinance No. 348.

7. The detached accessory 702 square foot detached steel storage building is compatible with the character of the surrounding community.

8. The detached accessory 702 square foot detached steel storage building is located 24 feet from the main building.
9. The project conforms to Section 15303, (New Construction or Conversion of Small Structures), of the CEQA guidelines and is exempt from CEQA if the project meets the following conditions: Class 3 consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. The numbers of structures described in this section are the maximum allowable on any legal parcel. Examples of this exemption include but are not limited to: "... (e) Accessory (appurtenant) structures including garages, carports, patios, swimming pools, and fences".

10. The existing detached accessory building is not located within the required rear yard area, and therefore does not occupy more than one-half of the required rear yard area.

11. The detached accessory building is located 96 feet from the front lot line, therefore it does not encroach upon the front half of the lot, which is defined as being the front 75 feet of the lot as measured from the street line.

12. The detached accessory building is 24 feet from the residential building, and therefore exceeds the minimum requirement of maintaining a ten foot distance to the principal building.

13. The detached accessory building is 11.5 feet from the westerly side property line and 157.5 feet from the rear lot line. Because the property is larger than two acres, the minimum setback from a side lot line and from a rear lot line is 10 feet and the location of the building exceeds the minimum standards.

14. The height limit on properties larger than two acres is 35 feet. The detached accessory structure is 10.83 feet in height, and is therefore below the maximum allowed height.

15. Bare metal buildings (metal buildings without paint or exterior architectural coatings or treatments), are not to be allowed on lots one acre or smaller; however, since this property is 2.45 acres in size, this development standard is not applicable.

16. The detached accessory building can be permitted because there exists a single-family dwelling on the same lot.

17. The project has been conditioned so that the detached accessory building cannot be rented or leased, or offered for rent or lease, unless the single-family dwelling on the lot is also being rented or leased, or offered for rent or lease, by the same renter or lessee.

18. The detached accessory building shall not be used for overnight accommodations, and has been conditioned to prohibit the creation of habitable area without subsequent approval.

19. The detached accessory building does not propose a kitchen.

20. The detached accessory building takes the same lot access as the single-family dwelling on the lot. No additional curb cuts, rear access or any other type of access is necessary for the detached accessory building.
21. The difference in elevation between the detached accessory building and the adjacent roadway is sufficient to screen the existing unpermitted 702 square foot detached steel building.

CONCLUSIONS:

1. The proposed project is in conformance with the Riverside County General Plan.

2. The proposed project is consistent with Section 18.18 of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.

3. The public's health, safety, and general welfare are protected through project design.

4. The proposed project is compatible with the present and future logical development of the area.

5. The proposed project will not have a significant effect on the environment.

6. The detached accessory building has been determined to be exempt under Section 15303(e) (New Construction or Conversion of Small Structures) of the California Environmental Quality Act.
