1:30 P.M. JULY 17, 2017

AGENDA
RIVERSIDE COUNTY PLANNING DEPARTMENT
DIRECTOR’S HEARING
DESSERT PERMIT ASSISTANCE CENTER
77-588 El Duna Court, Suite H
Palm Desert, CA 92211

NOTE: Please be aware that the indicated staff recommendation shown below for each item may differ from that presented to the Planning Director during the public hearing.

If you wish to speak, please complete a “SPEAKER IDENTIFICATION FORM” and give it to the Planning Director. The purpose of the public hearing is to allow interested parties to express their concerns. Please do not repeat information already given. If you have no additional information, but wish to be on record, simply give your name and address and state that you agree with the previous speaker(s).

In compliance with the Americans with Disabilities Act, if you require reasonable accommodations, please contact Elizabeth Sarabia, TLMA Commission Secretary, at (951) 955-7436 or e-mail at esarabia@rivco.org. Requests should be made 72 hours in advance or as soon as possible prior to the scheduled meeting. Alternative formats are available upon request.

1.0 CONSENT CALENDAR:
NONE

2.0 PUBLIC HEARINGS: CONTINUED ITEMS: 1:30 p.m. or as soon as possible thereafter.
NONE

3.0 PUBLIC HEARINGS: NEW ITEMS: 1:30 p.m. or as soon as possible thereafter.

3.1 TENTATIVE PARCEL MAP NO. 36837/PLOT PLAN NO. 25686 – Intent to Adopt a Negative Declaration – Owner/Applicant: Omni Washington Street Medical, LLC – Engineer/Representative: A&B Consulting Engineers – Fourth Supervisorial District – Bermuda Dunes Zoning District – Western Coachella Valley Area Plan: Community Development: Commercial Office (CD-CO) (0.25 – 1.00 Floor Area Ratio) – Location: Southerly of 41st Avenue, easterly of Washington Street, and westerly of Sparkey Way – 4.17 Acres – Zoning: General Residential – 4,000 sq. ft. (R-3-4000) – REQUEST: Tentative Parcel Map proposes to subdivide four (4) acres into two (2) parcels (Schedule H) of approximately two (2) acres each containing an existing two-story medical office building (14,171 sq. ft. footprint, 28,489 sq. ft. rentable/leasable space) on proposed Parcel 1 up to approximately 38 feet in height, and, Plot Plan proposes a new two-story medical office building (14,171 sq. ft. footprint, 28,711 sq. ft. rentable/leasable space) up to approximately 38 feet in height on proposed Parcel 2, with overall site containing approximately 287 parking spaces (257 spaces, 30 vanpool credits), with drainage facilities and landscaping. Project Planner: Jay Olivas at (760) 863-7050 or email at jolivas@rivco.org.

4.0 PUBLIC COMMENTS:
COUNTY OF RIVERSIDE PLANNING DEPARTMENT
STAFF REPORT

PROJECT DESCRIPTION AND LOCATION:

Tentative Parcel Map No. 36837 proposes to subdivide four (4) acres into two (2) parcels of approximately two (2) acres each for a Schedule H parcel map division, with an existing two-story medical office building (14,171 sq. ft. footprint, 28,489 square foot rentable/leasable space) located on proposed Parcel 1 that is approximately 38 feet in height.

Plot Plan No. 25686 proposes a new two-story medical office building (14,171 sq. ft. footprint, 28,711 square foot rentable/leasable space) up to approximately 38 feet in height on proposed Parcel 2, with overall site containing approximately 287 existing parking spaces (257 spaces, 30 vanpool credits), with drainage facilities and landscaping.

The project is located southerly of 41st Avenue, easterly of Washington Street, and westerly of Sparkey Way.

BACKGROUND:

Prior Plot Plan No. 13317, which was approved in 1992 on Assessor's Parcel Number 607-070-018 and which contains existing medical office building of 14,171 square feet footprint, and 38,489 square foot rentable/leasable area, shall remain valid and in effect.

The current proposed Plot Plan No. 25686 proposes new medical office building of 14,171 square feet footprint, and 28,711 square foot rentable/leasable area, on the vacant pad portion of proposed Parcel 2.

ISSUES OF POTENTIAL CONCERN:

No issues of potential concern.

SUMMARY OF FINDINGS:

1. Existing General Plan Land Use (Ex. #5):
   Commercial Office (C-O)
2. Surrounding General Plan Land Use (Ex. #5):
   Community Development: Community Development: Commercial Office (CD-CO) (0.25 - 1.0 Floor Area Ratio) to the north, Community Development: High Density Residential (CD: HDR) (8-14 Dwelling Units Per Acre) to the south,
3. Existing Zoning (Ex. #2):
   General Residential (R-3-4,000)

4. Surrounding Zoning (Ex. #2):
   Limited Multiple Family Dwellings (R-2A-3,500)
   and Commercial Office (C-O) to the north, Limited
   Multiple Family Dwellings to the south (R-2A-
   3,200) to the south, One Family Dwellings (R-1-
   12,000) to the east, and Palm Desert Zoning to the
   west

5. Existing Land Use (Ex. #1):
   Medical Office Building, Vacant land

6. Surrounding Land Use (Ex. #1):
   Existing Church Building and Vacant land to the
   north, Multiple Family Dwellings to the south, One-
   Family Dwellings to the east, and One Family
   Dwellings with golf course to the west

7. Project Data:
   Total Acreage: 4.17 Acres
   Total Proposed Lots: Two (2)
   Proposed Min. Lot Size: 2 Acres each
   Schedule: H

8. Environmental Concerns:
   See attached environmental assessment

RECOMMENDATIONS:

ADOPT a NEGATIVE DECLARATION for ENVIRONMENTAL ASSESSMENT NO. 42732, based on
the findings incorporated in the initial study and the conclusion that the project will not have a significant
effect on the environment; and,

APPROVE TENTATIVE PARCEL MAP NO. 36837, subject to the attached conditions of approval, and
based upon the findings and conclusions incorporated in the staff report; and,

APPROVE PLOT PLAN NO. 25686, subject to the attached conditions of approval, and based upon the
findings and conclusions incorporated in the staff report.

FINDINGS: The following findings are in addition to those incorporated in the summary of findings
and in the attached environmental assessment, which is incorporated herein by reference.

1. The project site has a General Plan Land Use Designation of Commercial Office on the Western
   Coachella Valley Area Plan, which allows for a variety of office uses, including financial
   institutions, legal services, insurance services, and other office and support services, with a Floor
   Area Ratio range from 0.25 to 1.0.

2. The proposed use, medical office building, is consistent with the Commercial Office (C-O) land
   use designation (0.25 – 1.0 Floor Area Ratio) of the General Plan in that the 4.17-acre property is
   intended for commercial office space such as medical offices, and is bordered by existing
circulation facilities such as curbs gutters and sidewalks (LU 29.7), and includes desert
landscaping (WCVAP 11.1).
3. The project further complies with C-O designation in that the Floor Area Ratio (FAR) is approximately 0.25 within the allowed range of 0.25 to 1.0 FAR.

4. The project site is surrounded by properties which have a General Plan Land Use Designation of Community Development: Commercial Office (CD-CO) (0.25 - 1.0 Floor Area Ratio) to the north, Community Development: High Density Residential (CD: HDR) (8-14 Dwelling Units Per Acre) to the south, and Community Development: Very Low Density Residential (CD: VLDR) (1 Acre Minimum) to the east, and City of Palm Desert general plan to the west.

5. The zoning for the subject site is General Residential – 4,000 square feet minimum (R-3-4,000).

6. The project site is surrounded by properties which are zoned Limited Multiple Family Dwellings (R-2A-3,500) and Commercial Office (C-O) to the north, Limited Multiple Family Dwellings (R-2A-3,200) to the south, One Family Dwellings (R-1-12,000) to the east, and Palm Desert Zoning to the west.

7. The proposed use, a medical office building, is a permitted use, subject to approval of a plot plan, in the R-3-4,000 zone under Ordinance No. 348 section 8.1.A.24.

8. The proposed site plan, as designed and conditioned, is consistent with the development standards set forth in the R-3-4,000 zone in that:

   i. The minimum lot area in that zone is 7,200 square feet, and the project site is, after subdivision, approximately 2 acres, which exceeds the minimum lot area.

   ii. For buildings that exceed 35 feet in height, the building must be set back from the front and rear lot lines no less than ten feet plus two feet for each foot by which the height exceeds 35 feet. The minimum side yard for buildings that exceed 35 feet is five feet plus two feet for each foot by which the height exceeds 35 feet, and if the side yard adjoins a street, the side setback must be the same as that required for a front yard setback. The proposed building is 38 feet in height. The Project proposes front, side, and rear yard setbacks of a 75 foot front yard setback, a 100 foot side yard setbacks, and a 75 foot rear yard setbacks, which exceed the required minimum setbacks for the R-3-4,000 zone.

   iii. No lot area shall have more than 50 percent of its net area covered with buildings or structures. The project site has approximately 40% building coverage, which is below the 50 percent maximum and is therefore consistent with this requirement.

   iv. The maximum ratio of floor area to lot area shall not be greater than two to one. The project's floor area is 28,711 square feet well below the approximately 2-acre lot area and is less than two to one which is in compliance with this requirement.

   v. All buildings and structures may not exceed 50 feet in height, and the proposed building is 38 feet in height below the maximum.

   vi. Automobile storage spaces must be provided in accordance with Section 18.12. The existing parcel provides 287 parking spaces with van pools, which includes sufficient parking under Section 18.12 for the existing office building and the proposed new office building. With approximate total building square footage of 57,200 square feet for both existing and proposed office buildings, and one parking space per 200 square feet of floor area, 286 spaces are required which the existing parking lot provides with 30 van pool credits. Additionally, Condition of Approval 80.PLANNING.11 requires Reciprocal Easement for shared parking (Plot Plan No. 25686).
9. A medical office, a church building, multiple family dwellings, one-family dwellings, and existing golf course uses have been constructed and are operating in the project vicinity.

10. The proposed land division is consistent with all of the requirements of Ordinance No. 460 and section 7.1 as follows:

a) The proposed land division of a 4.17-acre parcel into 2, approximately two-acre parcels and the design and improvements of the proposed land division is consistent with the General Plan in that the Commercial Office Land Use Designation encourages commercial office land uses with Floor Area Ratios between 0.25 – 1.0 Floor Area Ratio, and the subject building has a Floor Area Ratio of approximately 0.25 within the range allowed. There is no applicable Specific Plan. In addition, the shape and size of the proposed project is similar to the development pattern in the project vicinity ensuring consistency with the development pattern of the area. The existing public right-of-way improvements are consistent with the County of Riverside’s road standards.

b) The project site is physically suitable for the proposed land division and potential future type and density of development of the land as commercial office in that the development standards for lot size are met, the topography of the project site is flat and existing roads and services are accessible.

c) Environmental review of the proposed project determined that no significant environmental impacts would occur due to project implementation. Therefore, a Negative Declaration has been prepared which has determined that no environmental damage will occur, that no fish, or wildlife or their habitat will be damaged, and that no serious public health problems will be caused as a result of this land division or type of improvements.

d) The land division is not located within a High Fire Hazard Area, emergency vehicles can easily access the project site from existing roadways, is not located within a fault zone or within a ½ mile of a fault, and will not conflict with easements that would acquire access through the project site. Therefore, health, welfare and safety of the community will not be jeopardized by the proposed land division.

11. Based on review by staff, and added Conditions of Approval the proposed Tentative Parcel Map No. 36837 is consistent with the minimum improvements as outlined in Section 10.13 (Schedule "H" Parcel Map Division) of Ordinance No. 460 as stated below:

A. Streets – Condition of Approval 10.TRANS.4 states that no additional right of way shall be required on Washington Street, 41st Avenue, and Sparkey Way since adequate right of way currently exists. Condition of Approval 10.TRANS.5 states that no additional road improvements will be required to the above bordering streets due to existing street improvements, and therefore is in compliance with Riverside County Road Improved Standards (Ordinance No. 461). It is understood that the tentative map correctly shows acceptable centerline elevations, all existing easements, traveled ways, and drainage measures such as dry wells, and that their omission or unacceptability may require the map to be resubmitted for further consideration. These Ordinances and all conditions of approval are essential parts and a requirement occurring in one is binding as though occurring in all. With these conditions the requirements of Ordinance No. 460 10.13 A. (a), (b), (c), and (d) as it pertains to streets and street improvements have been met in that Washington Street, 41st Avenue and Sparkey Way provides access to all the proposed
lots and are adequate in size to accommodate emergency vehicles and needs no further improvements.

B. Street Improvement Plans – As stated above the applicant is not required to submit any street improvement plans. Therefore, the project is consistent with Ordinance 460 Section 10.13.B.

C. Other Improvements – In terms of domestic water, Condition of Approval 10. E. HEALTH. 1 states that it is the responsibility of the developer to ensure that all requirements to obtain potable water service are met with Coachella Valley Water District as well as all other applicable agencies. In terms of fire protection, Condition of Approval 10. FIRE. 1 requires such requirements as access lanes to not exceed 15% slope ratio, access lanes to be designed for 75,000 pounds over 2 axles, all weather drive surfaces, and turnaround radius of 38-feet, and minimum 24 foot road width. Condition of Approval 10. FIRE. 2. Requires the placement of fire hydrants with a cumulative flow of 2,500 gallons per minute with 2 hour duration. Electrical facilities from Imperial Irrigation District (IID) and communication facilities such as from wireless cell towers and telephone cable equipment from various companies are located along the Washington Street corridor and immediate vicinity and no added conditions were applied. With these conditions the requirements of Ordinance No. 460 section 10.13 C. has been met.

D. Sewage Disposal – Condition of Approval 10. E. HEALTH. 1 states that proposed PM36837 is proposing sanitary sewer service from Coachella Valley Water District. Prior to building permit submittal, Condition of Approval 80.E Health. 1 states that a will serve letter is required from the agency (CVWD) serving sanitary sewers. While Schedule H maps states no sewage disposal collection system is required (for the parcel map itself), unless the land divider is required to provide the Health Department with sewage disposal feasibility report, the related plot plan (PP25686) for commercial office already requires domestic sewer service and existing sewer lines are available along Washington Street. With these conditions and related development proposal in an existing urban improved environment, the requirements of Ordinance No. 460 section 10.13 D. has been met.

E. Agricultural Lands – Agricultural lands shall be exempt from all improvement requirements specified in this section if the project site is located within an established agricultural preserve, has an agricultural zoning classification and is not less than 5 acres in size. The proposed project is not located in an agriculture preserve, does not have any zoning classification of agriculture since site is zoned General Residential (R-3-4,000), and is less than 5 acres in size. The proposed project is therefore exempt from this Section 10.13’s improvement requirements.

12. The project was reviewed by the Airport Land Use Commission on October 1, 2015 and found consistent with the Bermuda Dunes Airport Land Use Compatibility Plan. ALUC submitted a letter with the following conditions including: that outdoor lighting be hooded, the maximum building height shall not exceed 38 feet above ground level and the maximum elevation at the top of the structure shall not exceed 148 feet above mean sea level, that detention basins remain dry 48 hours after rain storms to lessen avian impacts, and that the following be prohibited: steady or flashing lights directed towards aircraft, uses that would reflected sunlight toward aircraft, smoke or water vapor generation, and uses that generate electrical interference. Condition of Approval 10.PLANNING.17 incorporates ALUC’s conditions (Plot Plan No. 25686).

13. This project is within the City Sphere of Influence of City of Palm Desert. Project information was forwarded to the City of Palm Desert. No comments or objections have been received from the City of Palm Desert as of the date of this staff report.
14. The project was presented to the Bermuda Dunes Community Council on May 14, 2015 for informational purposes only.

15. The varied roof line with stucco for the new proposed 28,711 square foot medical office building with desert landscaping along the exterior property lines shall reduce visual impacts to the surrounding community.

16. The project complies with Bermuda Dunes Neighborhood Preservation Overlay Zone in Section 19.6 of Zoning Ordinance No. 348 for example: Section 19.4 D.1.a. Street Environment: "All landscaped areas in a public street, sidewalk, or right of way that abuts a residential or commercial property shall be maintained by the property owner or agent". This standard will be met with final approved landscape plan including area along Washington Street as indicated by Condition of Approval 80.TRANS.1 – Landscape Plot Plan prior to building permit issuance, and, per Condition of Approval 10.Planning.22 - Comply Bermuda Dunes Overlay.

17. Fire protection and suppression services will be available for the subdivision through the Riverside County Fire Department.

18. The project abuts Washington Street (110’ right-of-way) and 41st Avenue (60’ right-of-way) with existing traffic signal at the intersection of these two streets, and is directly accessed from Sparkey Way (60’ right-of-way) with two 24-foot wide driveways.

19. The project is served by domestic water and sewer service from the Coachella Valley Water District.

20. Site disturbance has already occurred with the existing medical office building and parking lot with vacant commercial office pad. Potential impacts to archaeological resources were previously reviewed, and no archaeological resources were located on this lot. Notification letters regarding AB 52 were also mailed out on July 28, 2015 to the Agua Caliente Band of Cahuilla Indians and to the Soboba Band of Luiseño Indians. No request to consult was received.

21. Environmental Assessment No. 42732 identified no potentially significant environmental impacts, and no mitigation is required.

CONCLUSIONS:

1. The proposed project is in conformance with the Community Development: Commercial Office Land Use Designation, and with all other elements of the Riverside County General Plan.

2. The proposed project is consistent with the General Residential (R-3-4,000) zoning classification of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.

3. The proposed project is consistent with the Schedule H map requirements of Ordinance No. 460, and with other applicable provisions of Ordinance No. 460.

4. The public's health, safety, and general welfare are protected through project design.

5. The proposed project is compatible with the present and future logical development of the area.
6. The proposed project will not have a significant effect on the environment.

7. The proposed project is not located within a Conservation Area of the Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP).

INFORMATIONAL ITEMS:

1. As of this writing (7/6/17), one (1) public comment letter was received dated 7/3/17 regarding traffic flow along Washington Street and off-site traffic congestion at the main entrance/exit to the Woodhaven Country Club. The main entrance to the country club is approximately 1,300 feet from the existing traffic signal at Washington Street and 41st Avenue where the project site is accessed via 41st Avenue and Sparkey Way. Due to the project site's 1,300 distance from the country club entrance/exit and being on opposite side of the street than the project site, with existing curbs, gutters, sidewalk improvements along existing abutting streets, and since project is for infill purposes only on 14,171 vacant pad with existing 287 space/van pool parking lot, no further street related improvements including traffic signals are recommended. No other letters, in support or opposition have been received.

2. The project site is not located within:
   a. General Plan Policy Overlay;
   b. An Agriculture Preserve;
   c. An Area of Flooding Sensitivity
   d. A High Fire Area;
   e. A County Fault Zone;
   f. A Dam Inundation Area; or
   g. A CVMSHCP Conservation Area.

3. The project site is located within:
   a. An Airport Influence Area;
   b. Are Area of Moderate Liquefaction Potential;
   c. The boundaries of the Desert Sands Unified School District; and,
   d. Bermuda Dunes Neighborhood Preservation Overlay Zone; and
   e. Zone B of the Mt. Palomar Lighting Area.

4. The subject site is currently designated as Assessor's Parcel Number 607-070-018.

I. PROJECT INFORMATION

A. Project Description: Tentative Parcel Map No. 36837 proposes to subdivide four (4) acres into two (2) parcels (Schedule H) of approximately two (2) acres each containing an existing two-story medical office building (14,171 sq. ft. footprint, 28,489 square foot rentable/leaseable space) on proposed Parcel 1 up to approximately 38 feet in height, Plot Plan No. 25686 proposes a new two-story medical office building (14,171 sq. ft. footprint, 28,711 square foot rentable/leaseable space) up to approximately 38 feet in height on proposed Parcel 2, with overall site containing approximately 287 parking spaces (257 spaces, 30 vanpool credits), with drainage facilities and landscaping.

B. Type of Project: Site Specific ☑; Countywide □; Community □; Policy □.

C. Total Project Area: 4.17 Acres

D. Assessor's Parcel No(s): 607-070-018

E. Street References: Southerly of 41st Avenue, easterly of Washington Street, and westerly of Sparkey Way.

F. Section, Township & Range Description or reference/attach a Legal Description: Township 5 South, Range 7 East, Section 7.

G. Brief description of the existing environmental setting of the project site and its surroundings: This project site consists of an existing medical office building of approximately 28,489 square feet (Plot Plan No. 13317) on half of the existing parcel, with a vacant graded pad portion on the other half of the existing parcel. An existing church building and vacant land are to the north, multiple family dwellings to the south, one-family dwellings to the east, and one family dwellings with golf course to the west located in the City of Palm Desert. The project site is not located within a conservation area of the Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP).
II. APPLICABLE GENERAL PLAN AND ZONING REGULATIONS

A. General Plan Elements/Policies:

1. Land Use: The proposed project meets the requirements of the Community Development Commercial Office General Plan Land Use designation in that the site contains circulation facilities such as curbs, gutters and sidewalks (LU 29.7) and includes desert landscaping (WCVAP 1.1). The proposed project meets all other applicable land use policies.

2. Circulation: The project has adequate circulation to the site with improved streets including Washington Street, 41st Avenue, and Sparkey Way that contains curbs, gutters, and sidewalks. Therefore, it is consistent with the Circulation Element of the General Plan. The proposed project meets all other applicable circulation policies of the General Plan.

3. Multipurpose Open Space: No natural open space land was required to be preserved within the boundaries of this project. The proposed project meets with all other applicable Multipurpose Open Space element policies.

4. Safety: The proposed project is not located within Areas of Flooding Sensitivity. Proposed retention areas address flood impacts from increased runoff. The proposed project has allowed for sufficient provision of emergency response services. The proposed project meets with all other applicable Safety element policies.

5. Noise: Sufficient measures against any foreseeable noise sources in the area have been provided for in the design of the project. The project will not generate noise levels in excess of standards established in the General Plan or noise ordinance. The project meets all other applicable Noise Element Policies.

6. Housing: The proposed project is not housing and therefore is not subject to Housing Element Policies.

7. Air Quality: The proposed project has been conditioned to control any fugitive dust during grading activities. The proposed medical office building meets all applicable Air Quality element policies.

B. General Plan Area Plan(s): Western Coachella Valley

C. Foundation Component(s): Community Development

D. Land Use Designation(s): Commercial Office (0.25 - 1.0 Floor Area Ratio)

E. Overlay(s), if any: Not Applicable

F. Policy Area(s), if any: Not Applicable

G. Adjacent and Surrounding Area Plan(s), Foundation Component(s), Land Use Designation(s), and Overlay(s) and Policy Area(s), if any: The project site is surrounded by properties which are designated Commercial Office, High Density Residential, and Very Low Density Residential
H. Adopted Specific Plan Information

1. Name and Number of Specific Plan, if any: Not applicable

2. Specific Plan Planning Area, and Policies, if any: Not applicable

I. Existing Zoning: General Residential (R-3-4,000)

J. Proposed Zoning, if any: Not Applicable

K. Adjacent and Surrounding Zoning: The project site is surrounded by properties which are zoned Limited Multiple Family Dwellings (R-2A-3,500) and Commercial Office (C-O) to the north, Limited Multiple Family Dwellings (R-2A-3,200) to the south, and One Family Dwellings (R-1-12,000) to the east.

III. ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED

The environmental factors checked below (x) would be potentially affected by this project, involving at least one impact that is a “Potentially Significant Impact” or “Less than Significant with Mitigation Incorporated” as indicated by the checklist on the following pages.

- □ Aesthetics
- □ Agriculture & Forest Resources
- □ Air Quality
- □ Biological Resources
- □ Cultural Resources
- □ Geology / Soils
- □ Greenhouse Gas Emissions
- □ Hazards & Hazardous Materials
- □ Hydrology / Water Quality
- □ Land Use / Planning
- □ Mineral Resources
- □ Noise
- □ Population / Housing
- □ Public Services
- □ Recreation
- □ Transportation / Traffic
- □ Utilities / Service Systems

IV. DETERMINATION

On the basis of this initial evaluation:

<table>
<thead>
<tr>
<th>A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS NOT PREPARED</th>
</tr>
</thead>
<tbody>
<tr>
<td>☑ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.</td>
</tr>
<tr>
<td>☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.</td>
</tr>
<tr>
<td>☐ I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS PREPARED</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ I find that although the proposed project could have a significant effect on the environment, NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED because (a) all potentially significant effects of the proposed project have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, (b) all potentially significant effects of the proposed project have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration, (c) the proposed project will not result in any new significant environmental effects not identified in the earlier EIR or Negative Declaration, (d) the proposed project will not substantially increase the severity of the</td>
</tr>
</tbody>
</table>
environmental effects identified in the earlier EIR or Negative Declaration, (e) no considerably different mitigation measures have been identified and (f) no mitigation measures found infeasible have become feasible.

☐ I find that although all potentially significant effects have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, some changes or additions are necessary but none of the conditions described in California Code of Regulations, Section 15162 exist. An ADDENDUM to a previously-certified EIR or Negative Declaration has been prepared and will be considered by the approving body or bodies.

☐ I find that at least one of the conditions described in California Code of Regulations, Section 15162 exist, but I further find that only minor additions or changes are necessary to make the previous EIR adequately apply to the project in the changed situation; therefore a SUPPLEMENT TO THE ENVIRONMENTAL IMPACT REPORT is required that need only contain the information necessary to make the previous EIR adequate for the project as revised.

☐ I find that at least one of the following conditions described in California Code of Regulations, Section 15162, exist and a SUBSEQUENT ENVIRONMENTAL IMPACT REPORT is required: (1) Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; (2) Substantial changes have occurred with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any the following:(A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration;(B) Significant effects previously examined will be substantially more severe than shown in the previous EIR or negative declaration;(C) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measures or alternatives; or,(D) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR or negative declaration would substantially reduce one or more significant effects of the project on the environment, but the project proponents decline to adopt the mitigation measures or alternatives.

V. ENVIRONMENTAL ISSUES ASSESSMENT

In accordance with the California Environmental Quality Act (CEQA) (Public Resources Code Section 21000-21178.1), this Initial Study has been prepared to analyze the proposed project to determine any potential significant impacts upon the environment that would result from construction and implementation of the project. In accordance with California Code of Regulations, Section 15063, this Initial Study is a preliminary analysis prepared by the Lead Agency, the County of Riverside, in consultation with other jurisdictional agencies, to determine whether a Negative Declaration, Mitigated Negative Declaration, or an Environmental Impact Report is required for the proposed project. The purpose of this Initial Study is to inform the decision-makers, affected agencies, and the public of potential environmental impacts associated with the implementation of the proposed project.

<td>☐</td>
<td>☐</td>
<td>☒</td>
<td>☐</td>
</tr>
</tbody>
</table>

Source: Riverside County General Plan Figure C-9 “Scenic Highways”

Findings of Fact:

a) The project site is located along Washington Street which is designated as a scenic highway corridor. Impacts would be less than significant due to similar land uses in the area including an existing commercial medical office use on the existing project parcel and proposed additional desert landscaping. No signage is proposed at this time with the project.

b) The proposed commercial medical office use which is located within an existing commercial and residential area, will not substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features, or obstruct a prominent scenic vista or view open to the public, as these features do not exist on the project site. Additionally, the project will not result in the creation of an aesthetically offensive site open to public view as the project includes varied building elevations and will be required to have final desert landscape plan with inspections in accordance with County Ordinance No. 859 as indicated by Conditions of Approval (COA’s) such as COA 90.Trans.26–Landscape Inspection Requirements (Plot Plan No. 25686). Therefore, impacts would be less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

2. **Mt. Palomar Observatory**
   a) Interfere with the nighttime use of the Mt. Palomar Observatory, as protected through Riverside County Ordinance No. 655?

   Source: GIS database, Ord. No. 655 (Regulating Light Pollution)

   **Findings of Fact:**
   
   a) The project site is located approximately 42 miles from Mt. Palomar Observatory and is within Zone B of Ordinance No. 655. The project is therefore required to comply with Ordinance No. 655 of the *Riverside County Standards and Guidelines*. The purpose of Ordinance No. 655 is to restrict the use of certain light fixtures emitting into the night sky that can create undesirable light rays and detrimentally affect astronomical observations and research. Ordinance No. 655 mandates that all outdoor lighting, aside from street lighting, be low to the ground, hooded and directed in order to obstruct shining onto adjacent properties and streets such as COA 10.Planning.16 - Mt. Palomar Lighting Area (Plot Plan No. 25686). These are general requirements that apply throughout Zone B of Ordinance No. 655 and not mitigation pursuant to CEQA. With the above-described Condition of Approval, impacts would be less than significant.

   **Mitigation:** No mitigation measures are required.

   **Monitoring:** No mitigation measures are required.

3. **Other Lighting Issues**
   a) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?
   b) Expose residential property to unacceptable light levels?

   Source: On-site Inspection, Project Application Description

   **Findings of Fact:**
   
   a) The project consisting of a 28,711 multi-story square foot medical office building would create a new light source, however, any new source of light is not anticipated to reach a significant level due to the size and scope of the project which includes existing hooded light poles within the existing 287 space parking lot. Additionally, any lighting is conditioned to be shielded and hooded thereby reducing any lighting impacts (COA 10.Planning.3 – Lighting Hooded) (Plot Plan No. 25686). Existing and proposed desert landscaping will also buffer residential
properties to the east along Sparkey Way (COA 10.Trans.11 Landscape Requirement) (Plot Plan No 25686). Impacts would be less than significant.

b) Surrounding land uses include a commercial office building, residential dwellings, an existing church, apartments, and vacant land. The amount of light that will be created is consistent with existing levels and is not considered substantial; therefore, surrounding properties will not be exposed to unacceptable light levels. All lighting shall be shielded and hooded and will not be directed toward any adjoining properties in accordance with COA 10.Planning.3 - Lighting Hooded (Plot Plan No. 25686). No additional parking light poles are proposed with approximately 14 existing light poles which are currently hooded. Outdoor lighting impacts are therefore considered less than significant.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

### AGRICULTURE & FOREST RESOURCES

Would the project

<table>
<thead>
<tr>
<th>4. Agriculture</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland) as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?</td>
</tr>
<tr>
<td>b) Conflict with existing agricultural zoning, agricultural use or with land subject to a Williamson Act contract or land within a Riverside County Agricultural Preserve?</td>
</tr>
<tr>
<td>c) Cause development of non-agricultural uses within 300 feet of agriculturally zoned property (Ordinance No. 625 “Right-to-Farm”)?</td>
</tr>
<tr>
<td>d) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?</td>
</tr>
</tbody>
</table>

**Source:** Riverside County General Plan Figure OS-2 “Agricultural Resources,” GIS database, and Project Application Materials

**Findings of Fact:**

a-d) The project is not affected by agriculture programs and land use standards of the Riverside County General Plan. The project site is not designated as farmland of “local importance”, it is “urban-built up land”. The project is not adjacent to, or within 300 feet of agricultural zones (A-1, A-2, C/V, A-D and A-P). The project does not involve changes to the existing environment that could result in conversion of Farmland to non-agricultural use. Therefore, there would be no impact.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required
5. Forest
   a) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Govt. Code section 51104(g))?
   b) Result in the loss of forest land or conversion of forest land to non-forest use?
   c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of forest land to non-forest use?

Source: Riverside County General Plan Figure OS-3 “Parks, Forests and Recreation Areas,” and Project Application Materials.

Findings of Fact:

a) The project is not located within the boundaries of a forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Govt. Code section 51104(g)). Therefore, the proposed project will not impact land designated as forest land, timberland, or timberland zoned Timberland Production.

b) According to General Plan, the project is not located within forest land and will not result in the loss of forest land or conversion of forest land to non-forest use; therefore, no impact will occur as a result of the proposed project.

c) The project will not involve other changes in the existing environment which, due to their location or nature, could result in conversion of forest land to non-forest use.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

Source: SCAQMD Significance Thresholds and Analysis

Findings of Fact: The South Coast Air Quality Management District (SCAQMD) is responsible for developing a regional air quality management plan (Salton Sea Air Basin) to ensure compliance with state and federal air quality standards. The SCAQMD has adopted the 2012 Air Quality Management Plan (AQMP). The primary implementation responsibility assigned to the County (i.e. local governments) by the 2012 AQMP is the implementation of air quality control measures associated with transportation facilities. This project does not propose any transportation facilities that would require transportation control measures, and therefore will not obstruct implementation of the AQMP.

a) The 2012 AQMP is based on socio-economic forecasts (including population estimates) provided by the Southern California Association of Governments (SCAG). The County General Plan is consistent with SCAG’s Regional Growth Management Plan and SCAQMD’s Air Quality Management Plan. This project is consistent with the proposed General Plan Land Use designation of Commercial Office (CO), and population estimates. The population proposed by this project will not obstruct the implementation of the 2012 AQMP. Therefore, impacts are considered less than significant.

b) Minor air quality impacts would occur during business operations which the majority would come from vehicle trips to and from the commercial office site. Vehicle trips and the air quality emissions that are associated with them are anticipated to be less than significant due to the fact that the project is located within an area intended for commercial office development in the R-3-4,000 zone and is limited to approximately 57,200 square feet of total building area for the existing building previously approved under PP13317 and proposed building under PP25686 with existing parking lot not to be expanded. It is therefore reasonable to assume that a portion of the customers will be already visiting the immediate area which is bordered by existing land uses such as commercial office on same site, existing church, apartment dwellings, one family dwellings, and vacant land. Additionally, the medical office use is limited to approximately 287 spaces with van pools which spaces are vacant during long periods of time, and, automobiles are required to be CA licensed and comply with smog standards further limiting impacts to air quality. Due to the relatively limited size of the land of 4.17 acres with 28,711 square feet of proposed additional building area and associated landscaping, PM10 dust control for precise grading, air quality impacts would be minor both on a project and cumulative level. Impacts are therefore less than significant.

c) The project will not result in a cumulatively considerable net increase of any criteria pollutant for which the project region is in non-attainment status pursuant to any applicable federal or state ambient air quality standard. Due to the relatively limited size of project with 28,711 square foot additional medical office building and surrounding landscaping with PM10 dust control (COA 60.BS Grade.16 – PM10 Plan Required) (Plot Plan No. 25686), air quality impacts would be minor both on a project and cumulative level. Therefore, less than significant impacts are expected.
d) A sensitive receptor is a person in the population who is particularly susceptible to health effects due to exposure to an air contaminant than is the population at large. Sensitive receptors (and the facilities that house them) in proximity to localized CO sources, toxic air contaminants or odors are of particular concern. High levels of CO are associated with major traffic sources, such as freeways and major intersections, and toxic air contaminants are normally associated with manufacturing and commercial operations. Land uses considered to be sensitive receptors include long-term health care facilities, rehabilitation centers, convalescent centers, retirement homes, residences, schools, playgrounds, child care centers, and athletic facilities. Surrounding land uses include an existing church, apartments and one family dwellings, with vacant land, but is not expected to generate substantial point-source emissions due to the limited size of project of 4.11 acres and the type of use, an office building, which is not typically associated with significant emissions. The project will not include major transportation facilities or generate significant odors. Therefore, impacts are less than significant.

e) Surrounding uses do not include significant localized CO sources, toxic air contaminants or odors. An office building is not a sensitive receptor. Therefore, the proposed project will not involve the construction of a sensitive receptor located within one mile of an existing substantial point-source emitter. Therefore, no impacts are expected.

f) The project is merely a medical office building, which is not a type of use anticipated to create objectionable odors affecting a substantial number of people. No impacts are anticipated.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**BIOLOGICAL RESOURCES** Would the project

<table>

Source: GIS database, WRC-MSHCP and/or CV-MSHCP, Environmental Programs Division (EPD) review

Findings of Fact:

a) The proposed project is not located within a Conservation Area of the Coachella Valley Multiple Species Habitat Conservation Plan (CV-MSHCP). A review by the Environmental Programs Division of the Planning department was done to assure consistency with the CV-MSHCP plan. No inconsistencies were reported. The land is previously disturbed with existing medical office building and rough grading for a vacant commercial pad. The project is conditioned to conduct nesting bird survey prior to precise grading permit (COA 60.EPD.1 – MBTA Survey) (Plot Plan No. 25686), which is a standard condition of approval and not mitigation pursuant to CEQA. The project site does not conflict with the provisions of any of the above adopted Habitat Conservation Plans, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan. For these reasons, the proposed project will have a less than significant impact.

b) Based on the review conducted by the Environmental Programs Department (EPD), the land division will not have a substantial adverse effect, either directly or through habitat modifications, on any endangered or threatened species as listed in the California and Federal Code of Regulations since none are present within the project site. Therefore, impacts are considered less than significant.

c) Based on the review conducted by EPD, the land division will not have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Wildlife Service. Therefore impacts are expected to be less than significant.

d) With the requirement for MBTA Survey prior to grading permit issuance, as required under Condition of Approval 60.EPD.1, the proposed project will not interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors, or impede the use of native wildlife nursery sites. Therefore, less than significant impacts to wildfire corridors are anticipated.
e) The project site does contain riparian/riverine habitat due existing disturbance with existing buildings and existing paved parking lot. No impacts are expected.

f) The project will not have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act since there are no wetlands on the existing property. Therefore there is no impact.

g) The only tree preservation policy in the County relates to oak trees. The subject property does not contain any oak trees. Therefore, no impacts will result from project implementation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<table>
<thead>
<tr>
<th>CULTURAL RESOURCES</th>
<th>Would the project</th>
</tr>
</thead>
<tbody>
<tr>
<td>8. Historic Resources</td>
<td></td>
</tr>
<tr>
<td>a) Alter or destroy an historic site?</td>
<td>☐ ☐ ☐ ☒</td>
</tr>
<tr>
<td>b) Cause a substantial adverse change in the significance of a historical resource as defined in California Code of Regulations, Section 15064.5?</td>
<td>☐ ☐ ☐ ☒</td>
</tr>
</tbody>
</table>

Source: On-site Inspection, Project Application Materials

Findings of Fact:

a-b) There is no known historic site or historic structure on the project site. The project therefore does not propose the disturbance of a historic site or the demolishing of historic structures. The project will not cause a substantial adverse change in the significance of a historical resource as defined in California Code of Regulations, Section 15064.5. Therefore, the project will have no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<table>
<thead>
<tr>
<th>9. Archaeological Resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Alter or destroy an archaeological site.</td>
</tr>
<tr>
<td>b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to California Code of Regulations, Section 15064.5?</td>
</tr>
<tr>
<td>c) Disturb any human remains, including those interred outside of formal cemeteries?</td>
</tr>
<tr>
<td>d) Restrict existing religious or sacred uses within the potential impact area?</td>
</tr>
</tbody>
</table>

Source: Project Application Materials, On Site Inspection

Findings of Fact:
a) Site disturbance has already occurred with the existing medical office site with existing parking lot and pre-graded existing commercial pad. Potential impacts to archaeological resources were previously reviewed, and no archaeological resources were located on this lot. Notification letters regarding AB 52 were also mailed out to tribes including Agua Caliente Band of Cahuilla Indians and Soboba Band of Luiseño Indians for the project on July 28, 2015. No request to consult was received regarding AB 52. Therefore, the project is not anticipated to alter or destroy any known archaeological site and no impacts are anticipated.

b) The proposed project is not expected to impact archaeological resources. If, however, during any ground disturbing activities, unique cultural resources are discovered, all ground disturbances shall halt until a meeting is held between the developer, archaeologist, and Native American representative to discuss the significance of the find (COA 10.Planning.18 – Unanticipated Resources) (Plot Plan No. 25686). This is a standard condition of approval and does not constitute mitigation pursuant to CEQA. No impacts are expected.

c) No human remains have been discovered or are anticipated to be discovered at the project site. However, there may be a possibility, although unlikely, that the project’s ground disturbing activities could expose human remains. The project is subject to State Health and Safety Code Section 7050.5 if human remains are discovered during ground disturbing activities. No impacts are anticipated.

d) The project will not restrict existing religious or sacred uses within the potential impact area. Therefore, there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

10. Tribal Cultural Resources

a) Would the project cause a substantial adverse change in the significance of a Tribal Cultural Resource, defined in Public Resources Code section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American Tribe, and that is:

Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1 (k); or,

b) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1? In applying the criteria set forth in subdivision (c) of Public Resources Code Section 5024.1 for the purpose of this paragraph, the lead agency shall consider the significance to a California Native tribe.
Source: Project Application Materials

Findings of Fact:

a-b) In compliance with Assembly Bill 52 (AB52), notifications regarding this project were mailed to the Agua Caliente Band of Cahuilla Indians and Soboba Band of Luiseño Indians for the project on July 28, 2015. No request to consult was received regarding AB 52. There are no known physical tribal cultural resources at the project site, and any new ground disturbing activities are limited to precise grading on previously graded pad. For these reasons, there is anticipated to be no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

11. Paleontological Resources
   a) Directly or indirectly destroy a unique paleontological resource, or site, or unique geologic feature?

   Source: GIS database, County Geologist review

Findings of Fact:

   a) According to GIS database, this site has been mapped as having a low potential for paleontological resources. Due to low potential, no paleontological report has been required. However, should fossil remains be encountered, all site earthmoving shall be ceased, the County Paleontologist shall be notified, the applicant shall retain a qualified paleontologist (COA 10.Planning.20 – Low Paleo) (Plot Plan No. 25686). This is a standard requirement for all projects that may involve grading or ground disturbance and therefore does not qualify as mitigation pursuant to CEQA. No impacts are anticipated.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

GEOLOGY AND SOILS Would the project

12. Alquist-Priolo Earthquake Fault Zone or County Fault Hazard Zones
   a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death?

   b) Be subject to rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault?

   Source: Riverside County General Plan Figure S-2 “Earthquake Fault Study Zones,” GIS database, County Geologic Report No. 2485
Findings of Fact:

a) According to RCLIS (GIS database), the proposed project is not located within a fault or special studies zone. Based on the review of aerial photos, site mapping and literature research, there is no evidence of active faults crossing trending toward the subject site that would expose people to structures to potential substantial adverse risks. Therefore, no impacts are expected.

b) In addition, the site is not located within one-half mile from an earthquake fault zone. Therefore, the potential for this site to be affected by surface fault rupture is considered low and no impacts are expected.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

13. Liquefaction Potential Zone
   a) Be subject to seismic-related ground failure, including liquefaction?
   
   Source: Riverside County General Plan Figure S-3 “Generalized Liquefaction”, GIS Database, County Geologic Report No. 2485

Findings of Fact:

a) According to the County Geologist, the potential for liquefaction is moderate at this site and the potential for seismically induced liquefaction is unlikely. The project will be precise graded with desert landscaping surrounding the additional commercial office pad and proposed building. County Geologic Report No. 2485 recommended over excavations extending at least 5 feet below proposed grade or 3 foot below the lowest proposed footings within the building areas and 2 to 3 feet below proposed footings in wall areas whichever is deeper (COA 10. Planing 21- GEO 2485 Accepted) (Plot Plan No. 25686). Compliance with California Building Code (CBC 2016) also addresses any potential liquefaction concerns during grading activities for the finished pad. Therefore, impacts from liquefaction are less than significant.

Mitigation: No mitigation measures required.

Monitoring: No monitoring measures are required.

14. Ground-shaking Zone
   Be subject to strong seismic ground shaking?
   
   Source: Riverside County General Plan Figure S-4 “Earthquake-Induced Slope Instability Map,” and Figures S-13 through S-21 (showing General Ground Shaking Risk), County Geologist review

Findings of Fact:
a) There are no known active or potentially active faults that traverse the site and the site is not located within an Alquist-Priolo Earthquake Fault Zone. The principal seismic hazard that could affect the site is ground shaking resulting from an earthquake occurring along several major active or potentially active faults in southern California. CBC 2016 requirements pertaining to development will mitigate the potential impact to less than significant.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No mitigation measures are required.

---

15. **Landslide Risk**

a) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, collapse, or rockfall hazards?

**Source:** Riverside County General Plan Figure S-5 “Regions Underlain by Steep Slope”, Geologist review

**Findings of Fact:**

a) According to the County Geologist, landslides are not a potential hazard to the site. Therefore, the project will have no impact.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

16. **Ground Subsidence**

a) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in ground subsidence?

**Source:** GIS database, County Geologist review

**Findings of Fact:**

a) According to GIS database, the site is located in an area susceptible to subsidence. However, County Geologist review concluded that subsidence in the area will not cause any differential settlement or cracking to the proposed graded pad and building foundation subject to the CBC 2016. Impacts would be less than significant.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

17. **Other Geologic Hazards**

a) Be subject to geologic hazards, such as seiche, mudflow, or volcanic hazard?
Source: Project Application Materials, County Geologist review

a) According to the County Geologist, tsunamis and seiches are not potential hazards to the site because there are no nearby bodies of water. There are similarly no nearby volcanoes. Therefore, the project will have no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

18. Slopes
   a) Change topography or ground surface relief features? □ □ □ ☒
   b) Create cut or fill slopes greater than 2:1 or higher than 10 feet? □ □ □ ☒
   c) Result in grading that affects or negates subsurface sewage disposal systems? □ □ □ ☒

Source: Project Application Materials, Building and Safety – Grading Review

Findings of Fact:

a) The proposed project contains relatively flat topography on existing rough graded commercial pad. The proposed project will not substantially alter ground surface relief features. Therefore, there is no impact.

b) No slopes with a slope ratio greater than two to one (2:1) (horizontal run: vertical rise) are proposed. Therefore, there is no impact.

c) No infiltration lines will be disturbed as a result of the project. Therefore, there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

19. Soils
   a) Result in substantial soil erosion or the loss of topsoil? □ □ ☒ □
   b) Be located on expansive soil, as defined in Section 1802.3.2 of the California Building Code (2007), creating substantial risks to life or property? □ □ ☒ □
   c) Have soils incapable of adequately supporting use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water? □ □ □ ☒

Source: General Plan figure S-6 "Engineering Geologic Materials Map", Project Application Materials, Building and Safety Grading review
a) The project will not result in substantial soil erosion or loss of top soil since the 4.17 acre site is largely improved with existing office building and paved parking lot. Any new grading shall be limited to 14,171 square foot vacant pad with desert landscaping and small drainage features such as dry wells on the property. Furthermore, precise grading is limited to approximately 600 cubic yards of cut and 600 cubic yards of fill. Therefore, impacts would be less than significant.

b) The expansion potential of the onsite soils is considered low, and engineered cut and fill will create less than significant impacts.

c) The project site does not propose septic systems or alternative waste water disposal. Therefore, there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

20. Erosion
   a) Change deposition, siltation, or erosion that may modify the channel of a river or stream or the bed of a lake?
   b) Result in any increase in water erosion either on or off site?

Source: Flood Control District review, Project Application Materials

Findings of Fact:
   a) The project is not near a river, stream, or lakebed and therefore will not have an impact or change deposition, siltation, or erosion that may modify the channel of a river, stream, or the bed of a lake. While the project site is within the overall Whitewater River Basin, there are no rivers in the vicinity of the project located in Bermuda Dunes. Therefore, there would be no impact.

   b) The proposed project is anticipated to slightly increase water erosion, but the existing on-site dry wells and existing transportation-related improvements will prevent any impacts from rising to a level of significance (COA 10. BS Grade.7 Erosion Control Protection) (Plot Plan No. 25686). The project is required to accept and properly dispose of all off-site drainage flowing onto or through the site. Impacts related to water erosion are considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.
21. Wind Erosion and Blowsand from project either on or off site.
   a) Be impacted by or result in an increase in wind erosion and blowsand, either on or off site?

   Source: Riverside County General Plan Figure S-8 “Wind Erosion Susceptibility Map,” Ord. 460, Sec. 14.2 & Ord. 484

   Findings of Fact:
   a) The project site lies within a moderate wind erosion susceptibility area. The project site is not anticipated to be heavily impacted by wind erosion and blow sand because of existing site improvements such as an approximately 89,710-square-foot paved and lighted automobile parking area, and a required PM 10 Plan (COA 60.BS Grade.16) (Plot Plan No. 25686) for precise grading of vacant pad area. Impacts would be less than significant.

   Mitigation: No mitigation measures are required.

   Monitoring: No monitoring measures are required.

GREENHOUSE GAS EMISSIONS  Would the project

22. Greenhouse Gas Emissions
   a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?

   b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?

   Source: Project application materials

   Findings of Fact:

   a) The Planning Department does not require a greenhouse gas numerical analysis for small projects that would not contribute cumulatively significant amounts of exhaust emissions or generate cumulatively considerable levels of GHGs from fuel combustion or involve substantial water and electricity demands. The type of small-scale development authorized by this project would not generate enough GHG emissions from its operation to be deemed cumulatively significant sufficient to warrant quantitative or qualitative GHG analysis. More specifically, the California Air Pollution Control Officers Association (CAPCOA) proposed a very aggressive 900 metric tons per year of GHG emissions threshold for residential and commercial projects. The intent of the 900-ton threshold is to capture 90% of all new residential and commercial development projects. CAPCOA's threshold was based on the amount of GHG emissions associated with 50 single-family residential units, which accounts for 84% of the projects in California. The 900-ton threshold would also correspond to apartments/condominiums of 70 units, office projects of approximately 35,000 square feet, retail projects of 11,000 square feet, and supermarkets of 6,300 square feet, but would exclude smaller residential developments, offices and retail stores from having to quantify and mitigate GHG emissions under CEQA. Because of this small size of the proposed project, its contribution to GHG emissions is far
below the 900-ton threshold that might otherwise trigger GHG analysis according to CAPCOA’s model. Therefore, the impact is considered less than significant.

b) As of the creation of this environmental analysis, the only adopted policy that would impact this project at the time of approval would be AB 32. This project does not conflict with the requirements of AB 32 such as due to California Smog Requirements for most customers that use the existing 287 space parking lot with van pools. Therefore, there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<td></td>
</tr>
</tbody>
</table>

Source: Project Application Materials

Findings of Fact:

a) The project does not propose any use that would involve the transport, use, or disposal of hazardous material—beyond a small increase in typical commercial cleaning agents to be used with the proposed medical office building. Therefore, less than significant impacts are expected.

b) The proposed project is not anticipated to create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment. Therefore, there is no impact.

c) The proposed project will not impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan. The project allows for adequate emergency access. Therefore, there is no impact.
d) There are no existing or proposed schools within 1000 feet the project site. Also, the proposed project does not propose the transportation of substantial amounts of hazardous materials. Therefore, there is no impact.

e) The proposed project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, would not create a significant hazard to the public or the environment. Therefore, there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

Source: Riverside County General Plan Figure S-19 “Airport Locations,” GIS database Airport Land Use Commission letter dated October 1, 2015

a) The project site is located within an Airport Master Plan. The project was determined by the Airport Land Use Commission on October 1, 2015 to be “consistent” with the 2004 Bermuda Dunes Airport Land Use Compatibility Plan. There will be no impact.

b) The project site is located within an Airport Master Plan and required review by the Airport Land Use Commission. Compliance with the Airport Land Use Commission (ALUC) Letter dated October 1, 2015 summarized as follows: that outdoor lighting be hooded, the maximum building height shall not exceed 38 feet above ground level and the maximum elevation at the top of the structure shall not exceed 148 feet above mean sea level, that detention basins remain dry 48 hours after rain storms to lessen avian impacts, and that the following be prohibited: steady or flashing lights directed towards aircraft, uses that would reflected sunlight toward aircraft, smoke or water vapor generation, and uses that generate electrical interference as stated under COA 10.Planning.17 – ALUC Letter (Plot Plan No. 2568). These are standard conditions of approval for projects within an Airport Land Use Plan and does not qualify as mitigation pursuant to CEQA. As a result of these measures, impacts would be less than significant.

c) The project site is located within an airport land use plan and was determined to be consistent based on conditions as stated in the October 1, 2015 letter from ALUC; therefore the project
will not create a safety hazard for people residing or working in the project area in reference to a public airport or public use airport. Impacts would be less than significant.

d) The project is not within the vicinity of a private airstrip, or heliport and would not result in a safety hazard for people residing or working in the project area. Therefore, there is no impact.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**25. Hazardous Fire Area**

- a) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?

Source: Riverside County General Plan Figure S-11 “Wildfire Susceptibility,” GIS database

**Findings of Fact:**

- a) The project site is in an urbanized area and is not located in a high fire area. Therefore, there is no impact.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**HYDROLOGY AND WATER QUALITY** Would the project

**26. Water Quality Impacts**

- a) Substantially alter the existing drainage pattern of the site or area, including the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation on- or off-site?

- b) Violate any water quality standards or waste discharge requirements?

- c) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?

- d) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?

- e) Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?
f) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?

Source: Coachella Valley Water District (CVWD) letter dated December 3, 2014; Hydrology Study dated June 16, 2016 by Armstrong and Brooks Consulting Engineers

Findings of Fact:

- a) The topography of the site is partially improved and graded desert land to be paved for a medical office building. The project would not substantially alter the existing drainage patterns of the project site; however, the project is required to submit final drainage plans and allow easements for drainage. The owner must provide measures to be incorporated into the development to prevent flooding of the site or downstream properties as part of the drainage of the site (COA's 60.Trans.7-Drainage Plans and 60.Trans.8-Easement for Drainage) (Plot Plan No. 25686) which will include on site dry wells capable of infiltrating the 100-year 24 hour storm event. Therefore, impacts are less than significant.

- b) The proposed project will not violate any water quality standards or waste discharge requirements. The water quality calculations were based on the Design Handbook for Low Impact Development Best Management Practices (BMP's). The Whitewater Watershed spreadsheet was applied in the water quality calculations. Impacts would be less than significant with the BMP's incorporated and required BMP permit (COA BS Grade 60.BMP.14 Construction NPDES Permit) (Plot Plan No. 25686). These BMP's are standard, generally applicable requirements and therefore do not qualify as mitigation measures pursuant to CEQA.

- c) The proposed project will not substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted). Additionally, plans for grading, a final desert landscape plan, and irrigation are required to be reviewed and approved by the Coachella Valley Water District ensuring efficient water management and County Transportation Landscape Inspections (COA 90.Trans.27- LC Comply / Irrigation Comply) (Plot Plan No. 25686). Therefore, there is less than significant impact.

- d) The project has the potential to contribute to additional polluted runoff water. However, due to the small size of the project, the project will not exceed the capacity of planned storm water drainage systems with site improvements including on-site dry wells capable of infiltrating the 100 year 24 hour storm event. The project provides for adequate drainage facilities and/or appropriate easements. Therefore, the impact is considered less than significant.
e) The proposed project will not place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map. Therefore, there is no impact.

f) The project proposes a medical office building within Zone X on the Federal Flood Insurance rate maps, but is less than significant due to dry wells to retain incremental increase of storm water runoff (COA 60.BS Grade.6 – Drainage Design Q100) (Plot Plan No. 25686).

g) The proposed project is not anticipated to substantially degrade water quality due to the Water Quality Management Plan required prior to grading permit issuance (COA 60.Trans.6–WQMP). Impacts would less than significant.

h) The site proposes drainage infrastructure. The proposed project does include construction of new or retrofitted storm water Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins). BMPs are standard, generally applicable requirements and therefore do not qualify as mitigation measures pursuant to CEQA. Impacts would be less than significant.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

### 27. Floodplains

**Degree of Suitability in 100-Year Floodplains.** As indicated below, the appropriate Degree of Suitability has been checked.

<td>□</td>
</tr>
<tr>
<td>d) Changes in the amount of surface water in any water body?</td>
<td>□</td>
<td>□</td>
</tr>
</tbody>
</table>

**Source:** Coachella Valley Water District (CVWD) letter dated December 3, 2014; Hydrology Study dated June 16, 2016 by Armstrong and Brooks Consulting Engineers

**Findings of Fact:**

a) The project will not substantially alter the existing drainage pattern for the area due to proposed drainage improvements including requirement for on-site dry wells capable of infiltrating the 100 year 24 hour storm event in order to prevent flooding to downstream properties. The project lies in the area of the Whitewater River Basin. The site is currently an
existing medical office building of approximately 28,489 square feet with adjacent vacant pre-graded pad where drainage is absorbed by the existing soil, however, the site contains a fully improved impervious parking lot surface which 100% drainage to be kept on-site through use of additional on-site dry wells with inlet grates and inlet capacity calculations to limit drawn down time to not exceed 48 hours to accommodate the additional proposed 28,711 square foot medical office building. Impacts are therefore considered less than significant with drainage improvements including dry wells and desert landscaping (COAs 60.BSGrade.6 Drainage Design and 80.Trans.18.Landscape Plot Plan). (Plot Plan No. 25686)

b) It is not anticipated that offsite flows will be substantially affected by implementation of the proposed project due to proposed drainage improvements largely consisting of proposed on-site dry wells as outlined in the approved hydrology report. Therefore, the impact is considered less than significant.

c) The proposed project would not expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam due to proposed drainage improvements such as on-site dry wells as outlined in the approved hydrology report. In addition, the project site is not located in an area susceptible to the impacts of the failure of a levee or dam. Impacts are considered less than significant.

d) There is no nearby surface water body, and therefore the proposed project is not expected to change the amount of surface water in any body of water. Therefore, there is no impact.

Mitigation: No mitigation measures are required.
Monitoring: No monitoring measures are required.

LAND USE/PLANNING Would the project

28. Land Use
   a) Result in a substantial alteration of the present or planned land use of an area? □ □ X □

b) Affect land use within a city sphere of influence and/or within adjacent city or county boundaries? □ □ X □

Source: GIS database, Project Application Materials

Findings of Fact:

a) The project would result in an alteration of the present land use of the area since an additional medical office building on an overall 4.11 acre site would be constructed. The subject land is located within an existing commercial and residential area intended for such development. The project would be consistent with the subject land since the land is currently designated Commercial Office (CO), and areas with a Land Use Designation of CO are generally envisioned for such medical office uses. The subject land also proposes a tentative parcel map (Schedule H) to subdivide the 4.11 gross acre site into two parcels of 2 gross acres each to accommodate the commercial office uses in the General Residential (R-3-4,000) zone including previous commercial office approved under Plot Plan No. 13317 in 1992 which remains valid and in effect, and new proposed commercial office building under Plot Plan No. 25686. In order to record the map the project is conditioned to prepare a final map with County Survey Office (COA 50.Planning.1 Prepare Final Map) (PM36837). Therefore, impacts would
be less than significant. See also discussion under Sections I and II, herein, as it relates to project land use, zoning, and general plan consistency.

b) The project is located within the Sphere of Influence (SOI) of the City of Palm Desert. The project is consistent with surrounding uses and will not affect land use within the City of Palm Desert or its SOI. Project Information was forwarded to the City of Palm Desert, and no comments have been received as of this writing. The project attended the Bermuda Dunes Community Council on May 14, 2015 for informational purposes. Impacts would be less than significant.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

<table>
<thead>
<tr>
<th>29. Planning</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Be consistent with the site's existing or proposed zoning?</td>
</tr>
<tr>
<td>b) Be compatible with existing surrounding zoning?</td>
</tr>
<tr>
<td>c) Be compatible with existing and planned surrounding land uses?</td>
</tr>
<tr>
<td>d) Be consistent with the land use designations and policies of the Comprehensive General Plan (including those of any applicable Specific Plan)?</td>
</tr>
<tr>
<td>e) Disrupt or divide the physical arrangement of an established community (including a low-income or minority community)?</td>
</tr>
</tbody>
</table>

**Source:** Riverside County General Plan Land Use Element, Staff review, GIS database

**Findings of Fact:**

a-b) The project will be consistent with the site's existing General Residential (R-3-4,000) zone due to the proposed commercial office land use which is specifically listed as permitted with an approved plot plan. The proposed commercial building complies with development standards of the R-3-4000 zone such a minimum lot area of 7,200 square feet, the site is 4.17 acres. The project is surrounded by properties which are zoned Limited Multiple Family Dwellings (R-2A-3,500) and Commercial Office (C-O) to the north, Limited Multiple Family Dwellings to the south (R-2A-3,200) to the south, One Family Dwellings (R-1-12,000) to the east, and Palm Desert Zoning to the west. The project would buffer adjacent zones with perimeter treatment, hooded lighting, and landscaping (CCAs 80.Planning.8 Lighting Plans and 80.Trans.18 Landscape Plot Plan) (Plot Plan No. 25686). Therefore, impacts would be less than significant.

c-d) The proposal to add a medical office with existing parking will be conditionally compatible with existing and surrounding land uses including a medical office, existing church building, multiple family dwellings, one-family dwellings, and existing golf course uses, which have been constructed and are operating in the project vicinity, which project includes buffering and perimeter treatment such as landscaping. Therefore, impacts would be less than significant.
e) The project area is compatible with the project’s proposed use, and therefore the project will not disrupt or divide the physical arrangement of an established community. There will be no impact.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required

### MINERAL RESOURCES Would the project

#### 30. Mineral Resource

| a. Result in the loss of availability of a known mineral resource that would be of value to the region or the residents of the State? | ☐ | ☐ | ☐ | ☒ |
| b. Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan? | ☐ | ☐ | ☐ | ☒ |
| c. Be an incompatible land use located adjacent to a State classified or designated area or existing surface mine? | ☐ | ☐ | ☐ | ☒ |
| d. Expose people or property to hazards from proposed, existing or abandoned quarries or mines? | ☐ | ☐ | ☐ | ☒ |

**Source:** Riverside County General Plan Figure OS-5 “Mineral Resources Area”

a) The project area has not been used for mining. Therefore, the project would not result in the loss of availability of a known mineral resource in an area classified or designated by the State that would be of value to the region or the residents of the State. Therefore, there is no impact.

b) The project site has not been used for mineral resources; therefore, the project will not result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan. Therefore, there is no impact.

c) Surrounding the project site are commercial and industrial buildings, residences, and vacant land. There are no existing surface mines surrounding the project site; therefore, the project will be compatible with the surrounding uses and will not be located adjacent to a State classified, designated area, or existing surface mine. Therefore, there is no impact.

d) The project site is not located adjacent or near an abandoned quarry mine; therefore, the project will not expose people or property to hazards from quarry mines. Therefore, there is no impact.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.
NOISE Would the project result in

Definitions for Noise Acceptability Ratings
Where indicated below, the appropriate Noise Acceptability Rating(s) has been checked.
NA - Not Applicable  A - Generally Acceptable  B - Conditionally Acceptable
C - Generally Unacceptable  D - Land Use Discouraged

31. Airport Noise

   e. For a project located within an airport land
      use plan or, where such a plan has not been adopted,
      within two miles of a public airport or public use airport
      would the project expose people residing or working in the
      project area to excessive noise levels?
      NA  A  B  C  D

   f. For a project within the vicinity of a private
      airstrip, would the project expose people residing or
      working in the project area to excessive noise levels?
      NA  A  B  C  D

Source: Riverside County General Plan Figure S-19 “Airport Locations,” County of Riverside Airport
Facilities Map

Findings of Fact:

a) The project site is located within two miles of a public use airport that would expose people using
the project to some airport noise, but the noise level would be less than significant due to commercial
nature of the project in compliance with the 2016 CBC.

b) The project is not located within the vicinity of a private airstrip and would not expose people
residing on the project site or area to excessive noise levels. No impacts are expected.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

32. Railroad Noise

   NA  A  B  C  D

Source: Riverside County General Plan Figure C-1 “Circulation Plan”, GIS database, On-site
Inspection

Findings of Fact: The proposed project is not located within immediate vicinity of an existing rail road,
and there would no impact due to commercial nature of the project.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

33. Highway Noise

   NA  A  B  C  D

Page 28 of 41
EA 42732
Source: On-site Inspection, Project Application Materials

Findings of Fact: The proposed project is located within approximately 2,500 feet of Interstate 10 located to the north and immediately adjacent to Washington Street to the west, but there would no impact due to commercial nature of the project in compliance with 2016 CBC.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<table>
<thead>
<tr>
<th>35. Noise Effects on or by the Project</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?</td>
</tr>
<tr>
<td>b) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?</td>
</tr>
<tr>
<td>c) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?</td>
</tr>
<tr>
<td>d) Exposure of persons to or generation of excessive ground-borne vibration or ground-borne noise levels?</td>
</tr>
</tbody>
</table>

Source: Riverside County General Plan, Table N-1 ("Land Use Compatibility for Community Noise Exposure"); Project Application Materials

Findings of Fact:

a) The project shall not create a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project. The proposed development for medical office will not substantially increase ambient noise levels due to existing traffic noise along Washington Street. No outdoor speakers are proposed. Therefore, impacts are less than significant.

b) The proposed project may create a short-term temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project during project grading
from construction equipment. However, the project will be consistent with the County Noise Ordinance No. 847; therefore, impacts are considered less than significant.

c) The proposed project will not expose people to or generate noise levels in excess of standards established in the local general plan, noise ordinance (County Ordinance No. 847), or applicable standards of other agencies. Exterior noise levels will be limited to less than or equal to 45 dB(A) 10-minute LEQ between the hours of 10:00 p.m. to 7:00 a.m., and 65 dB(A) at all other times pursuant to County Ordinance No. 847 (COA's 10.Planning.11 – Exterior Noise Levels). Therefore, impacts are expected to be less than significant.

d) The proposed project will not expose people to or generate excessive ground-borne vibration or ground-borne noise levels. Therefore, there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No mitigation measures are required.

<td>☐ ☐ ☒ ☐</td>
</tr>
</tbody>
</table>

Source: Project Application Materials, GIS database, Riverside County General Plan Housing Element

Findings of Fact:

a) The proposed project will not displace any existing residences due to the commercial nature of the project. Therefore, there is no impact.

b) The proposed project would create a demand for additional housing due to the commercial nature of the project with approximately 30 new employees as result of the 28,711 square foot commercial office. However, this would create a minor amount of additional housing need due
to small increase of workers at the site with existing housing units located in the surrounding area including Bermuda Dunes and City of Palm Desert.

c) The project site will not displace substantial numbers of people necessitating the construction of replacement housing elsewhere due to commercial nature of the project. Therefore, there is no impact.

d) The project is not located within or near a County Redevelopment Project Area. Therefore, there is no impact.

e) The project would add a new business with up to approximately 30 employees and up to 100 construction jobs. This population increase will not exceed official regional or local population projections. Therefore, there is no impact.

f) The project will not induce substantial population growth in an area since the business would be for medical office with up to approximately 30 employees, and there are approximately 49 employees within an existing medical office on same property previously approved under PP13317. Impacts from the addition of approximately 30 employees or less would be less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

PUBLIC SERVICES Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered government facilities or the need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

37. Fire Services

Source: Riverside County General Plan Safety Element

Findings of Fact:

The proposed commercial office will have a less than significant impact on the demand for Fire services since the project provides adequate fire access along Washington Street, 41st Avenue with minimum 24 foot wide driveway entrances from Sparkey Way. Fire protection improvements such as maintaining minimum required fire truck access (COA’s 10.Fire.2 – Fire Access) (Plot Plan No. 25686) shall be required.

Additionally, the project will not result in substantial adverse physical impacts associated with the provision of new or physically altered government facilities or the need for new or physically altered governmental facilities. As such, this project will not Fire Services’ ability to maintain acceptable service ratios, response times or other performance objectives for any of the public services. Therefore, the impact is considered less than significant.

Mitigation: No mitigation measures are required.

<th>Less Than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Source: Riverside County General Plan

Findings of Fact:
The Riverside County Sheriff's Department (RCSD) provides law enforcement and crime prevention services to the project site. Similar to fire protection services, the proposed project will slightly increase the demand for sheriff services in the project area; however, due to its limited size, the proposed project will create a less than significant impact on sheriff services.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

39. Schools

<table>

</tbody>
</table>

Source: GIS database

Findings of Fact:
The Desert Sands Unified School District provides public education services for the project area. The applicant is anticipated to be required to pay school fees due to new medical office building (COA 80.Planning.6 - School Fees) (Plot Plan No. 25686). Therefore, impacts are less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

40. Libraries

<table>

<th>Less Than Significant Impact</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Source: Riverside County General Plan

Findings of Fact:
The proposed project will not create an incremental demand for library services. The project will not require the provision of new or altered government facilities at this time. Therefore, there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.
### Health Services

**Source:** Riverside County General Plan

**Findings of Fact:**

The use of the proposed project area would not cause a significant impact on health services since the project proposes approximately 30 workers who could potentially work at the new medical office building. The site is located within the service parameters of County health centers. The project will not physically alter existing health facilities or result in the construction of new or physically altered health facilities. Therefore, there is no impact.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

### RECREATION

#### 42. Parks and Recreation

- **a)** Would the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment? ☒

- **b)** Would the project include the use of existing neighborhood or regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? ☒

- **c)** Is the project located within a Community Service Area (CSA) or recreation and park district with a Community Parks and Recreation Plan? (Quimby fees) ☒

**Source:** GIS database, Ord. No. 460, Section 10.35 (Regulating the Division of Land – Park and Recreation Fees and Dedications), Ord. No. 659 (Establishing Development Impact Fees), Parks & Open Space Department Review

**Findings of Fact:**

- **a)** The scope of the proposed project does not involve the construction or expansion of recreational facilities that would have an adverse physical effect on the environment since the land is part of an existing commercial area. Therefore, there is no impact.

- **b)** Due to the relatively small size of the 4.11-acre site which allows commercial office uses, it is not anticipated that the project could generate impacts to nearby parks or recreational facilities. Therefore, there would be no impact.

- **c)** The project is not subject to Quimby fees at this time due to subdivision which does not generate habitable dwelling parcels. Thus, there is no impact.
**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

### 43. Recreational Trails

**Source:** Riverside County General Plan

**Findings of Fact:** The General Plan does not identify a Class I Bikeway/Regional Trail along Washington Street, therefore, no impacts are anticipated.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No mitigation measures are required.

### TRANSPORTATION/TRAFFIC Would the project

<table>
<thead>
<tr>
<th>44. Circulation</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Conflict with an applicable plan, ordinance or policy establishing a measure of effectiveness for the performance of the circulation system, taking into account all modes of transportation, including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit?</td>
</tr>
<tr>
<td>b) Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?</td>
</tr>
<tr>
<td>c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?</td>
</tr>
<tr>
<td>d) Alter waterborne, rail or air traffic?</td>
</tr>
<tr>
<td>e) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?</td>
</tr>
<tr>
<td>f) Cause an effect upon, or a need for new or altered maintenance of roads?</td>
</tr>
<tr>
<td>g) Cause an effect upon circulation during the project’s construction?</td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Source: Riverside County General Plan

Findings of Fact:

a) The proposed project to add a commercial office will slightly increase vehicular traffic on the surrounding streets including Washington Street (110' right-of-way), 41st Avenue (60' right-of-way), and Sparkey Way (60' right-of-way) within a residential and commercial area. However, the Transportation Department did not require a traffic study due to existing streets with curb, gutter, street light, and sidewalk improvements already built in conformance with the General Plan (COA 10.Trans.4—No Additional Road Improvements). The project will not cause an increase in traffic which is substantial in relation to the existing traffic loads and capacity of the street system in that the additional traffic would be limited to existing 287 parking spaces with van pools. Nor will the project conflict with any County policy regarding mass transit. TUMF mitigation fees shall be required (COA 80.Trans.3 - TUMF), which is a standard requirement that does not qualify as mitigation pursuant to CEQA. Impacts are considered less than significant.

b) The project site meets all parking requirements of Ordinance No. 348 Section 18.12 “Off-Street Parking.” Project parking consists of approximately 287 spaces with van pools. With approximate total building square footage of 57,200 square feet for both existing and proposed office buildings, and one parking space per 200 square feet of floor area, 287 spaces are required which the existing parking lot provides with 30 van pool credits. Additionally, Condition of Approval 80.PLANNING.11 requires Reciprocal Easement for shared parking (Plot Plan No. 25686). The project will not conflict with an applicable congestion management plan. Therefore, there is no impact.

c & d) The proposed project is located within an Airport Influence Area. The project will not change air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks or alter waterborne or rail traffic patterns. Therefore, there is no impact.

e) The proposed project will not substantially increase hazards to a design feature (e.g. sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). Therefore, there is no impact.

f) The project may cause a slight increase in the population of the area, thus creating an increase in road maintenance responsibility. A portion of property taxes are provided to the Bermuda Dunes #121 County Service Area to offset the increased cost of road related maintenance. Therefore, there is a less than significant impact.

g) It is not anticipated that there will be a substantial effect upon circulation during the proposed project’s construction. Therefore, this impact is considered less than significant.

h) The proposed project will not result in inadequate emergency access or access to nearby uses. Therefore, there is no impact.

i) The proposed project will not conflict with adopted policies supporting alternative transportation (e.g. bus turnouts, bicycle racks). Therefore, there is no impact.
Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

45. Bike Trails

Source: Riverside County General Plan

Findings of Fact: The General Plan does not identify a Class I Bikeway/Regional Trail along Washington Street or surrounding streets. Therefore there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

UTILITY AND SERVICE SYSTEMS Would the project

46. Water
   a) Require or result in the construction of new water treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effects?
   □ □ □ □

   b) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?
   □ □ □ □

Source: Coachella Valley Water District correspondence and Department of Environmental Health Review

   a) The proposed project is served by the Coachella Valley Water District (CVWD) for domestic water (COA 10 E. Health.1 Water & Sewer Service) (PM36837), and would result in the expansion of existing water line facilities as the result of the medical office and desert landscape irrigation. Impacts would be less than significant.

   b) Based on review by CVWD and correspondence, it is anticipated that the project will have sufficient water supplies available for the project. A preliminary desert landscape irrigation plan has been prepared and reviewed by CVWD and the County Transportation Department in accordance with County Ordinance No. 859 and Riverside County Desert Friendly Landscape Guide which will limit impacts to ground water supply. Therefore, the impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

45. Sewer
   a. Require or result in the construction of new wastewater treatment facilities, including septic systems, or expansion of existing facilities, the construction of which
would cause significant environmental effects?

b. Result in a determination by the wastewater treatment provider that serves or may service the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?

Source: Department of Environmental Health Review; Coachella Valley Water District correspondence

Findings of Fact:

a) The proposed project is served by the Coachella Valley Water District (CVWD) for sanitation service (COA 10 E. Health.1 Water & Sewer Service) (PM36837) and would not result in the construction of new waste water treatment facilities or expansion of existing facilities as the result of the new medical office. Less than significant impacts are anticipated.

b) The proposed project is affected by adequate wastewater treatment capacity to serve the existing project site since new building proposed. Less than significant impacts are anticipated.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

46. Solid Waste

a) Is the project served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?

b) Does the project comply with federal, state, and local statutes and regulations related to solid wastes including the CIWMP (County Integrated Waste Management Plan)?

Source: Riverside County General Plan, Riverside County Waste Management District correspondence

Findings of Fact:

a-b) The project will generate less than significant trash waste due to proposed medical office building with existing waste disposal and dumpsters including for medical waste (COA 10.E. Health.3 - Medical Waste Generator) in compliance with Riverside County Ordinance No. 718.1 and California Health and Safety Code Sections 117600-118300 of the Medical Waste Management Act. Additionally, adequate disposal facilities and services are located on the project site subject to review and approval by County Waste Resources Department with required Waste Recycling Plan (WRP) as indicated by COAs such as 90.Planning.16- Co. Waste Resources (Plot Plan No. 25686) which includes disposal by local waste hauler. Impacts are therefore less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.
## 47. Utilities

Would the project impact the following facilities requiring or resulting in the construction of new facilities or the expansion of existing facilities; the construction of which could cause significant environmental effects?

<table>
<thead>

<td>[ ]</td>
</tr>
</tbody>
</table>

**Source:** Riverside County General Plan

**Findings of Fact:**

- a, b, c) No letters have been received eliciting responses that the proposed project would require substantial new facilities or expand facilities. The project will require utility services in the form of electricity, natural gas, and telecommunications. Each of the utility systems is available at the project site and lines will have to be extended onto the vacant pad portion. These impacts are considered less than significant based on the availability of existing public facilities that support local systems. Compliance with the requirements of Imperial Irrigation District, Southern California Gas, and the telephone company will ensure that potential impacts to utility systems are reduced. Therefore, there will be a less than significant level of impact.

- d) The project would use existing storm water drainage facilities including curbs, gutters already in place along Washington Street, 41st Avenue, and Sparkey Way to be maintained by County Transportation Department with less than significant impacts.

- e) Existing street lights are located along Washington Street. Electricity is available at the project site and lines will have to be extended onto the site. These impacts are considered less than significant based on the availability of existing public facilities that support local systems. Less than significant impact to occur.

- f) Based on data available at this time, no offsite utility improvements will be required to support this project. This impact is considered less than significant.

- g) The project will not require additional government services. No impact

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

## 48. Energy Conservation

- a) Would the project conflict with any adopted energy conservation plans?
Source: Riverside County General Plan

Findings of Fact:

a-b) The proposed project would result in a new medical office building. This land use would primarily increase electrical usage. The proposed project would develop the site in a manner consistent with the County’s General Plan land use designations for the property, and energy demands associated with the proposed Project are addressed through long range planning by energy purveyors and can be accommodated as they occur. Therefore, project implementation is not anticipated to result in the need for the construction or expansion of existing energy generation facilities, the construction of which could cause any significant environmental effects.

The State of California regulates energy consumption under Title 24 of the California Code of Regulations with efficiency standards. As such, the development and operation of the proposed project would not conflict with applicable energy conservation plans, and impacts would be less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<table>
<thead>
<tr>
<th>MANDATORY FINDINGS OF SIGNIFICANCE</th>
</tr>
</thead>
<tbody>
<tr>
<td>49. Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?</td>
</tr>
<tr>
<td>[ ] Potentially Significant Impact</td>
</tr>
</tbody>
</table>

Source: Staff review, Project Application Materials

Findings of Fact: Implementation of the proposed project would not substantially degrade the quality of the environment, substantially reduce the habitat of fish or wildlife species, cause a fish or wildlife populations to drop below self-sustaining levels, threaten to eliminate a plant or animal community, or reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory.

| 50. Does the project have impacts which are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, other current projects and probable future projects)? |
| [ ] Potentially Significant Impact | [ ] Less than Significantly with Mitigation Incorporated | [x] Less Than Significant Impact | [ ] No Impact |
Source: Staff review, Project Application Materials

Findings of Fact: The project does not have impacts which are individually limited, but cumulatively considerable, due to the relatively small size of the 4.17 acre site for proposed additional medical office building on approximately 14,171 square footprint, 28,711 square foot rentable/leaseable space portion on the southeast corner of Washington Street and 41st Avenue. The site is surrounded by existing commercial and residential development such as multiple and single family dwellings and would largely serve traffic and customers who would normally visit this area even without the additional medical office building.

There are no cumulatively considerable impacts associated with the project that are not already evaluated and disclosed throughout this environmental assessment, including minor traffic increase which would use existing adjoining streets which are improved and project landscaping to improve the aesthetics of the current planned development of the area. Additionally, air quality and greenhouse gas emissions would be individually limited due to California Vehicle Smog requirements for the automobiles that access the property with 287 parking spaces and vanpools, and would not be cumulatively considerable. Impacts are less than significant.

51. Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly? □ □ □ □ X

Source: Staff review, project application

Findings of Fact: The proposed project would not result in environmental effects which would cause substantial adverse effects on human beings, either directly or indirectly.

VI. EARLIER ANALYSES

Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration as per California Code of Regulations, Section 15063 (c) (3) (D). In this case, a brief discussion should identify the following:

- Earlier Analyses Used, if any: SCAQMD
- GP: Riverside County General Plan
- RCLIS: Riverside County Land Information System
- PP13317, EA36340

Location Where Earlier Analyses, if used, are available for review:

Location: County of Riverside Planning Department
77-588 El Duna Ct. Ste. H

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1  MAP - DEFINITIONS

The words identified in the following list that appear in all capitals in the attached conditions of Tentative Parcel Map No. 36837 shall be henceforth defined as follows:

FINAL MAP = Final Map or Parcel Map for the TENTATIVE MAP whether recorded in whole or in phases.

10. EVERY. 2  MAP - HOLD HARMLESS

The applicant/permittee or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside or its agents, officers, and employees (COUNTY) from the following:

(a) any claim, action, or proceeding against the COUNTY to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the TENTATIVE MAP or FINAL MAP, which action is brought within the time period provided for in California Government Code Section 66499.37; and,

(b) any claim, action or proceeding against the COUNTY to attack, set aside, void or annul any other decision made by the COUNTY concerning the TENTATIVE MAP or FINAL MAP, including, but not limited to, decisions made in response to California Public Records Act requests.

The COUNTY shall promptly notify the applicant/permittee of any such claim, action, or proceeding and shall cooperate fully in the defense. If the COUNTY fails to promptly notify the applicant/permittee of any such claim, action, or proceeding or fails to cooperate fully in the defense, the applicant/permittee shall not, thereafter, be responsible to defend, indemnify or hold harmless the COUNTY.

The obligations imposed by this condition include, but are not limited to, the following: the applicant/permittee shall pay all legal services expenses the COUNTY incurs in connection with any such claim, action or proceeding,
10. GENERAL CONDITIONS

10. EVERY. 2  MAP - HOLD HARMLESS (cont.)

whether it incurs such expenses directly, whether it is
ordered by a court to pay such expenses, or whether it
incurs such expenses by providing legal services through
its Office of County Counsel.

10. EVERY. 3  MAP - PROJECT DESCRIPTION

The land division hereby permitted is to subdivide four (4)
acres into two (2) parcels (Improvement Schedule H) of
approximately two (2) acres each containing an existing
two-story medical office building (14,171 square feet
footprint, 28,489 s.f. rentable/leaseable) on Parcel 1 up
to approximately 38 feet in height, and, separate Plot Plan
(LP25686) proposes a new two-story medical office building
(14,171 square feet footprint, 28,711 maximum rentable/
leaseable) up to approximately 38 feet in height on Parcel
2, with overall site containing approximately 287 parking
spaces (257 spaces, 30 vanpool credits).

BS GRADE DEPARTMENT

10.BS GRADE. 1  MAP - GENERAL INTRODUCTION

Improvements such as grading, filling, stockpiling, over
excavation and recompaction, and base or paving which
require a grading permit are subject to the included
Building and Safety Department conditions of approval.

10.BS GRADE. 3  MAP - OBEY ALL GDG REGS

All grading shall conform to the California Building Code,
Ordinance 457, and all other relevant laws, rules, and
regulations governing grading in Riverside County and prior
to commencing any grading which includes 50 or more cubic
yards, the applicant shall obtain a grading permit from the
Building and Safety Department.

10.BS GRADE. 4  MAP - DISTURBS NEED G/PMT

Ordinance 457 requires a grading permit prior to clearing,
grubbing, or any top soil disturbances related to
construction grading.
10. GENERAL CONDITIONS

10.5 MAP - NPDES INSPECTIONS

Construction activities including clearing, stockpiling, grading or excavation of land which disturbs less than 1 acre and requires a grading permit or construction Building permit shall provide for effective control of erosion, sediment and all other pollutants year-round. The permit holder shall be responsible for the installation and monitoring of effective erosion and sediment controls. Such controls will be evaluated by the Department of Building and Safety periodically and prior to permit Final to verify compliance with industry recognized erosion control measures.

Construction activities including but not limited to clearing, stockpiling, grading or excavation of land, which disturbs 1 acre or more or on-sites which are part of a larger common plan of development which disturbs less than 1 acre are required to obtain coverage under the construction general permit with the State Water Resources Control Board. You are required to provide proof of WDID# and keep a current copy of the storm water pollution prevention plan (SWPPP) on the construction site and shall be made available to the Department of Building and Safety upon request.

Year-round, Best Management Practices (BMP's) shall be maintained and be in place for all areas that have been graded or disturbed and for all material, equipment and/or operations that need protection. Stabilized Construction Entrances and project perimeter linear barriers are required year round. Removal BMP's (those BMP's which must be temporarily removed during construction activities) shall be in place at the end of each working day.

Monitoring for erosion and sediment control is required and shall be performed by the QSD or QSP as required by the Construction General Permit. Stormwater samples are required for all discharge locations and projects may not exceed limits set forth by the Construction General Permit Numeric Action Levels and/or Numeric Effluent Levels. A Rain Event Action Plan is required when there is a 50% or greater forecast of rain within the 48 hours, by the National Weather Service or whenever rain is imminent. The QSD or QSP must print and save records of the precipitation forecast for the project location area from (http://www.srh.noaa.gov/forecast) and must accompany monitoring reports and sampling test data. A Rain gauge is
10. GENERAL CONDITIONS

10.BS GRADE. 5 MAP - NPDES INSPECTIONS (cont.)

required on site. The Department of Building and Safety
will conduct periodic NPDES inspections of the site
throughout the recognized storm season to verify compliance
with the Construction General Permit and Stormwater
ordinances and regulations.

10.BS GRADE. 6 MAP - EROS CNTRL PROTECT

Graded but undeveloped land shall provide, in addition to
erosion control planting, any drainage facility deemed
necessary to control or prevent erosion. Additional
erosion protection may be required during the rainy season
from October 1, to May 31.

10.BS GRADE. 7 MAP - DUST CONTROL

All necessary measures to control dust shall be implemented
by the developer during grading. A PM10 plan may be
required at the time a grading permit is issued.

10.BS GRADE. 8 MAP - 2:1 MAX SLOPE RATIO

Graded slopes shall be limited to a maximum steepness ratio
of 2:1 (horizontal to vertical) unless otherwise approved.

10.BS GRADE. 9 MAP - MINIMUM DRNAGE GRADE

Minimum drainage grade shall be 1% except on portland cement
concrete where .35% shall be the minimum.

E HEALTH DEPARTMENT

10.E HEALTH. 1 USE - *WATER AND SEWER SERVICE

PM36837 is proposing potable water service from Coachella
Valley Water District (CVWD) and sanitary sewer service
from CVWD. It is the responsibility of the developer to
ensure that all requirements to obtain potable water
service and sanitary sewer service are met with the
appropriate purveyor(s) as well as all other applicable
agencies.

Any existing onsite wastewater treatment system and/or
onsite water well shall be properly removed or abandoned
under permit with the Department of Environmental Health.
10. GENERAL CONDITIONS

10.E HEALTH. 2  HAZMAT BEP

The facility requires a business plan for the storage of hazardous materials greater than 55 gallons, 200 cubic feet, or 500 pounds, or any acutely hazardous materials or extremely hazardous substances.

10.E HEALTH. 3  USE -MEDICAL WASTE GENERATOR

Medical Waste Generators must submit medical waste documentation and a permit application, with appropriate fees to Environmental Health Department, in accordance with Riverside County Ordinance 718.1 and the California State Health and Safety Code Sections 117600-183600, Medical Waste Management act.

FIRE DEPARTMENT

10.FIRE. 1   MAP-FIRE ACCESS

Fire Apparatus access roads shall be in compliance with the Riverside County Fire Prevention Standards.
- Access lanes will not have an up, or downgrade of more than 15%.
- Access lanes will be designed to withstand the weight of 75,000 pounds over 2 axles.
- Access will have a turning radius capable of accommodating fire apparatus.
- Access lanes shall be constructed with a surface so as to provide all weather driving capabilities.
- Any turn-around requires a minimum 38-foot turning radius.
- Access roads shall have an unobstructed width of not less than 24 feet along with an unobstructed vertical clearance of not less than 13 feet 6 inches.

10.FIRE. 2   MAP-FIRE HYDRANTS

The required water system, including fire hydrants, shall be installed and accepted by the appropriate water agency prior to any combustible building material being placed on an individual lot. Two sets of water plans are to be submitted to the Fire Department for approval. Three fire hydrants will be required with a cumulative flow of 2,500 gpm with a 2 hour duration at a minimum 20 psi residual pressure (based on the square footage of 35,340 Type V-N fully sprinklered).
10. GENERAL CONDITIONS

PLANNING DEPARTMENT

10.PLANNING. 1 MAP - MAP ACT COMPLIANCE

his land division shall comply with the State of California Subdivision Map Act and to all requirements of County Ordinance No. 460, Schedule H, unless modified by the conditions listed herein.

10.PLANNING. 2 MAP - FINAL MAP PREPARER

The FINAL MAP shall be prepared by a licensed land surveyor or registered civil engineer.

10.PLANNING. 3 MAP - FEES FOR REVIEW

Any subsequent review/approvals required by the conditions of approval, including but not limited to grading or building plan review or review of any mitigation monitoring requirement, shall be reviewed on an hourly basis, or other appropriate fee, as listed in county Ordinance No. 671. Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 4 MAP - ZONING STANDARDS

Lots created by this TENTATIVE MAP shall be in conformance with the development standards of the R-3-4,000 zone.

10.PLANNING. 5 MAP - 90 DAYS TO PROTEST

The project applicant has 90 days from the date of approval of these conditions to protest, in accordance with the procedures set forth in Government Code Section 66020, the imposition of any and all fees, dedications, reservations and/or other exactions imposed on this project as a result of the approval or conditional approval of this project.

10.PLANNING. 9 MAP - ORD 875 CVMSHCP FEE (1)

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection approval, the holder of the construction permit(s) shall comply with the provisions of Riverside County Ordinance No. 875, which requires payment of the appropriate fee set forth in that ordinance. Riverside County Ordinance No. 875 has been established to set forth policies, regulations and fees
10. GENERAL CONDITIONS

10.PLANNING. 9  MAP - ORD 875 CVMSHCP FEE (1) (cont.)  RECOMMEND

related to the funding and acquisition of open space and
habitat necessary to address the direct and cumulative
environmental effects generated by new development projects
described and defined in the ordinance within the Coachella
Valley and surrounding mountains.

The fee shall be paid for each residential unit to be
constructed within a residential land division. The amount
of the fee for commercial and industrial projects shall be
calculated on the bases of "Project Area".

In the event Riverside County Ordinance No. 875 is
rescinded, this condition will no longer be applicable.
However, should Riverside County Ordinance No. 875 be
rescinded and superseded by a subsequent mitigation fee
ordinance, payment of the appropriate fee set forth in that
ordinance shall be required.

10.PLANNING. 10  MAP - ORD NO. 659 (DIF)  RECOMMEND

Prior to the issuance of either a certificate of occupancy
or prior to building permit final inspection, the applicant
shall comply with the provisions of Riverside County
Ordinance No. 659, which requires the payment of the
appropriate fee set forth in the Ordinance. Riverside
County Ordinance No. 659 has been established to set forth
policies, regulations and fees related to the funding and
construction of facilities necessary to address the direct
and cumulative environmental effects generated by new
development projects described and defined in this
ordinance, and it establishes the authorized uses of the
fees collected.

The fee shall be paid for each residential unit to be
constructed within this land division. In the event
Riverside County Ordinance No. 659 is rescinded, this
condition will no longer be applicable. However, should
Riverside County Ordinance No. 659 be rescinded and
superseded by a subsequent mitigation fee ordinance,
payment of the appropriate fee set forth in that ordinance
shall be required.

10.PLANNING. 11  MAP - UNANTICIPATED RESOURCES  RECOMMEND

The developer/permit holder or any successor in interest
shall comply with the following for the life of this
10. GENERAL CONDITIONS

10.PLANNING. 11  MAP - UNANTICIPATED RESOURCES (cont.)  RECOMMND

project:
1) If during ground disturbance activities, cultural resources are discovered that were not assessed by the archaeological reports and/or environmental assessment conducted prior to project approval, the following procedures shall be followed. A cultural resources site is defined, for this condition, as being three or more artifacts in close association with each other, but may include fewer artifacts if the area of the find is determined to be of significance due to it sacred or cultural importance.

a) All ground disturbance activities within 100 feet of the discovered cultural resource shall be halted until a meeting is convened between the developer, the project archaeologist, the Native American tribal representative (or other appropriate ethnic/cultural group representative), and the Planning Director to discuss the significance of the find.

b) At the meeting, the significance of the discoveries shall be discussed and after consultation with the Native American tribal (or other appropriate ethnic/cultural group representative) and the archaeologist, a decision is made, with the concurrence of the Planning Director, as to the appropriate mitigation (documentation, recovery, avoidance, etc) for the cultural resource.

c) Further ground disturbance shall not resume within the area of the discovery until an agreement has been reached by all parties as to the appropriate preservation or mitigation measures.

10.PLANNING. 12  MAP - IF HUMAN REMAINS FOUND  RECOMMND

The developer/permit holder or any successor in interest shall comply with the following for the life of this project:

Human remains require special handling, and must be treated with appropriate dignity. Pursuant to State Health and Safety Code Section 7050.5, if human remains are encountered, no further disturbance shall occur until the County Coroner has made the necessary findings as to origin. Specific actions must take place pursuant to CEQA Guidelines *15064.5e, State Health and Safety Code Section 7050.5 and Public Resource Code (PRC) *5097.98. In the event of the accidental discovery or recognition of any human remains in any location other than a dedicated cemetery, the following procedures shall be followed:
10. GENERAL CONDITIONS

10.PLANNING. 12 MAP - IF HUMAN REMAINS FOUND (cont.) RECOMMND

a) There shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent human remains until:
   i) A County Official is contacted.
   ii) The County Coroner is contacted to determine that no investigation of the cause of death is required, and if the Coroner determines the remains are Native American:
      iii) The Coroner shall contact the Native American Heritage Commission within 24 hours.

b) The Commission shall identify the person or persons it believes to be the most likely descended from the deceased Native American.

c) The Most Likely Descendent (MLD) may make recommendations to the landowner or the person responsible for the excavation work, for the treatment of human remains and any associated grave goods as provided in PRC §5097.98.

d) Under the following conditions, the landowner or his authorized representative shall rebury the Native American human remains and associated grave goods on the property in a location not subject to further disturbance:
   i) The Commission is unable to identify a MLD or the MLD failed to make a recommendation within 24 hours after being notified by the commission.
      (1) The MLD identified fails to make a recommendation; or
      (2) The landowner or his authorized representative rejects the recommendation of the MLD, and the mediation.

10.PLANNING. 13 MAP - LOW PALEO RECOMMND

According to the County's General Plan, this site has been mapped as having a "Low Potential" for paleontological resources. This category encompasses lands for which previous field surveys and documentation demonstrates a low potential for containing significant paleontological resources subject to adverse impacts. As such, this project is not anticipated to require any direct mitigation for paleontological resources. However, should fossil remains be encountered during site development:

1. All site earthmoving shall be ceased in the area of where the fossil remains are encountered. Earthmoving activities may be diverted to other areas of the site.

2. The owner of the property shall be immediately notified of the fossil discovery who will in turn immediately notify the County Geologist of the discovery.
10. GENERAL CONDITIONS

3. The applicant shall retain a qualified paleontologist approved by the County of Riverside.

4. The paleontologist shall determine the significance of the encountered fossil remains.

5. Paleontological monitoring of earthmoving activities will continue thereafter on an as-needed basis by the paleontologist during all earthmoving activities that may expose sensitive strata. Earthmoving activities in areas of the project area where previously undisturbed strata will be buried but not otherwise disturbed will not be monitored. The supervising paleontologist will have the authority to reduce monitoring once he/she determines the probability of encountering any additional fossils has dropped below an acceptable level.

6. If fossil remains are encountered by earthmoving activities when the paleontologist is not onsite, these activities will be diverted around the fossil site and the paleontologist called to the site immediately to recover the remains.

7. Any recovered fossil remains will be prepared to the point of identification and identified to the lowest taxonomic level possible by knowledgeable paleontologists. The remains then will be curated (assigned and labeled with museum* repository fossil specimen numbers and corresponding fossil site numbers, as appropriate; places in specimen trays and, if necessary, vials with completed specimen data cards) and catalogued, an associated specimen data and corresponding geologic and geographic site data will be archived (specimen and site numbers and corresponding data entered into appropriate museum repository catalogs and computerized data bases) at the museum repository by a laboratory technician. The remains will then be accessioned into the museum repository fossil collection, where they will be permanently stored, maintained, and, along with associated specimen and site data, made available for future study by qualified scientific investigators. * Per the County of Riverside "SABER Policy", paleontological fossils found in the County of Riverside should, by preference, be directed to the Western Science Center in the City of Hemet.
10. GENERAL CONDITIONS

10.PLANNING. 13 MAP - LOW PALEO (cont.) (cont.) RECOMMEND

8. The property owner and/or applicant on whose land the paleontological fossils are discovered shall provide appropriate funding for monitoring, reporting, delivery and curating the fossils at the institution where the fossils will be placed, and will provide confirmation to the County that such funding has been paid to the institution.

10.PLANNING. 14 MAP - GEO002485 ACCEPTED RECOMMEND

County Geologic Report GEO No. 2485, submitted for the project PM36837, APN 607-070-018, was prepared by LGC Geo-environmental, Inc., and is titled; "Updated Preliminary Geotechnical Report for the Proposed Medical Office Development Located at 41120 Washington Street in the City of Bermuda Dunes, Riverside County, California," dated February 29, 2016. In addition, LGC Geo-environmental, Inc. has submitted the following reports:

These documents are herein incorporated in GEO002485.

GEO002485 concluded:
1. Based on a review of published and unpublished geologic maps and reports, and a review of aerial photography for the site, active or potentially active faults are not known to exist on the site.
2. Review of geologic literature and our geologic mapping of the property does not indicate the presence of landslides on or directly adjacent to the site.
3. Adverse effects on the proposed development resulting from groundwater are not anticipated.
4. In consideration of the anticipated grading, recommended overexcavations, proposed structures and improvements, and subsurface material types and their conditions, unfavorable ground subsidence is not anticipated.
5. The estimated static differential settlement is 0.25 inch
10. GENERAL CONDITIONS

10.PLANNING. 14    MAP - GEO02485 ACCEPTED (cont.)    RECOMMEND

and the estimated seismic differential settlement is 1.00 inch.
GEO02485 recommended:
1. Weeds, grasses, and trees in areas to be graded should be stripped and hauled offsite.
2. The upper 2 to 6 feet of potentially compressible undocumented artificial fill, topsoil and weathered alluvial deposits are considered unsuitable for support of proposed fills, structures, and/or improvements, and should be overexcavated to expose underlying competent alluvial deposits.
3. Overexcavations should also extend at least 5 feet below proposed grade or 3 feet below the lowest proposed footings, within the building areas and 2 feet to 3 feet below proposed footings in wall areas, whichever is deeper.

GEO No. 2485 satisfies the requirement for a geologic/geotechnical study for Planning/CEQA purposes.
GEO No. 2485 is hereby accepted for planning purposes.
Engineering and other Building Code parameters were not included as a part of this review or approval. This approval is not intended and should not be misconstrued as approval for grading permit. Engineering and other building code parameters should be reviewed and additional comments and/or conditions may be imposed by the County upon application for grading and/or building permits.

TRANS DEPARTMENT

10.TRANS. 2    MAP - DRAINAGE 1    RECOMMEND

The land divider shall protect downstream properties from damages caused by alteration of the drainage patterns, i.e., concentration or diversion of flow. Protection shall be provided by constructing adequate drainage facilities including enlarging existing facilities and/or by securing a drainage easement. All drainage easements shall be shown on the final map and noted as follows: "Drainage Easement - no building, obstructions, or encroachments by landfills are allowed". The protection shall be as approved by the Transportation Department.
10. GENERAL CONDITIONS

10.TRAN. 3  MAP - DRAINAGE 2  RECOMMEND

The land divider shall accept and properly dispose of all off-site drainage flowing onto or through the site. In the event the Transportation Department permits the use of streets for drainage purposes, the provisions of Article XI of Ordinance No. 460 will apply. Should the quantities exceed the street capacity or the use of streets be prohibited for drainage purposes, the subdivider shall provide adequate drainage facilities and/or appropriate easements as approved by the Transportation Department.

10.TRAN. 4  MAP - NO ADD'L ON-SITE R-O-W  RECOMMEND

No additional on-site right-of-way shall be required on Washington Street, 41st Avenue and Sparkey Way since adequate right-of-way exists.

10.TRAN. 5  MAP - NO ADD'L ROAD IMPRVMTS  RECOMMEND

No additional road improvements will be required at this time along Washington Street, 41st Avenue and Sparkey Way due to existing improvements.

10.TRAN. 7  MAP - STD INTRO 3(ORD 460/461)  RECOMMEND

With respect to the conditions of approval for the referenced tentative exhibit, the land divider shall provide all street improvements, street improvement plans and/or road dedications set forth herein in accordance with Ordinance 460 and Riverside County Road Improvement Standards (Ordinance 461). It is understood that the tentative map correctly shows acceptable centerline elevations, all existing easements, traveled ways, and drainage courses with appropriate Q's, and that their omission or unacceptability may require the map to be resubmitted for further consideration. These Ordinances and all conditions of approval are essential parts and a requirement occurring in ONE is as binding as though occurring in all. All questions regarding the true meaning of the conditions shall be referred to the Transportation Department.

10.TRAN. 8  MAP - UTILITY INSTALL. 1  RECOMMEND

Electrical power, telephone, communication, street lighting, and cable television lines shall be placed underground in accordance with Ordinance 460 and 461.
10. GENERAL CONDITIONS

10.TRANS. 8 MAP - UTILITY INSTALL. 1 (cont.) RECOMMEND

This also applies to existing overhead lines which are 33.6 kilovolts or below along the project frontage and within the project boundaries.

10.TRANS. 10 MAP - COUNTY WEB SITE RECOMMEND

Additional information, standards, ordinances, policies, and design guidelines can be obtained from the Transportation Department Web site: http://rctima.org/trans/. If you have questions, please call the Plan Check Section at (951) 955-6527.

20. PRIOR TO A CERTAIN DATE

PLANNING DEPARTMENT

20.PLANNING. 1 MAP - EXPIRATION DATE RECOMMEND

The conditionally approved TENTATIVE MAP shall expire three (3) years after the county of Riverside Board of Supervisors original approval date, unless extended as provided by County Ordinance No. 460. Action on a minor change and/or revised map request shall not extend the time limits of the originally approved TENTATIVE MAP. A Land Management System (LMS) hold shall be placed on the TENTATIVE MAP, and a LMS hold shall be placed on any subsequent minor change or revised map, which shall be set to take effect on the expiration date. The LMS hold effective date shall be extended in accordance with any permitted extensions of time. The LMS hold shall be downgraded to a LMS notice upon recordation of the the first phase of the TENTATIVE MAP. The LMS hold or notice shall remain in effect until the recordation of the final phase of the TENTATIVE MAP. If the TENTATIVE MAP expires before the recordation of the final phase the LMS hold or notice shall remain in effect and no further FINAL MAP recordation shall be permitted.

50. PRIOR TO MAP RECORDATION

PLANNING DEPARTMENT

50.PLANNING. 1 MAP - PREPARE A FINAL MAP RECOMMEND

After the approval of the TENTATIVE MAP and prior to the expiration of said map, the land divider shall cause the real property included within the TENTATIVE MAP, or any
50. PRIOR TO MAP RECORDATION

50.PLANNING. 1 MAP - PREPARE A FINAL MAP (cont.)

part thereof, to be surveyed and a FINAL MAP thereof
prepared in accordance with the current County
Transportation Department - Survey Division requirements,
the conditionally approved TENTATIVE MAP, and in accordance
with Article IX of County Ordinance No. 460.

50.PLANNING. 2 MAP - SURVEYOR CHECK LIST

The County Transportation Department - Survey Division
shall review any FINAL MAP and ensure compliance with the
following:

A. All lots on the FINAL MAP shall be in substantial
   conformance with the approved TENTATIVE MAP relative to
   size and configuration.

B. All lots on the FINAL MAP shall have a minimum lot size
   of 87,000 net square feet.

C. All lot sizes and dimensions on the FINAL MAP shall be
   in conformance with the development standards of the
   ___ zone, and with the Riverside County General Plan.

D. All lots on the FINAL MAP shall comply with the length
to width ratios, as established by Section 3.8.C. of County
   Ordinance No. 460.

E. All knuckle or cul-de-sac lots shall have a minimum of
   35 feet of frontage measured at the front lot line.

F. The common open space area[s] shall be shown as a
   numbered lot[s] on the FINAL MAP.

50.PLANNING. 3 MAP - ECS AFFECTED LOTS

The following note shall be placed on the FINAL MAP:
"Environmental Constraint Sheet affecting this map is on
file in the County of Riverside Transportation Department -
Survey Division, in E.C.S. Book ___, Page ___. This affects
Parcels 1 & 2.

50.PLANNING. 7 MAP - ECS NOTE MT PALOMAR LIGH

The following Environmental Constraint Note shall be placed
on the ECS:
50. PRIOR TO MAP RECORDATION

50.PLANNING. 7 MAP - ECS NOTE MT PALOMAR LIGH (cont.) RECOMMND

"This property is subject to lighting restrictions as required by County Ordinance No. 655, which are intended to reduce the effects of night lighting on the Mount Palomar Observatory. All proposed outdoor lighting systems shall be in conformance with County Ordinance No. 655."

50.PLANNING. 8 MAP - FEE BALANCE RECOMMND

Prior to recordation, the Planning Department shall determine if the deposit based fees for the TENTATIVE MAP are in a negative balance. If so, any unpaid fees shall be paid by the land divider and/or the land divider's successor-in-interest.

50.PLANNING. 9 MAP - CC&R C/I MO COM. EASE RECOMMND

The land divider shall (a) notify the Planning Department that the following documents shall be shortly, or have been, submitted to the Office of the County Counsel for the review and approval of that office; and (b) the land divider shall submit to the Office of the County Counsel the following documents:

1. A cover letter identifying the project for which approval is sought referencing the Planning Department case number(s) (a copy of this cover letter may be sent to the Planning Department to serve as notification) and identifying one individual to represent the land divider if there are any questions concerning the review of the submitted documents; and

2. One (1) copy AND one (1) original, wet signed, notarized and ready for recordation declaration of covenants, conditions, and restrictions; attached to these documents there shall be included a legal description of the property included within the covenants, conditions and restrictions and a scaled map or diagram of such boundaries, both signed and stamped by a California registered civil engineer or licensed land surveyor; and

3. A sample document conveying title to the purchaser of an individual lot or unit which provides that the declaration of covenants, conditions and restrictions is incorporated therein by reference; and,

4. A deposit equaling three (3) hours of the current
50. PRIOR TO MAP RECORDATION

50.PLANING. 9  MAP - C&R C/I MO COM. EASE (cont.)  RECOMMND

hourly fee for the Review of Covenants, Conditions and Restrictions established pursuant to County Ordinance No. 671 at the time the above referenced documents are submitted to the Office of the County Counsel for review and approval.

The declaration of covenants, conditions and restrictions submitted for review shall a) provide for a minimum term of 60 years, b) provide reciprocal easements for ingress, egress and parking, c) provide for the establishment of a maintenance operator, and d) contain the following provisions verbatim:

"Notwithstanding any provision in this Declaration to the contrary, the following provisions shall apply:

The Maintenance Operator established herein shall manage and continuously maintain the 'landscape area', more particularly described on Exhibit '___', attached hereto.

The Maintenance Operator shall have the right to assess the owners of each individual parcel for the reasonable cost of maintaining such 'landscape area', and shall have the right to lien the property of any such owner who defaults in the payment of a maintenance assessment. An assessment lien, once created, shall be prior to all other liens recorded subsequent to the notice of assessment or other document creating the assessment lien.

This Declaration shall not be terminated, 'substantially' amended, or property deannexed therefrom absent the prior written consent of the Planning Director of the County of Riverside or the County's successor-in-interest. A proposed amendment shall be considered 'substantial' if it affects the extent, usage, or maintenance of the 'landscape area' or reciprocal easement established pursuant to the Declaration."

Once approved, the copy and the original declaration of covenants, conditions and restrictions shall be forwarded by the Office of the County Counsel to the Planning Department. The Planning Department will retain the one copy for the case file, and forward the wet signed and notarized original declaration of covenants, conditions and restriction to the County Transportation Department - Survey Division - for safe keeping until the final map is ready.
50. PRIOR TO MAP RECORDATION

50.PLANNING. 9  MAP - CC&R C/I MO COM. EASE (cont.) (cont.) RECOMMEND

for recordation. The County Transportation Department - Survey Division - shall record the original declaration of covenants, conditions and restrictions in conjunction with the recordation of the final map.

50.PLANNING. 11 MAP - CC&R RECIPROCAL EASEMENT RECOMMEND

The land divider shall (a) notify the Planning Department that the following documents shall be shortly, or have been, submitted to the Office of the County Counsel for review; and (b) the land divider shall submit copies of the following documents to the Planning Department for concurrent review along with any condition review fee; and (c) the documents to be submitted by the land divider to the Office of the County Counsel shall include all of the following:

1. A cover letter identifying the project for which approval is sought referencing the Planning Department case number;

2. A copy AND an original wet signed, notarized grant of reciprocal easement document, which includes, but is not necessarily limited to, both a legal description of the boundaries of the reciprocal easement and a scaled map or diagram of such boundaries, both signed and stamped by a California registered civil engineer or licensed land surveyor;

3. A sample document conveying title to the purchaser of an individual lot or unit which provides that the grant of reciprocal easement is incorporated therein by reference; and

4. A deposit equaling three (3) hours at the current hourly rate for the Review of Covenants, Conditions and Restrictions as established pursuant to Ordinance No. 671 at the time the above documents are submitted for review by the Office of the County Counsel.

The grant of reciprocal easement document submitted for review shall (a) provide for no limit to the term of years or life of the reciprocal easement, (b) provide reciprocal easements for ingress and egress, parking, [drainage and flood control facilities between lots/parcels shown on the TENTATIVE MAP, and (c) contain the following provisions
50. PRIOR TO MAP RECORDATION

50.PLANNING. 11 MAP - CC&R RECIPROCAL EASEMNT (cont.) RECOMMEND

verbatim:

"Notwithstanding any provision in this Grant of Reciprocal Easement to the contrary, the following provision shall apply:

This Grant of Reciprocal Easement shall not be terminated, 'substantially' amended, or property deannexed therefrom absent the prior written consent of the Planning Director of the County of Riverside, or the County's successor-in-interest. A proposed amendment shall be considered 'substantial' if it affects the extent, usage or maintenance of the reciprocal easement established pursuant to the Grant of Reciprocal Easement."

Once approved by the Office of the County Counsel, the copy and the original grant of reciprocal easement document shall be forwarded to the Planning Department. The Planning Department shall keep the copy for the case file and forward the original document to the Transportation Department-Survey Division for safe keeping until the final map is ready to record. The Transportation Department-Survey Division shall record the original grant of reciprocal easement document in conjunction with the recordation of the final map.

TRANS DEPARTMENT

50.TRANS. 1 MAP - SOILS 2 RECOMMEND

The developer/owner shall submit a preliminary soils and pavement investigation report addressing the construction requirements within the road right-of-way.

50.TRANS. 5 MAP - EASEMENT/SUR RECOMMEND

Any easement not owned by a public utility, public entity or subsidiary, not relocated or eliminated prior to final map approval, shall be delineated on the final map in addition to having the name of the easement holder, and the nature of their interests, shown on the map.

50.TRANS. 6 MAP - ACCESS RESTRICTION/SUR RECOMMEND

Lot access shall be restricted on Washington Street, 41st Avenue and Sparkey Way and so noted on the final map, with
50. PRIOR TO MAP RECORDATION

50.TRANS. 6 MAP - ACCESS RESTRICTION/SUR (cont.) RECOMMND

the exception of driveway locations.

50.TRANS. 12 MAP - MAP.CORNER CUT-BACK I RECOMMND

All corner cutbacks shall be applied per Standard 805, Ordinance 461, except for corners at Entry streets intersecting with General Plan roads, they shall be applied per Exhibit 'C' of the Countywide Design Guidelines.

50.TRANS. 15 MAP - UTILITY PLAN RECOMMND

Electrical power, telephone, communication, street lighting, and cable television lines shall be designed to be placed underground in accordance with ordinance 460 and 461, or as approved by the Transportation Department. The applicant is responsible for coordinating the work with the serving utility company. This also applies to existing overhead lines which are 33.6 kilovolts or below along the project frontage and between the nearest poles offsite in each direction of the project site. A disposition note describing the above shall be reflected on design improvement plans whenever those plans are required. A written proof for initiating the design and/or application of the relocation issued by the utility company shall be submitted to the Transportation Department for verification purposes.

50.TRANS. 34 MAP - FINAL MAP DRAIN EASEMENT RECOMMND

The land divider shall delineate the locations of the retention basins and drainage channels on the final map and shall record a drainage easement to the benefit of the Riverside County over said areas for flood control purposes unless otherwise agreed to by the Director of Transportation. A note shall be placed on the final map identifying and describing the easements as follows, "Drainage Easements - No Buildings, Obstructions, or encroachments by landfills are allowed. Maintenance will be performed by Home Owners Association or as agreed to by the Director of Transportation".
60. PRIOR TO GRADING PRMT ISSUANCE

BS GRADE DEPARTMENT

60.BS GRADE. 1  MAP - NO PRECISE GRDG

A PRECISE GRADING PERMIT WILL NOT BE ISSUED, BY THE BUILDING AND SAFETY DEPARTMENT, FOR ANY PARCEL(S) OF THIS SUBDIVISION - UNLESS AN APPROPRIATE LAND USE PERMIT HAS ALSO BEEN ISSUED AND APPROVED, BY THE PLANNING DEPARTMENT, FOR THAT SAME PARCEL(S).

60.BS GRADE. 2  MAP - NPDES/SWPPP

Prior to issuance of any grading or construction permits - whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site. For additional information and to obtain a copy of the NPDES State Construction Permit contact the SWRCB at www.swrbc.ca.gov.

Additionally, at the time the county adopts, as part of any ordinance, regulations specific to the N.P.D.E.S., this project (or subdivision) shall comply with them.

60.BS GRADE. 3  MAP - GRADING SECURITY

Grading in excess of 199 cubic yards will require a performance security to be posted with the Building and Safety Department. Single Family Dwelling units graded one lot per permit and proposing to grade less than 5,000 cubic yards are exempt.

60.BS GRADE. 4  MAP - IMPORT/EXPORT

In instances where a grading plan involves import or export, prior to obtaining a grading permit, the applicant shall have obtained approval for the import/export location from the Building and Safety Department.
60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 4      MAP - IMPORT/EXPORT (cont.)  RECOMMEND

A separate stockpile permit is required for the import site. It shall be authorized in conjunction with an approved construction project and shall comply with the requirements of Ordinance 457.

If an Environmental Assessment, prior to issuing a grading permit, did not previously approve either location, a Grading Environmental Assessment shall be submitted to the Planning Director for review and comment and to the Building and Safety Department Director for approval.

Additionally, if the movement of import / export occurs using county roads, review and approval of the haul routes by the Transportation Department may be required.

60.BS GRADE. 5      MAP - GEOTECH/SOILS RPTS  RECOMMEND

Geotechnical soils reports, required in order to obtain a grading permit, shall be submitted to the Building and Safety Department's Grading Division for review and approval prior to issuance of a grading permit. All grading shall be in conformance with the recommendations of the geotechnical/soils reports as approved by Riverside County.* *The geotechnical/soils, compaction and inspection reports will be reviewed in accordance with the RIVERSIDE COUNTY GEOTECHNICAL GUIDELINES FOR REVIEW OF GEOTECHNICAL AND GEOLOGIC REPORTS.

60.BS GRADE. 7      MAP - DRNAGE DESIGN Q100  RECOMMEND

All drainage facilities shall be designed in accordance with the Riverside County Flood Control & Water District's or Coachella Valley Water District's conditions of approval regarding this application. If not specifically addressed in their conditions, drainage shall be designed to accommodate 100 year storm flows.

60.BS GRADE. 8      MAP - APPROVED WQMP  RECOMMEND

Prior to the issuance of a grading permit, the owner / applicant shall submit to the Building & Safety Department Engineering Division evidence that the project - specific Water Quality Management Plan (WQMP) has been approved by the Riverside County Flood Control District or Riverside County Transportation Department and that all approved water quality treatment control BMPs have been included on
60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 8 MAP - APPROVED WQMP (cont.) RECOMMEND

the grading plan.

60.BS GRADE. 12 MAP - PRE-CONSTRUCTION MTG RECOMMEND

Upon receiving grading plan approval and prior to the issuance of a grading permit, the applicant is required to schedule a pre-construction meeting with the Building and Safety Department Environmental Compliance Division.

60.BS GRADE. 13 MAP- BMP CONST NPDES PERMIT RECOMMEND

Prior to the issuance of a grading permit, the owner/applicant shall obtain a BMP (Best Management Practices) Permit for the monitoring of the erosion and sediment control BMPs for the site. The Department of Building and Safety will conduct NPDES (National Pollutant Discharge Elimination System) inspections of the site based on Risk Level to verify compliance with the Construction General Permit, Stormwater ordinances and regulations until completion of the construction activities, permanent stabilization of the site and permit final.

60.BS GRADE. 14 MAP - SWPPP REVIEW RECOMMEND

Grading and construction sites of "ONE" acre or larger required to develop a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) - the owner/applicant shall submit the SWPPP to the Building and Safety Department Environmental Compliance Division for review and approval prior to issuance of a grading permit.

60.BS GRADE. 15 MAP- PM10 PLAN REQUIRED RECOMMEND

A PM10 Fugitive Dust Mitigation Plan, prepared in accordance with AQMD Rule 403.1, shall be submitted to the Building and Safety Department for review and approval prior to the issuance of a grading permit.

1. NOTE: The PM 10 plan shall require the posting of signs in accordance with Building and Safety form "Signage Recommendations".

2. NOTE: All PM 10 measures must be in place prior to commencing any grading activity on site.
60. PRIOR TO GRADING PRMT ISSUANCE

60. BS GRADE. 17 MAP- PM 10 CLASS REQUIRED

Prior to the issuance of a grading permit, as a requirement of the CIP, the owner, developer, contractor, and their assignees must attend the PM10 class conducted by SCAQMD. Currently, classes are scheduled monthly by SCAQMD.

EPD DEPARTMENT

60. EPD. 1 EPD - MBTA SURVEY

Birds and their nests are protected by the Migratory Bird Treaty Act (MBTA) and California Department of Fish and Wildlife (CDFW) Codes. Since the project supports suitable nesting bird habitat, removal of vegetation or any other potential nesting bird habitat disturbances shall be conducted outside of the avian nesting season (February 1st through August 31st). If habitat must be cleared during the nesting season, a preconstruction nesting bird survey shall be conducted. The preconstruction nesting bird survey must be conducted by a biologist who holds a current MOU with the County of Riverside. The biologist shall prepare and submit a report, documenting the results of the survey, to the Riverside County Planning Department, Environmental Programs Division (EPD) for review and approval. If nesting activity is observed, appropriate avoidance measures shall be adopted to avoid any potential impacts to nesting birds. The nesting bird survey must be completed no more than 30 days prior to any ground disturbance. If ground disturbance does not begin within 30 days of the report date a second survey must be conducted.

TRANS DEPARTMENT

60. TRANS. 2 MAP - SUBMIT GRADING PLAN

When you submit a grading plan to the Department of Building and Safety, two sets of the grading plan (24" X 36") shall be submitted to the Transportation Department for review and subsequently for the required clearance of the condition of approval prior to the issuance of a grading permit.

Please note, if improvements within the road right-of-way are required per the conditions of approval, the grading clearance may be dependent on the submittal of street improvement plans, the opening of an IP account, and payment of the processing fee.
60. PRIOR TO GRADING PRMT ISSUANCE

60.TRANS. 2 MAP - SUBMIT GRADING PLAN (cont.) RECOMMND

Otherwise, please submit required grading plan to the Transportation Department, Plan Check Section, 8th Floor, 4080 Lemon Street, Riverside, CA

Standard plan check turnaround time is 10 working days.

60.TRANS. 3 MAP - WATER QUALITY MGMT PLANS RECOMMND

The developer shall submit Water Quality Management Plans (WQMP) to Riverside County Transportation Department for review and approval.

70. PRIOR TO GRADING FINAL INSPECT

BS GRADE DEPARTMENT

70.BS GRADE. 1 MAP - ROUGH GRADE APPROVAL RECOMMND

Prior to the issuance of any building permit, the applicant shall obtain rough grade approval and/or approval to construct from the Building and Safety Department. The Building and Safety Department must approve the completed grading of your project before a building permit can be issued. Rough Grade approval can be accomplished by complying with the following:

1. Submitting a "Wet Signed" copy of the Soils Compaction Report containing substantiating data from the Soils Engineer (registered geologist or certified geologist, civil engineer or geotechnical engineer as appropriate) for his/her certification of the project.

2. Submitting a "Wet Signed" copy of the Rough Grade certification from a Registered Civil Engineer certifying that the grading was completed in conformance with the approved grading plan.

4. Requesting a Rough Grade Inspection and obtaining rough grade approval from a Riverside County inspector.

5. Rough Grade Only Permits: In addition to obtaining all required inspections and approval of all final reports, all
70. PRIOR TO GRADING FINAL INSPECT

70.BS GRADE. 1  MAP - ROUGH GRADE APPROVAL (cont.)  RECOMMEND

Sites permitted for rough grade only shall provide 100 percent vegetative coverage to stabilize the site prior to receiving a rough grade permit final.

80. PRIOR TO BLDG PRMT ISSUANCE

BS GRADE DEPARTMENT

80.BS GRADE. 1  MAP - NO BP'S W/O L.U. PRMT  RECOMMEND

No building permits to be issued, by the Building and Safety Department, for any parcel(s) of this subdivision — unless an appropriate land use permit has also been issued and approved, by the Planning Department, for that same parcel(s).

E HEALTH DEPARTMENT

80.E HEALTH. 1  USE - WATR/SEWR WILL SERVE  RECOMMEND

A "will serve" letter is required from the agency/agencies serving potable water and sanitary sewers.

90. PRIOR TO BLDG FINAL INSPECTION

BS GRADE DEPARTMENT

90.BS GRADE. 1  MAP - NO PRECISE GRD APRVL  RECOMMEND

A precise grading inspection will not be performed, by the building and safety department, for any parcel(s) of this subdivision — all precise grade inspections to be performed under the precise grade permit issued under the appropriate land use permit, for that same parcel(s).

E HEALTH DEPARTMENT

90.E HEALTH. 1  USE - E.HEALTH CLEARANCE REQ  RECOMMEND

Environmental Health Clearance prior to final inspection.

90.E HEALTH. 2  USE - HAZMAT BUS PLAN  RECOMMEND

The facility will require a business emergency plan for the storage of hazardous materials greater than 55 gallons, 200 cubic feet or 500 pounds, or any acutely hazardous
90. PRIOR TO BLDG FINAL INSPECTION

90.E HEALTH. 2 USE - HAZMAT BUS PLAN (cont.) RECOMMND

materials or extremely hazardous substances.

90.E HEALTH. 3 USE - HAZMAT CONTACT RECOMMND

Contact a Hazardous Materials Specialist, Hazardous Materials Management Division, at (760) 863-8976 for any additional requirements.

90.E HEALTH. 4 USE - HAZMAT REVIEW RECOMMND

If further review of the site indicates additional environmental health issues, the Hazardous Materials Management Division reserves the right to regulate the business in accordance with applicable County Ordinances.

90.E HEALTH. 5 USE*-MEDICAL WASTE GENERATOR RECOMMND

Medical waste generators must submit medical waste documentation and a permit application, with appropriate fee to Department of Environmental Health, in accordance with Riverside County Ordinance 718.1 and the California Health and Safety Code Sections 117600-118360, Medical Waste Management Act.

TRANS DEPARTMENT

90.TRANS. 4 MAP - UTILITY INSTALL RECOMMND

Electrical power, telephone, communication, street lighting, and cable television lines shall be placed underground in accordance with ordinance 460 and 461, or as approved by the Transportation Department. This also applies to existing overhead lines which are 33.6 kilovolts or below along the project frontage and between the nearest poles offsite in each direction of the project site.

A certificate should be obtained from the pertinent utility company and submitted to the Department of Transportation as proof of completion.
10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1 USE - PROJECT DESCRIPTION

The use hereby permitted is for a new two-story medical office building (14,171 square feet footprint, 28,711 max. rentable/leaseable) up to approximately 38 feet in height with overall site containing approximately 287 existing parking spaces (257 spaces, 30 vanpool credits).

Prior Plot Plan No. 13317 approved on same Assessor’s Parcel Number 607-070-018 approved in 1992 which contains existing medical office building of 14,171 square feet footprint, and 38,489 square foot rentable/leaseable area, shall remain valid and ineffect.

10. EVERY. 2 USE - HOLD HARMLESS

The applicant/permittee or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside or its agents, officers, and employees (COUNTY) from the following:

(a) any claim, action, or proceeding against the COUNTY to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the PLOT PLAN; and,

(b) any claim, action or proceeding against the COUNTY to attack, set aside, void or annul any other decision made by the COUNTY concerning the PLOT PLAN, including, but not limited to, decisions made in response to California Public Records Act requests.

The COUNTY shall promptly notify the applicant/permittee of any such claim, action, or proceeding and shall cooperate fully in the defense. If the COUNTY fails to promptly notify the applicant/permittee of any such claim, action, or proceeding or fails to cooperate fully in the defense, the applicant/permittee shall not, thereafter, be responsible to defend, indemnify or hold harmless the COUNTY.

The obligations imposed by this condition include, but are not limited to, the following: the applicant/permittee shall pay all legal services expenses the COUNTY incurs in connection with any such claim, action or proceeding, whether it incurs such expenses directly, whether it is
10. GENERAL CONDITIONS

10. EVERY. 2 USE - HOLD HARMLESS (cont.)

ordered by a court to pay such expenses, or whether it incurs such expenses by providing legal services through its Office of County Counsel.

10. EVERY. 3 USE - DEFINITIONS

The words identified in the following list that appear in all capitals in the attached conditions of Plot Plan No. 2686 shall be henceforth defined as follows:

APPROVED EXHIBIT A = Exhibit A, Amended No. 1, dated June 6, 2017, Exhibit B (elevations), and Exhibit C (floor plans) by Armstrong & Brooks Consulting Engineers.

BS GRADE DEPARTMENT

10.BS GRADE. 1 USE - GENERAL INTRODUCTION

Improvements such as grading, filling, over excavation and recompaction, and base or paving which require a grading permit are subject to the included Building and Safety Department Grading Division conditions of approval.

10.BS GRADE. 3 USE - OBEY ALL GDG REGS

All grading shall conform to the California Building Code, Ordinance 457, and all other relevant laws, rules, and regulations governing grading in Riverside County and prior to commencing any grading which includes 50 or more cubic yards, the applicant shall obtain a grading permit from the Building and Safety Department.

10.BS GRADE. 4 USE - DISTURBS NEED G/PMT

Ordinance 457 requires a grading permit prior to clearing, grubbing, or any top soil disturbances related to construction grading.

10.BS GRADE. 6 USE - NPDES INSPECTIONS

Construction activities including clearing, stockpiling, grading or excavation of land which disturbs less than 1 acre and requires a grading permit or construction Building permit shall provide for effective control of erosion, sediment and all other pollutants year-round. The permit holder shall be responsible for the installation and
10. GENERAL CONDITIONS

10.BS GRADE. 6

monitoring of effective erosion and sediment controls. Such controls will be evaluated by the Department of Building and Safety periodically and prior to permit Final to verify compliance with industry recognized erosion control measures.

Construction activities including but not limited to clearing, stockpiling, grading or excavation of land, which disturbs 1 acre or more or on-sites which are part of a larger common plan of development which disturbs less than 1 acre are required to obtain coverage under the construction general permit with the State Water Resources Control Board. You are required to provide proof of WDID# and keep a current copy of the storm water pollution prevention plan (SWPPP) on the construction site and shall be made available to the Department of Building and Safety upon request.

Year-round, Best Management Practices (BMP's) shall be maintained and be in place for all areas that have been graded or disturbed and for all material, equipment and/or operations that need protection. Stabilized Construction Entrances and project perimeter linear barriers are required year round. Removal BMP's (those BMP's which must be temporarily removed during construction activities) shall be in place at the end of each working day.

Monitoring for erosion and sediment control is required and shall be performed by the QSD or QSP as required by the Construction General Permit. Stormwater samples are required for all discharge locations and projects may not exceed limits set forth by the Construction General Permit Numeric Action Levels and/or Numeric Effluent Levels. A Rain Event Action Plan is required when there is a 50% or greater forecast of rain within the 48 hours, by the National Weather Service or whenever rain is imminent. The QSD or QSP must print and save records of the precipitation forecast for the project location area from (http://www.srh.noaa.gov/forecast) and must accompany monitoring reports and sampling test data. A Rain gauge is required on site. The Department of Building and Safety will conduct periodic NPDES inspections of the site throughout the recognized storm season to verify compliance with the Construction General Permit and Stormwater ordinances and regulations.
10. GENERAL CONDITIONS

10.BS GRADE. 7  USE - EROSION CNTRL PROTECT

Graded but undeveloped land shall provide, in addition to erosion control planting, any drainage facility deemed necessary to control or prevent erosion. Additional erosion protection may be required during the rainy season from October 1, to May 31.

10.BS GRADE. 8  USE - DUST CONTROL

All necessary measures to control dust shall be implemented by the developer during grading. A PM10 plan may be required at the time a grading permit is issued.

10.BS GRADE. 11  USE - MINIMUM DRNAGE GRADE

Minimum drainage grade shall be 1% except on portland cement concrete where .35% shall be the minimum.

10.BS GRADE. 18  USE - OFFST. PAVED PKG

All offstreet parking areas which are conditioned to be paved shall conform to Ordinance 457 base and paving design and inspection requirements.

10.BS GRADE. 24  USE - FINISH GRADE

Finish grade shall be sloped to provide proper drainage away from all exterior foundation walls in accordance with the California Building Code and Ordinance 457.

BS PLNCK DEPARTMENT

10.BS PLNCK: 1  USE - PERMIT REQUIREMENTS

PERMIT ISSUANCE:
Per section 105.1 (2016 California Building Code, CBC):
Where any owner or authorized agent intends to construct, enlarge, alter, repair, move, demolish or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert, or replace any electrical, gas, mechanical, or plumbing system, the regulation of which is governed by this code, or to cause any such work to be done, shall first make application to the building official and obtain the required permit. The applicant shall obtain the required building permit(s) from the building department prior to any construction or placement of any building, structure or equipment on the
10. GENERAL CONDITIONS

10. BS PLNCK. 1 USE - PERMIT REQUIREMENTS (cont.)

property.
The applicant shall obtain an approved final building
inspection and certificate of occupancy from the building
department prior to any use or occupancy of the building,
or structure.
At no time shall the approval of the planning case exhibit
allow for the construction or use of any building,
structure, or equipment.
In commercial and residential applications, each separate
structure will require a separate building permit.

ACCESSIBLE PATH OF TRAVEL:
Please provide a revised site plan to indicate the required
continuous accessible paved path of travel. The accessible
path of travel details shall include:
1. Accessible path construction type (Asphalt or concrete).
2. Accessible path width.
3. Accessible path directional slope % and cross slope %.
4. All accessible ramp and curb cut-out locations and
details where applicable.
The Accessible path of travel shall:
1. Connect to all building(s).
2. Connect to all accessible parking loading/unloading
areas.
3. Connect to accessible sanitary facilities.
4. Connect to areas of public accommodation.
Please be aware that the approved site plan with
accessibility requirements should be included with any
building plan submittals. The plan review staff may have
additional comments depending on the additional information
or revisions provided during the plan review process.
Additional accessible requirements within the structure
shall be reviewed during the building plan review.

ACCESSIBLE PARKING:
Please provide total parking count, along with number of
standard and van accessible spaces. Provide details of
accessible spaces, including dimensions, composition,
cross-slope, signage, etc.

William Peppas
Senior Building Inspector
Riverside County Building & Safety
(951) 955-1440
10. GENERAL CONDITIONS

E HEALTH DEPARTMENT

10.E HEALTH. 1 USE - *WATER AND SEWER SERVICE

Plot Plan 25686 is proposing potable water service from Coachella Valley Water District (CVWD) and sanitary sewer service from CVWD. It is the responsibility of the developer to ensure that all requirements to obtain potable water service and sanitary sewer service are met with the appropriate purveyor(s) as well as all other applicable agencies.

Any existing onsite wastewater treatment system and/or onsite water well shall be properly removed or abandoned under permit with the Department of Environmental Health.

10.E HEALTH. 2 USE - HAZMAT BEP

The facility requires a business plan for the storage of hazardous materials greater than 55 gallons, 200 cubic feet, or 500 pounds, or any acutely hazardous materials or extremely hazardous substances.

10.E HEALTH. 3 USE* MEDICAL WASTE GENERATOR

Medical waste generators must submit medical waste documentation and a permit application, with appropriate fees, to Department of Environmental Health, in accordance with Riverside County Ordinance 718.1 and the California Health and Safety Code Sections 117600-118300, Medical Waste Management Act.

FIRE DEPARTMENT

10.FIRE. 1 MAP*-#16-HYDRANT/SPACING

Fire protection approved 3 standard fire hydrants, (6"x4"x2 1/2") located one at each street intersection and spaced no more than 450 feet apart in any direction, with no portion of any lot frontage more than 225 feet from a hydrant. Minimum fire flow shall be 2,500 GPM for 2 hour duration at 20 PSI. This is based on square footage of 35,340 Type V-N with fire sprinkler coverage. Per CFC 2013 Edition Chapter B105.1
10. GENERAL CONDITIONS

10.FIRE. 2  MAP-ACCESS  INEFFECT

Fire Apparatus access roads shall be in compliance with the Riverside County Fire Prevention Standards.
Access lanes will not have an up, or downgrade of more than 15%.
Access lanes will be designed to withstand the weight of 75,000 pounds over 2 axles.
Access will have a turning radius capable of accommodating fire apparatus.
Access lanes shall be constructed with a surface so as to provide all weather driving capabilities.
Any turn-around requires a minimum 38-foot turning radius.
Access roads shall have an unobstructed width of not less than 24 feet along with an unobstructed vertical clearance of not less than 13 feet 6 inches.

PLANNING DEPARTMENT

10.PLANNING. 1  USE - COMPLY WITH ORD./CODES  RECOMMEND

The development of these premises shall comply with the standards of Ordinance No. 348 and all other applicable Riverside County ordinances and State and Federal codes.

The development of the premises shall conform substantially with that as shown on APPROVED EXHIBIT A, unless otherwise amended by these conditions of approval.

10.PLANNING. 2  USE - FEES FOR REVIEW  RECOMMEND

Any subsequent submittals required by these conditions of approval, including but not limited to grading plan, building plan or mitigation monitoring review, shall be reviewed on an hourly basis (research fee), or other such review fee as may be in effect at the time of submittal, as required by Ordinance No. 671. Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 3  USE - LIGHTING HOODED/DIRECTED  RECOMMEND

Any outside lighting shall be hooded and directed so as not to shine directly upon adjoining property or public rights-of-way.
10. GENERAL CONDITIONS

10.PLANNING. 5 USE - LAND DIVISION REQUIRED

Prior to the sale of any individual structure as shown on APPROVED EXHIBIT A, a land division shall be recorded in accordance with Riverside County Ordinance No. 460, and any other pertinent ordinance.

10.PLANNING. 8 USE - PERMIT SIGNS SEPARATELY

No signs are approved pursuant to this project approval. Prior to the installation of any on-site advertising or directional signs, a signing plan shall be submitted to and approved by the Planning Department pursuant to the requirements of Section 18.30 (Planning Department review only) of Ordinance No. 348.

10.PLANNING. 9 USE - NO OUTDOOR ADVERTISING

No outdoor advertising display, sign or billboard (not including on-site advertising or directional signs) shall be constructed or maintained within the property subject to this approval.

10.PLANNING. 11 USE - EXTERIOR NOISE LEVELS

Exterior noise levels produced by any use allowed under this permit, including, but not limited to, any outdoor public address system, shall not exceed 45 db(A), 10-minute LEQ, between the hours of 10:00 p.m. to 7:00 a.m., and 65 db(A), 10-minute LEQ, at all other times as measured at any residential, hospital, school, library, nursing home or other similar noise sensitive land use. In the event noise exceeds this standard, the permittee or the permittee’s successor-in-interest shall take the necessary steps to remedy the situation, which may include discontinued operation of the facilities. The permit holder shall comply with the applicable standards of Ordinance No. 847.

10.PLANNING. 12 USE - CAUSES FOR REVOCATION

In the event the use hereby permitted under this permit, a) is found to be in violation of the terms and conditions of this permit, b) is found to have been obtained by fraud or perjured testimony, or c) is found to be detrimental to the public health, safety or general welfare, or is a public nuisance, this permit
10. GENERAL CONDITIONS

10.PLANNING. 12 USE - CAUSES FOR REVOCATION (cont.)

shall be subject to the revocation procedures.

10.PLANNING. 13 USE - CEASED OPERATIONS

In the event the use hereby permitted ceases operation for a period of one (1) year or more, this approval shall become null and void.

10.PLANNING. 14 USE - 90 DAYS TO PROTEST

The project applicant has 90 days from the date of approval of these conditions to protest, in accordance with the procedures set forth in Government Code Section 66020. The imposition of any and all fees, dedications, reservations and/or other exactions imposed on this project as a result of this approval or conditional approval of the project.

10.PLANNING. 15 USE - SITE MAINTENANCE

The project site shall be kept in good repair. Graffiti shall be removed from any structures within one week of observation and/or notification.

10.PLANNING. 16 USE - MT PALOMAR LIGHTING AREA

Within the Mt. Palomar Special Lighting Area, as defined in Ordinance No. 655, low pressure sodium vapor lighting or overhead high pressure sodium vapor lighting with shields or cutoff luminaires, shall be utilized.

10.PLANNING. 17 USE - ALUC LETTER

The permit holder shall remain in compliance with the requirements of the Airport Land Use Commission letter dated October 1, 2015, a copy of which is on file with the Riverside County Planning Department, including that outdoor lighting be hooded, the maximum building height shall not exceed 38 feet above ground level and the maximum elevation at the top of the structure shall not exceed 148 feet above mean sea level, that detention basins remain dry 48 hours after rain storms to lessen avian impacts, and that the following be prohibited: steady or flashing lights directed towards aircraft, uses that would reflected sunlight toward aircraft, smoke or water vapor generation, and uses that generate electrical interference.
10. GENERAL CONDITIONS

10.PLANNING. 18  USE - UNANTICIPATED RESOURCES

The developer/permit holder or any successor in interest shall comply with the following for the life of this project:
1) If during ground disturbance activities, cultural resources are discovered that were not assessed by the archaeological reports and/or environmental assessment conducted prior to project approval, the following procedures shall be followed. A cultural resources site is defined, for this condition, as being three or more artifacts in close association with each other, but may include fewer artifacts if the area of the find is determined to be of significance due to its sacred or cultural importance.
   a) All ground disturbance activities within 100 feet of the discovered cultural resource shall be halted until a meeting is convened between the developer, the project archaeologist, the Native American tribal representative (or other appropriate ethnic/cultural group representative), and the Planning Director to discuss the significance of the find.
   b) At the meeting, the significance of the discoveries shall be discussed and after consultation with the Native American tribal (or other appropriate ethnic/cultural group representative) and the archaeologist, a decision is made, with the concurrence of the Planning Director, as to the appropriate mitigation (documentation, recovery, avoidance, etc) for the cultural resource.
   c) Further ground disturbance shall not resume within the area of the discovery until an agreement has been reached by all parties as to the appropriate preservation or mitigation measures.

10.PLANNING. 19  USE - IF HUMAN REMAINS FOUND

The developer/permit holder or any successor in interest shall comply with the following for the life of this project:
Humans remains require special handling, and must be treated with appropriate dignity. Pursuant to State Health and Safety Code Section 7050.5, if human remains are encountered, no further disturbance shall occur until the County Coroner has made the necessary findings as to origin. Specific actions must take place pursuant to CEQA Guidelines 15064.5e, State Health and Safety Code Section 7050.5 and Public Resource Code (PRC) 5097.98. In the event of the accidental discovery or recognition of any
10. GENERAL CONDITIONS

10. PLANNING. 19 USE - IF HUMAN REMAINS FOUND (cont.)

human remains in any location other than a dedicated cemetery, the following procedures shall be followed:
   a) There shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to
      overlie adjacent human remains until:
      i) A County Official is contacted.
      ii) The County Coroner is contacted to determine that no investigation of the cause of death is required, and If the
          Coroner determines the remains are Native American:
      iii) The Coroner shall contact the Native American Heritage Commission within 24 hours.
   b) The Commission shall identify the person or persons it believes to be the most likely descended from the deceased
      Native American.
   c) The Most Likely Descendent (MLD) may make recommendations to the landowner or the person responsible for the
      excavation work, for the treatment of human remains and any associated grave goods as provided in PRC "5097.98.
   d) Under the following conditions, the landowner or his authorized representative shall rebury the Native American
      human remains and associated grave goods on the property in a location not subject to further disturbance:
      i) The Commission is unable to identify a MLD or the MLD failed to make a recommendation within 24 hours after being
          notified by the commission.
      (1) The MLD identified fails to make a recommendation; or
      (2) The landowner or his authorized representative rejects the recommendation of the MLD, and the mediation.

10. PLANNING. 20 USE - LOW PALEO

According to the County's General Plan, this site has been mapped as having a "Low Potential" for paleontological
resources. This category encompasses lands for which previous field surveys and documentation demonstrates a low
potential for containing significant paleontological resources subject to adverse impacts. As such, this
project is not anticipated to require any direct mitigation for paleontological resources. However, should fossil
remains be encountered during site development:

1. All site earthmoving shall be ceased in the area of where the fossil remains are encountered. Earthmoving
   activities may be diverted to other areas of the site.

2. The owner of the property shall be immediately notified
of the fossil discovery who will in turn immediately notify the County Geologist of the discovery.

3. The applicant shall retain a qualified paleontologist approved by the County of Riverside.

4. The paleontologist shall determine the significance of the encountered fossil remains.

5. Paleontological monitoring of earthmoving activities will continue thereafter on an as-needed basis by the paleontologist during all earthmoving activities that may expose sensitive strata. Earthmoving activities in areas of the project area where previously undisturbed strata will be buried but not otherwise disturbed will not be monitored. The supervising paleontologist will have the authority to reduce monitoring once he/she determines the probability of encountering any additional fossils has dropped below an acceptable level.

6. If fossil remains are encountered by earthmoving activities when the paleontologist is not onsite, these activities will be diverted around the fossil site and the paleontologist called to the site immediately to recover the remains.

7. Any recovered fossil remains will be prepared to the point of identification and identified to the lowest taxonomic level possible by knowledgeable paleontologists. The remains then will be curated (assigned and labeled with museum* repository fossil specimen numbers and corresponding fossil site numbers, as appropriate; places in specimen trays and, if necessary, vials with completed specimen data cards) and catalogued, an associated specimen data and corresponding geologic and geographic site data will be archived (specimen and site numbers and corresponding data entered into appropriate museum repository catalogs and computerized data bases) at the museum repository by a laboratory technician. The remains will then be accessioned into the museum repository fossil collection, where they will be permanently stored, maintained, and, along with associated specimen and site data, made available for future study by qualified scientific investigators. * Per the County of Riverside "SABER Policy", paleontological fossils found in the County of Riverside should, by preference, be directed to the
10. GENERAL CONDITIONS

10.PLANNING. 20 USE - LOW PALEO (cont.) (cont.) RECOMMEND

Western Science Center in the City of Hemet.

8. The property owner and/or applicant on whose land the paleontological fossils are discovered shall provide appropriate funding for monitoring, reporting, delivery and curating the fossils at the institution where the fossils will be placed, and will provide confirmation to the County that such funding has been paid to the institution.

10.PLANNING. 21 USE - GEO002485 ACCEPTED RECOMMEND

County Geologic Report GEO No. 2485, submitted for the project PM36837, APN 607-070-018, was prepared by LGC Geo-environmental, Inc., and is titled; "Updated Preliminary Geotechnical Report for the Proposed Medical Office Development Located at 41120 Washington Street in the City of Bermuda Dunes, Riverside County, California," dated February 29, 2016. In addition, LGC Geo-environmental, Inc. has submitted the following reports:

These documents are herein incorporated in GEO002485.

GEO002485 concluded:
1. Based on a review of published and unpublished geologic maps and reports, and a review of aerial photography for the site, active or potentially active faults are not known to exist on the site.
2. Review of geologic literature and our geologic mapping of the property does not indicate the presence of landslides on or directly adjacent to the site.
3. Adverse effects on the proposed development resulting from groundwater are not anticipated.
4. In consideration of the anticipated grading, recommended overexcavations, proposed structures and improvements, and subsurface material types and their conditions, unfavorable
10. GENERAL CONDITIONS

10.PLANNING. 21 USE - GEO002485 ACCEPTED (cont.)

ground subsidence is not anticipated.
5. The estimated static differential settlement is 0.25 inch and the estimated seismic differential settlement is 1.00 inch.
GEO002485 recommended:
1. Weeds, grasses, and trees in areas to be graded should be stripped and hauled offsite.
2. The upper 2 to 6 feet of potentially compressible undocumented artificial fill, topsoil and weathered alluvial deposits are considered unsuitable for support of proposed fills, structures, and/or improvements, and should be overexcavated to expose underlying competent alluvial deposits.
3. Overexcavations should also extend at least 5 feet below proposed grade or 3 feet below the lowest proposed footings, within the building areas and 2 feet to 3 feet below proposed footings in wall areas, whichever is deeper.

GEO No. 2485 satisfies the requirement for a geologic/geotechnical study for Planning/CEQA purposes.
GEO No. 2485 is hereby accepted for planning purposes.
Engineering and other Building Code parameters were not included as a part of this review or approval. This approval is not intended and should not be misconstrued as approval for grading permit. Engineering and other building code parameters should be reviewed and additional comments and/or conditions may be imposed by the County upon application for grading and/or building permits.

10.PLANNING. 22 USE - BERMUDA DUNES OVERLAY

The project shall maintain compliance with the requirements of Zoning Ordinance No. 348, Section 19.6 Bermuda Dunes Neighborhood Preservation Overlay Zone.

TRANS DEPARTMENT

10.TRANS. 1 USE - COUNTY WEB SITE

Additional information, standards, ordinances, policies, and design guidelines can be obtained from the Transportation Department Web site: http://rctlma.org/trans/. If you have questions, please call the Plan Check Section at (951) 955-6527.
10. GENERAL CONDITIONS

10.TRANS. 3 USE - NO ADD'L ON-SITE R-O-W RECOMMEND

No additional on-site right-of-way shall be required on Washington Street, 41st Avenue and Sparkey Way since adequate right-of-way exists.

10.TRANS. 4 USE - NO ADD'L ROAD IMPROVEMENTS RECOMMEND

No additional road improvements will be required at this time along Washington Street, 41st Avenue and Sparkey Way due to existing improvements.

10.TRANS. 9 USE - STD INTRO (ORD 461) RECOMMEND

With respect to the conditions of approval for the referenced tentative exhibit, the landowner shall provide all street improvements, street improvement plans and/or road dedications set forth herein in accordance with Riverside County Road Improvement Standards (Ordinance 461). It is understood that the exhibit correctly shows acceptable centerline elevations, all existing easements, traveled ways, and drainage courses with appropriate Q's, and that their omission or unacceptability may require the exhibit to be resubmitted for further consideration. This ordinance and all conditions of approval are essential parts and a requirement occurring in ONE is as binding as though occurring in all. All questions regarding the true meaning of the conditions shall be referred to the Transportation Department.

10.TRANS. 10 USE - ENCROACHMENT PERMIT RECOMMEND

An encroachment permit must be obtained from the Transportation Department prior to the commencement of any work within the County road right-of-way.

10.TRANS. 11 USE - LC LANDSCAPE REQUIREMENT RECOMMEND

The developer/permit holder shall:

1) Ensure all landscape and irrigation plans are in conformance with the APPROVED EXHIBITS;

2) Ensure all landscaping is provided with California Friendly landscaping and a weather based irrigation controller(s) as defined by County Ordinance No. 859;

3) Ensure that irrigation plans which may use reclaimed
10. GENERAL CONDITIONS

10.TRANS. 11 USE - LC LANDSCAPE REQUIREMENT (cont.)

water conform with the requirements of the local water purveyor; and,

4) Be responsible for maintenance, viability and upkeep of all slopes, landscaped areas, and irrigation systems until the successful completion of the twelve (12) month inspection or those operations become the responsibility of the individual property owner(s), a property owner's association, or any other successor-in-interest, whichever occurs later.

To ensure ongoing maintenance, the developer/permit holder or any successor in interest shall:

1) Connect to a reclaimed water supply for landscape irrigation purposes when reclaimed water is made available.

2) Ensure that landscaping, irrigation and maintenance systems comply with the Riverside County Guide to California Friendly Landscaping, and Ordinance No. 859.

3) Ensure that all landscaping is healthy, free of weeds, disease and pests.

10.TRANS. 13 USE - DRAINAGE 1

The proponent shall protect downstream properties from damages caused by alteration of the drainage patterns, i.e., concentration or diversion of flow. Protection shall be provided by constructing adequate drainage facilities including enlarging existing facilities and/or by securing a drainage easement. All drainage easements shall be recorded and shown on the improvement plans: "Drainage Easement - no building, obstructions, or encroachments by landfills are allowed." All drainage easements shall be maintained by the owner in perpetuity. The protection shall be as approved by the Transportation Department.

10.TRANS. 14 USE - FLOOD HAZARD REPORT 1

This is a proposal to construct an 87,400 square foot two-story medical office building. This project is near the Palm Desert area on the south side of 41st Avenue and east of Washington Street. The proponent shall provide mitigation measures to be incorporated into the development to prevent flooding of the site or downstream properties.
10. GENERAL CONDITIONS

10.TRANS. 14  USE - FLOOD HAZARD REPORT 1 (cont.)  RECOMMND

100 percent of the 100 year storm retention is required as part of the drainage improvements for this project.

10.TRANS. 15  USE - INCREASED RUNOFF  RECOMMND

Per the project drainage report (June 16, 2016 prepared by Armstrong & Brooks Consulting Engineers), the proponents engineer has calculated the storm water runoff from the 100-year event for the existing condition and the proposed condition. The proposed development will increase the 100-year, 24-hour flow to 1.39 cfs. The existing 15 drywells have the sufficient capacity to handle this flow (1.89 cfs).

20. PRIOR TO A CERTAIN DATE

PLANNING DEPARTMENT

20.PLANNING. 1  USE - EXPIRATION DATE-PP  RECOMMND

This approval shall be used within (2) years of approval date; otherwise, it shall become null and void and of no effect whatsoever. By use is meant the beginning of substantial construction contemplated by this approval within a two (2) year period which is thereafter diligently pursued to completion or of the actual occupancy of existing buildings or land under the terms of the authorized use.

Prior to the expiration of the two year period, the permittee may request a one (1) year extension of time request in which to use this plot plan. A maximum of three one-year extension of time requests shall be permitted. Should the time period established by any of the extension of time requests lapse, or should all three one-year extensions be obtained and no substantial construction or use of this plot plan be initiated within five (5) years of the effective date of the issuance of this plot plan, this plot plan shall become null and void.
60. PRIOR TO GRADING PRMT ISSUANCE

BS GRADE DEPARTMENT

60.BS GRADE. 1  USE - NPDES/SWPPP

Prior to issuance of any grading or construction permits - whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site. For additional information and to obtain a copy of the NPDES State Construction Permit contact the SWRCB at www.swrccb.ca.gov.

Additionally, at the time the county adopts, as part of any ordinance, regulations specific to the N.P.D.E.S., this project (or subdivision) shall comply with them.

60.BS GRADE. 2  USE - GRADING SECURITY

Grading in excess of 199 cubic yards will require a performance security to be posted with the Building and Safety Department.

60.BS GRADE. 3  USE - IMPORT / EXPORT

In instances where a grading plan involves import or export, prior to obtaining a grading permit, the applicant shall have obtained approval for the import/export location from the Building and Safety Department.

A separate stockpile permit is required for the import site. It shall be authorized in conjunction with an approved construction project and shall comply with the requirements of Ordinance 457.

If an Environmental Assessment, prior to issuing a grading permit, did not previously approve either location, a Grading Environmental Assessment shall be submitted to the Planning Director for review and comment and to the Building and Safety Department Director for approval.
60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 3  USE - IMPORT / EXPORT (cont.)

Additionally, if the movement of import / export occurs using county roads, review and approval of the haul routes by the Transportation Department may be required.

60.BS GRADE. 4  USE - GEOTECH/SOILS RPTS

Geotechnical soils reports, required in order to obtain a grading permit, shall be submitted to the Building and Safety Department for review and approval prior to issuance of a grading permit. All grading shall be in conformance with the recommendations of the geotechnical/soils reports as approved by Riverside County.* *The geotechnical/soils, compaction and inspection reports will be reviewed in accordance with the RIVERSIDE COUNTY GEOTECHNICAL GUIDELINES FOR REVIEW OF GEOTECHNICAL AND GEOLOGIC REPORTS.

60.BS GRADE. 6  USE - DRAINAGE DESIGN Q100

All drainage facilities shall be designed in accordance with the Riverside County Flood Control & Water District's or Coachella Valley Water District's conditions of approval regarding this application. If not specifically addressed in their conditions, drainage shall be designed to accommodate 100 year storm flows.

60.BS GRADE. 11  USE - APPROVED WQMP

Prior to the issuance of a grading permit, the owner /applicant shall submit to the Building & Safety Department Engineering Division evidence that the project - specific Water Quality Management Plan (WQMP) has been approved by the Riverside County Flood Control District or Riverside County Transportation Department and that all approved water quality treatment control BMPs have been included on the grading plan.

60.BS GRADE. 13  USE - PRE-CONSTRUCTION MTG

Upon receiving grading plan approval and prior to the issuance of a grading permit, the applicant is required to schedule a pre-construction meeting with the Building and Safety Department Environmental Compliance Division.
60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 14 USE- BMP CONST NPDES PERMIT

Prior to the issuance of a grading permit, the owner/applicant shall obtain a BMP (Best Management Practices) Permit for the monitoring of the erosion and sediment control BMPs for the site. The Department of Building and Safety will conduct NPDES (National Pollutant Discharge Elimination System) inspections of the site based on Risk Level to verify compliance with the Construction General Permit, Stormwater ordinances and regulations until completion of the construction activities, permanent stabilization of the site and permit final.

60.BS GRADE. 15 USE - SWPPP REVIEW

Grading and construction sites of "ONE" acre or larger required to develop a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) - the owner/applicant shall submit the SWPPP to the Building and Safety Department Environmental Compliance Division for review and approval prior to issuance of a grading permit.

60.BS GRADE. 16 USE -PM10 PLAN REQUIRED

A PM10 Fugitive Dust Mitigation Plan, prepared in accordance with AQMD Rule 403.1, shall be submitted to the Building and Safety Department for review and approval prior to the issuance of a grading permit.

1. NOTE: The PM 10 plan shall require the posting of signs in accordance with Building and Safety form "Signage Recommendations".
2. NOTE: All PM 10 measures must be in place prior to commencing any grading activity on site.

60.BS GRADE. 17 USE- PM 10 CLASS REQUIRED

Prior to the issuance of a grading permit, as a requirement of the CIP, the owner, developer, contractor, and their assignees must attend the PM10 class conducted by SCAQMD. Currently, classes are scheduled monthly by SCAQMD.

EPD DEPARTMENT

60.EPD. 1 EPD - MBTA SURVEY

Birds and their nests are protected by the Migratory Bird Treaty Act (MBTA) and California Department of Fish and
60. PRIOR TO GRADING PRMT ISSUANCE

60.EPD. 1  EPD - MBTA SURVEY (cont.)  RECOMMND

Wildlife (CDFW) Codes. Since the project supports suitable nesting bird habitat, removal of vegetation or any other potential nesting bird habitat disturbances shall be conducted outside of the avian nesting season (February 1st through August 31st). If habitat must be cleared during the nesting season, a preconstruction nesting bird survey shall be conducted. The preconstruction nesting bird survey must be conducted by a biologist who holds a current MOU with the County of Riverside. The biologist shall prepare and submit a report, documenting the results of the survey, to the Riverside County Planning Department, Environmental Programs Division (EPD) for review and approval. If nesting activity is observed, appropriate avoidance measures shall be adopted to avoid any potential impacts to nesting birds. The nesting bird survey must be completed no more than 30 days prior to any ground disturbance. If ground disturbance does not begin within 30 days of the report date a second survey must be conducted.

PLANNING DEPARTMENT

60.PLANNING. 2  USE - FEE STATUS  RECOMMND

Prior to the issuance of grading permits for Plot Plan No. 25686, the Planning Department shall determine the status of the deposit based fees. If the fees are in a negative status, the permit holder shall pay the outstanding balance.

TRANSP DEPARTMENT

60.TRANS. 5  USE - SUBMIT GRADING PLAN  RECOMMND

When you submit a grading plan to the Department of Building and Safety, two sets of the grading plan (24" X 36") shall be submitted to the Transportation Department for review and subsequently for the required clearance of the condition of approval prior to the issuance of a grading permit.

Please note, if improvements within the road right-of-way are required per the conditions of approval, the grading clearance may be dependent on the submittal of street improvement plans, the opening of an IP account, and payment of the processing fee.
60. PRIOR TO GRADING PRMT ISSUANCE

60.TRANS. 5 USE - SUBMIT GRADING PLAN (cont.) RECOMMND

Otherwise, please submit required grading plan to the Transportation Department, Plan Check Section, 8th Floor, 4080 Lemon Street, Riverside, CA

Standard plan check turnaround time is 10 working days.

60.TRANS. 6 USE - WATER QUALITY MGMT PLANS RECOMMND

The developer shall submit Water Quality Management Plans (WQMP) to Riverside County Transportation Department for review and approval.

60.TRANS. 7 USE - DRAINAGE SUBMIT PLANS 1 RECOMMND

The project proponent shall comply with Riverside County Ordinance 458.12 as amended in the preparation of on-site flood protection. The project proponent shall submit plans for grading, landscaping, and irrigation systems, any other necessary documentation along with supporting hydrologic and hydraulic calculations to Riverside County Transportation for review and approval. The project proponent shall pay all fees as required by Riverside County Transportation Department.

Additional requirements for the submittal of the final hydrology and hydraulic reports:

1. The Applicant shall provide the County with three (3) original copies of the Final Hydrology and Hydraulics Report, "wet signed" and sealed by a State Registered Civil Engineer.

2. The Applicant shall provide three (3) digital copies on CD/DVD of the Final Hydrology and Hydraulics Report documents.

3. There are four small retention/infiltration basins proposed for the project located on the four corners of the proposed new building. Final design plans shall reflect the following parameters: The 2 basins on the north corners of the new building each have a level bottom area of 275 square feet at elevation 108.12 and a top area of 493 square feet at elevation 108.75. The 2 basins on the south corners of the new building each have a level bottom area of 98 square feet at elevation 107.74 and a top area of 698 square feet at elevation 108.26. These basins will retain
60. PRIOR TO GRADING PRMT ISSUANCE

60.TRANS. 7 USE - DRAINAGE SUBMIT PLANS 1 (cont.) RECOMMND

the entire 100 year - 24 hour storm runoff volume from the proposed new area of development.

60.TRANS. 8 USE - EASEMENT FOR DRAINAGE RECOMMND

The project proponent will prepare record easements for drainage purposed by separate instrument to the benefit of public, for areas where drainage facilities and other drainage appurtenances are required and/or where drainage flow patterns must be maintained to convey flood plain water. All drainage easements shall be recorded by separate instrument and noted as follows, "Drainage Easement - no building, obstructions, or encroachments are allowed." All drainage easements shall be maintained by the owner in perpetuity.

60.TRANS. 9 USE - TYPICAL SITE GRADING RECOMMND

All on-site grading shall be done to drain to on site drainage facilities. Offsite drainage shall be conveyed through the project site in a manner that will not adversely impact either on-site improvements or worsen the existing drainage conditions to adjacent offsite properties.

60.TRANS. 10 USE - INFILTRATION TRENCHES RECOMMND

The County reviewed the revised Preliminary Water Quality Management Plan (P-WQMP) dated January 1, 2016. The project proponent is proposing to utilize infiltration trenches to mitigate for water quality as well as HCOCs. The Final Water Quality Management Plan (F-WQMP) shall provide infiltration trenches with size and design parameters in substantial conformance with those shown in the P-WQMP.

70. PRIOR TO GRADING FINAL INSPECT

TRANS DEPARTMENT

70.TRANS. 1 USE - EROSION CONTROL RECOMMND

Temporary erosion control measures shall be implemented immediately following site grading to prevent depositions of debris onto downstream properties, public right-of-way, or drainage facilities. Plans showing these measures shall be submitted to Riverside County Transportation Department
70. PRIOR TO GRADING FINAL INSPECT

70.TRAN. 1  USE - EROSION CONTROL (cont.)  RECOMMND

for review prior to the start of any site grading.

80. PRIOR TO BLDG PRMT ISSUANCE

BS GRADE DEPARTMENT

80.BS GRADE. 1  USE - NO B/PRMT W/O G/PRMT  RECOMMND

Prior to the issuance of any building permit, the property owner shall obtain a grading permit and/or approval to construct from the Building and Safety Department.

80.BS GRADE. 2  USE - ROUGH GRADE APPROVAL  RECOMMND

Prior to the issuance of any building permit, the applicant shall obtain rough grade approval and/or approval to construct from the Building and Safety Department. The Building and Safety Department must approve the completed grading of your project before a building permit can be issued. Rough Grade approval can be accomplished by complying with the following:

1. Submitting a "Wet Signed" copy of the Soils Compaction Report containing substantiating data from the Soils Engineer (registered geologist or certified geologist, civil engineer or geotechnical engineer as appropriate) for his/her certification of the project.

2. Submitting a "Wet Signed" copy of the Rough Grade certification from a Registered Civil Engineer certifying that the grading was completed in conformance with the approved grading plan.

3. Requesting a Rough Grade Inspection and obtaining rough grade approval from a Riverside County inspector.

4. Rough Grade Only Permits: In addition to obtaining all required inspections and approval of all final reports, all sites permitted for rough grade only shall provide 100 percent vegetative coverage to stabilize the site prior to receiving a rough grade permit final.

Prior to release for building permit, the applicant shall have met all rough grade requirements to obtain Building and Safety Department clearance.
80. PRIOR TO BLDG PRMT ISSUANCE

E HEALTH DEPARTMENT

80.E HEALTH. 1 USE - WATR/SEWR WILL SERVE RECOMMEND

A "will serve" letter is required from the agency/agencies serving potable water and sanitary sewers.

PLANNING DEPARTMENT

80.PLANNING. 1 USE - CONFORM TO ELEVATIONS RECOMMEND

Elevations of all buildings and structures submitted for building plan check approval shall be in substantial conformance with the elevations shown on APPROVED EXHIBIT A.

80.PLANNING. 2 USE - CONFORM TO FLOOR PLANS RECOMMEND

Floor plans shall be in substantial conformance with that shown on APPROVED EXHIBIT A.

80.PLANNING. 3 USE - ROOF EQUIPMENT SHIELDING RECOMMEND

Roof mounted equipment shall be shielded from ground view. Screening material shall be subject to Planning Department approval.

80.PLANNING. 5 USE - COLOR/FINISH SAMPLES RECOMMEND

The permittee shall submit three 4" x 4" color and finish samples of exterior building materials for Planning Department approval. Coloration shall be compatible with the colors contained in Exhibit A.

80.PLANNING. 6 USE - SCHOOL MITIGATION RECOMMEND

Impacts to the Desert Sands Unified School District shall be mitigated in accordance with California State law.

80.PLANNING. 7 USE - FEE BALANCE RECOMMEND

Prior to issuance of building permits, the Planning Department shall determine if the deposit based fees for project are in a negative balance. If so, any outstanding fees shall be paid by the applicant/developer.
80. PRIOR TO BLDG PRMT ISSUANCE

80.PLANNING. 8 USE - LIGHTING PLANS

All street lights and other outdoor lighting shall be shown on electrical plans submitted to the Department of Building and Safety for plan check approval and shall comply with the requirements of Riverside County Ordinance No. 655 and the Riverside County Comprehensive General Plan.

80.PLANNING. 9 USE - WASTE MGMT. CLEARANCE

A clearance letter from Riverside County Waste Management District shall be provided to the Riverside County Planning Department verifying compliance with the conditions contained in their letter dated December 1, 2014, summarized as follows: The developer shall provide adequate areas for collecting and loading recyclable materials such as paper products, glass and green waste in commercial, industrial, public facilities and residential development projects.

80.PLANNING. 11 USE - CC&R RECIPROCAL EASEMNT

The permit holder shall (a) notify the Planning Department that the following documents shall be shortly, or have been, submitted to the Office of the County Counsel for review; and (b) the permit holder shall submit copies of the following documents to the Planning Department for concurrent review along with any condition review fee; and (c) the documents to be submitted by the permit holder to the Office of the County Counsel shall include all of the following:

1. A cover letter identifying the project for which approval is sought referencing the Planning Department case number;

2. A signed and notarized grant of reciprocal easement document, which includes, but is not necessarily limited to, both a legal description of the boundaries of the reciprocal easement and a scaled map or diagram of such boundaries, both signed and stamped by a California registered civil engineer or licensed land surveyor;

3. A sample document conveying title to the purchaser of an individual lot or unit which provides that the grant of reciprocal easement is incorporated therein by reference; and
80. PRIOR TO BLDG PRMT ISSUANCE

80.PLANNING. 11 USE - CC&R RECIPROCAL EASEMNT (cont.) RECOMMEND

4. A deposit equaling three (3) hours at the current hourly rate for the Review of Covenants, Conditions and Restrictions as established pursuant to Ordinance No. 671 at the time the above documents are submitted for review by the Office of the County Counsel.

The grant of reciprocal easement document submitted for review shall (a) provide for no limit to the term of years or life of the reciprocal easement, (b) provide reciprocal easements for ingress and egress, parking, drainage and flood control facilities between property known as Parcels 1 & 2, and (c) contain the following provision verbatim:

"Notwithstanding any provision in this Grant of Reciprocal Easement to the contrary, the following provision shall apply:

This Grant of Reciprocal Easement shall not be terminated, 'substantially' amended, or property deannexed therefrom absent the prior written consent of the Planning Director of the County of Riverside, or the County's successor-in-interest. A proposed amendment shall be considered 'substantial' if it affects the extent, usage or maintenance of the reciprocal easement established pursuant to this Grant of Reciprocal Easement."

Once approved by the Office of the County Counsel, the grant of reciprocal easement document shall be recorded by the permit holder. PRIOR TO THE ISSUANCE OF BUILDING PERMITS, the permit holder shall submit two (2) copies of the recorded Grant of Reciprocal Easement document to the Planning Department for verification and placement in the case file.

80.PLANNING. 12 USE - CC&R C/I MO COMMON LOT RECOMMEND

The applicant shall notify the Planning Department that the following documents shall be submitted to the Office of the County Counsel and submit said documents to for review along with the current fee, which documents shall be subject County Counsel approval:

1. A cover letter identifying the project for which approval is sought;
80. PRIOR TO BLDG PRMT ISSUANCE

80.PLANING. 12 USE - CC&R C/I MO COMMON LOT (cont.)

RECOMMEND

2. A signed and notarized declaration of covenants, conditions and restrictions;

3. A sample document conveying title to the purchaser of an individual lot or unit which provides that the declaration of covenants, conditions and restrictions is incorporated therein by reference; and,

4. A deposit equaling three (3) hours at the current hourly rate for the Review of Covenants, Conditions and Restrictions as established pursuant to Ordinance No. 671 at the time the above documents are submitted for review by County Counsel.

The declaration of covenants, conditions and restrictions submitted for review shall a) provide for a minimum term of 60 years, b) provide reciprocal easements for ingress, egress and parking, c) provide for the establishment of a maintenance operator, c) provide for the ownership of the common area by the owners of each individual parcel as tenants in common, and d) contain the following provisions verbatim:

"Notwithstanding any provision in this Declaration to the contrary, the following provisions shall apply:

The Maintenance Operator established herein shall manage and continuously maintain the 'common area', more particularly described on Exhibit '___', attached hereto, and shall not be sell or transfer the 'common area' or any part thereof, absent the prior written consent of the Planning Director of the County of Riverside or the County's successor-in-interest.

The Maintenance Operator shall have the right to assess the owners of each individual parcel for the reasonable cost of maintaining such 'common area', and shall have the right to lien the property of any such owner who defaults in the payment of a maintenance assessment. An assessment lien, once created, shall be prior to all other liens recorded subsequent to the notice of assessment or other document creating the assessment lien.

This Declaration shall not be terminated, 'substantially' amended, or property deannexed therefrom absent the prior written consent of the Planning Director
80. PRIOR TO BLDG PRMT ISSUANCE

80.PLANNING. 12 USE - CC&R C/I MO COMMON LOT (cont.) (cont.) RECOMMEND

of the County of Riverside or the County's successor-in-interest. A proposed amendment shall be considered 'substantial' if it affects the extent, usage or maintenance of the 'common area' or any reciprocal easement established pursuant to the Declaration."

Once approved by the Office of County Counsel, the declaration of covenants, conditions and restrictions shall be recorded by the Planning Department with one copy retained for the case file, and one copy provided to the County Transportation Department - Survey Division.

TRANS DEPARTMENT

80.TRANS. 1 USE - EVIDENCE/LEGAL ACCESS RECOMMEND

Provide evidence of legal access.

80.TRANS. 3 USE - TUMF RECOMMEND

Prior to the issuance of a building permit, the project proponent shall pay the Transportation Uniform Mitigation Fee (TUMF) in accordance with the fee schedule in effect at the time of issuance, pursuant to Ordinance No. 673.

80.TRANS. 16 USE - UTILITY PLAN RECOMMEND

Electrical power, telephone, communication, street lighting, and cable television lines shall be designed to be placed underground in accordance with Ordinance 460 and 461, or as approved by the Transportation Department. The applicant is responsible for coordinating the work with the serving utility company. This also applies to existing overhead lines which are 33.6 kilovolts or below along the project frontage and between the nearest poles offsite in each direction of the project site. A disposition note describing the above shall be reflected on design improvement plans whenever those plans are required. A written proof for initiating the design and/or application of the relocation issued by the utility company shall be submitted to the Transportation Department for verification purposes.
Prior to issuance of building permits, the developer/permit holder shall file a Landscaping Minor Plot Plan Application to the Riverside County Transportation Department for review and approval along with the current fee. The landscaping plans shall be in conformance with the APPROVED EXHIBITS; in compliance with Ordinance No. 348, Section 18.12; Ordinance No. 859; and, be prepared consistent with the County of Riverside Guide to California Friendly Landscaping. At minimum, plans shall include the following components:

1) Landscape and irrigation working drawings "stamped" by a California certified landscape architect;
2) Weather based controllers and necessary components to eliminate water waste;
3) A copy of the "stamped" approved grading plans; and,
4) Emphasis on native and drought tolerant species.

When applicable, plans shall include the following components:

1) Identification of all common/open space areas;
2) Natural open space areas and those regulated/conserved by the prevailing MSHCP;
3) Shading plans for projects that include parking lots/areas;
4) The use of canopy trees (24" box or greater) within the parking areas;
5) Landscaping plans for slopes exceeding 3 feet in height;
6) Landscaping and irrigation plans associated with entry monuments. All monument locations and dimensions shall be provided on the plan; and/or,
7) If this is a phased development, then a copy of the approved phasing plan shall be submitted for reference.

NOTE:
1) Landscaping plans for areas within the road right-of-way shall be submitted for review and approval by the Transportation Department only.
2) When the Landscaping Plot Plan is located within a special district such as Valley-Wide Recreation and Park District, Jurupa Community Services District, Coachella Valley Water District, a County Service Area (CSA) or other maintenance district, the developer/permit holder shall submit plans for review to the appropriate special district for simultaneous review. The permit holder shall show
80. PRIOR TO BLDG PRMT ISSUANCE

80.TRANS. 18 USE - LC LANDSCAPE PLOT PLAN (cont.) RECOMMEND

evidence to the Transportation Department that the subject District has approved said plans.

As part of the plan check review process and request for condition clearance, the developer/permit holder shall show proof of the approved landscaping plot plan by providing the Plot Plan number. The Transportation department shall verify the landscape route is approved and the Plot Plan is in TENTAPPR status. Upon verification of compliance with this condition and the APPROVED EXHIBITS, the Transportation Department shall clear this condition.

80.TRANS. 19 USE - LC LANDSCAPE SECURITIES RECOMMEND

Prior to the issuance of building permits, the developer/permit holder shall submit an estimate to replace plantings, irrigation systems, ornamental landscape elements, walls and/or fences, in amounts to be approved by the Riverside County Transportation Department, Landscape Division. Once the Transportation Department has approved the estimate, the developer/permit holder shall submit the estimate to the Riverside County Department of Building and Safety who will then provide the developer/permit holder with the requisite forms. The required forms shall be completed and submitted to Building and Safety for processing and review in conjunction with County Counsel. Upon determination of compliance, the Department of Building and Safety shall clear this condition.

NOTE:
A cash security shall be required when the estimated cost is $2,500.00 or less. It is highly encouraged to allow adequate time to ensure that securities are in place. The performance security shall be released following a successful completion of the One Year Post-Establishment Inspection, and the inspection report confirms that the planting and irrigation components are thriving and in good working order consistent with the approved landscaping plans.

80.TRANS. 20 USE - LC LNDSCPNG PROJ SPECIFIC RECOMMEND

In addition to the requirements of the Landscape and Irrigation Plan submittal, the following project specific conditions shall be imposed:
80. PRIOR TO BLDG PRMT ISSUANCE

80.TRAN. 20 USE - LC LNDSCPNG PROJ SPECIFIC (cont.) RECOMMEND

a. Project shall meet Parking Lot Shading Requirements as required per Ord 348.
b. Project shall use a landscape water budget not to exceed 0.40 ETo.

80.TRAN. 21 USE - INCREASED RUNOFF MIT RECOMMEND

Proposed retention basins shall be designed of adequate size to retain 100 percent of the 100-year event. The proponent shall obtain approval from the Riverside County Transportation Department regarding the adequacy of the retention basin design. Final design will require the submittal of actual infiltration rate of 2-inches per hour. Final design will require the submittal of actual infiltration rate testing otherwise infiltration will be considered as zero.

80.TRAN. 22 USE - EASEMENT FOR DRAINAGE 2 RECOMMEND

The project proponent will prepare and record easements for drainage purposes by separate instrument to the benefit of public, for areas where drainage facilities and other drainage appurtenances are required and/or where drainage flow patterns must be maintained to convey flood plain water. All drainage easements shall be recorded by separate instrument and noted as follows, "Drainage Easement - no building, obstructions, or encroachments are allowed." All drainage easements shall be maintained by the owner in perpetuity.

90. PRIOR TO BLDG FINAL INSPECTION

BS GRADE DEPARTMENT

90.BS GRADE. 1 USE - WQMP BMP INSPECTION RECOMMEND

Prior to final building inspection, the applicant shall obtain inspection of all treatment control BMPs and/or clearance from the Building and Safety Department. All structural BMPs described in the project - specific WQMP and indicated on the approved grading plan shall be constructed and installed in conformance with the approved plans and specifications. The Building and Safety Department must inspect and approve the completed WQMP treatment control BMPs for your project before a building
90. PRIOR TO BLDG FINAL INSPECTION

90.BS GRADE. 1  USE - WQMP BMP INSPECTION (cont.)
final can be obtained.

90.BS GRADE. 2  USE - WQMP BMP CERT REQ'D
Prior to final building inspection, the applicant/owner shall submit a "Wet Signed" copy of the Water Quality Management Plan (WQMP) Certification from a Registered Civil Engineer certifying that the project - specific WQMP treatment control BMPs have been installed in accordance with the approved WQMP.

90.BS GRADE. 3  USE - BMP GPS COORDINATES
Prior to final building inspection, the applicant/owner shall provide the Department of Building Safety with GPS coordinates for the location of the project - specific WQMP treatment control BMPs.

90.BS GRADE. 4  USE - BMP REGISTRATION
Prior to final building inspection, the applicant/owner shall register the project - specific WQMP treatment control BMPs with the Department of Building Safety Business Registration Division. Any person or entity that owns or operates a commercial and/or industrial facility shall register such facility for annual inspections.

90.BS GRADE. 7  USE - WQMP ANNUAL INSPECT FEE
Prior to final building inspection, the applicant shall make payment to the Building and Safety Department for the Water Quality Management Plan (WQMP) Annual Inspection.

90.BS GRADE. 9  USE - REQ'D GRADING INSPECTION'S
The developer / applicant shall be responsible for obtaining the following inspections required by Ordinance 457.
1. Sub-grade inspection prior to base placement.
2. Base inspection prior to paving.
3. Precise grade inspection of entire permit area.
a. Inspection of Final Paving
90. PRIOR TO BLDG FINAL INSPECTION

90.BS GRADE. 9 USE - REQ'D GRADING INSP'S (cont.)

b. Precise Grade Inspection
c. Inspection of completed onsite storm drain facilities
d. Inspection of the WQMP treatment control BMPs

90.BS GRADE. 10 USE - PRECISE GRDG APPROVAL

Prior to final building inspection, the applicant shall obtain precise grade approval and/or clearance from the Building and Safety Department. The Building and Safety Department must approve the precise grading of your project before a building final can be obtained. Precise Grade approval can be accomplished by complying with the following:

1. Requesting and obtaining approval of all required grading inspections.

2. Submitting a "Wet Signed" copy of the Soils Compaction Report from the Soils Engineer (registered geologist or certified geologist, civil engineer or geotechnical engineer as appropriate) for the sub-grade and base of all paved areas.

3. Submitting a "Wet Signed" copy of the Sub-grade (rough) Certification from a Registered Civil Engineer certifying that the sub-grade was completed in conformance with the approved grading plan.

4. Submitting a "Wet Signed" copy of the Precise (Final) Grade Certification for the entire site from a Registered Civil Engineer certifying that the precise grading was completed in conformance with the approved grading plan.

5. Submitting a "Wet Signed" copy of the Certification certifying the installation of any onsite storm drain systems not inspected by Riverside County Flood Control District or the Riverside County Transportation Department.

6. Submitting a "Wet Signed" copy of the Water Quality Management Plan (WQMP) Certification from a Registered Civil Engineer certifying that the Water Quality Management Plan treatment control BMPs have been installed in accordance with the approved WQMP.

Prior to release for building final, the applicant shall have met all precise grade requirements to obtain Building
90. PRIOR TO BLDG FINAL INSPECTION

90.BS GRADE. 10  USE - PRECISE GRDG APPROVAL (cont.)

and Safety Department clearance.

E HEALTH DEPARTMENT

90.E HEALTH. 1  USE - E.HEALTH CLEARANCE REQ

Environmental Health Clearance prior to final inspection.

90.E HEALTH. 2  USE - HAZMAT BUS PLAN

The facility will require a business emergency plan for the storage of hazardous materials greater than 55 gallons, 200 cubic feet or 500 pounds, or any acutely hazardous materials or extremely hazardous substances.

90.E HEALTH. 3  USE - HAZMAT REVIEW

If further review of the site indicates additional environmental health issues, the Hazardous Materials Management Division reserves the right to regulate the business in accordance with applicable County Ordinances.

90.E HEALTH. 4  USE - HAZMAT CONTACT

Contact a Hazardous Materials Specialist, Hazardous Materials Management Division, at (760) 863-8976 for any additional requirements.

90.E HEALTH. 5  USE - MEDICAL WASTE GENERATOR

Medical waste generators must submit medical waste documentation and permit application, with appropriate fee to Department of Environmental Health, in accordance with Riverside County Ordinance 718.1 and the California Health and Safety Code Sections 117600-118300, Medical Waste Management Act.

PLANNING DEPARTMENT

90.PLANNING. 1  USE - PARKING PAVING MATERIAL

A minimum of 287 existing parking spaces (257 spaces / 30 vanpool credits), shall be provided as shown on the APPROVED EXHIBIT A, unless otherwise approved by the Planning Department. The existing parking area shall be maintained with asphaltic concrete or concrete to current
90. PRIOR TO BLDG FINAL INSPECTION

90.PLANNING. 1 USE - PARKING PAVING MATERIAL (cont.) RECOMMND

standards as approved by the Department of Building and Safety.

90.PLANNING. 2 USE - ACCESSIBLE PARKING RECOMMND

A minimum of 10 accessible parking spaces for persons with disabilities shall be maintained and provided as shown on APPROVED EXHIBIT A. Each parking space reserved for persons with disabilities shall be identified by a permanently affixed reflectorized sign constructed of porcelain on steel, beaded text or equal, displaying the International Symbol of Accessibility. The sign shall not be smaller than 70 square inches in area and shall be centered at the interior end of the parking space at a minimum height of 80 inches from the bottom of the sign to the parking space finished grade, or centered at a minimum height of 36 inches from the parking space finished grade, ground, or sidewalk. A sign shall also be posted in a conspicuous place, at each entrance to the off-street parking facility, not less than 17 inches by 22 inches, clearly and conspicuously stating the following:

"Unauthorized vehicles not displaying distinguishing placards or license plates issued for physically handicapped persons may be towed away at owner's expense. Towed vehicles may be reclaimed at ___ or by telephoning ___." 

In addition to the above requirements, the surface of each parking space shall have a surface identification sign duplicating the symbol of accessibility in blue paint of at least 3 square feet in size.

90.PLANNING. 4 USE - LIGHTING PLAN COMPLY RECOMMND

All street lights and other outdoor lighting shall be shown on electrical plans submitted to the Department of Building and Safety for plan check approval and shall comply with the requirements of Riverside County Ordinance No. 655 and the Riverside County Comprehensive General Plan.

90.PLANNING. 5 USE - ROOF EQUIPMENT SHIELDING RECOMMND

Roof-mounted equipment shall be shielded from ground view. Screening material shall be subject to Planning Department approval.
90. PRIOR TO BLDG FINAL INSPECTION

90.PLANNING. 6 USE - INSTALL BIKE RACKS

Bicycle rack(s) shall be provided in a convenient location to facilitate bicycle access to the project area. The bicycle racks shall be shown on project landscaping and improvement plans submitted for approval, and shall be installed in accordance with those plans.

90.PLANNING. 7 USE - TRASH ENCLOSURES

Trash enclosures shall be located as shown on the APPROVED EXHIBIT A. The enclosures shall be a minimum of six (6) feet in height and shall be maintained with masonry block landscaping screening and a solid gate which screens the bins from external view. Additional enclosed area for collection of recyclable materials shall be located within, near or adjacent to each trash and rubbish disposal area. The recycling collection area shall be a minimum of fifty percent (50%) of the area provided for the trash/rubbish enclosure(s) or as approved by the Riverside County Waste Management Department. All recycling bins shall be labeled with the universal recycling symbol and with signage indicating to the users the type of material to be deposited in each bin.

90.PLANNING. 10 USE - COLOR/FINISH COMPLIANCE

The permittee shall properly install approved color and finish products in accordance with these conditions of approval.

90.PLANNING. 11 USE - ORD NO. 659 (DIF)

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 659, which requires the payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 659 has been established to set forth policies, regulations and fees related to the funding and installation of facilities and the acquisition of open space and habitat necessary to address the direct and cumulative environmental effects generated by new development project described and defined in this Ordinance, and it establishes the authorized uses of the fees collected.

The amount of the fee for commercial or industrial
90. PRIOR TO BLDG FINAL INSPECTION

90.PLANNING. 11 USE - ORD NO. 659 (DIF) (cont.)

Development shall be calculated on the basis of the "Project Area," as defined in the Ordinance, which shall mean the net area, measured in acres, from the adjacent road right-of-way to the limits of the project development. The Project Area for Plot Plan No. 25686 has been calculated to be 1.0 net acres.

In the event Riverside County Ordinance No. 659 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 659 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

90.PLANNING. 12 USE - ORD 875 CVMSHCP FEE

Prior to a certificate of occupancy or upon building permit final inspection, whichever comes first, the permit holder shall comply with the provisions of Riverside County Ordinance No. 875, which requires the payment of the appropriate fee set forth in the ordinance. The amount of the fee will be based on the "Project Area" as defined in the ordinance and the aforementioned condition of approval. The Project Area for Plot Plan No. 25686 is calculated to be 1.0 net acres. In the event Riverside County Ordinance No. 875 is rescinded, this condition will no longer be applicable. However, in the event Riverside County Ordinance No. 875 is rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

90.PLANNING. 16 USE - CO WASTE RESOURCES

A clearance letter from Co. Waste Resources Dept. shall be provided to the Riverside County Planning Department verifying compliance with the conditions of their letter dated December 1, 2014, summarized as follows: Prior to issuance of final occupancy permit, evidence to demonstrate project compliance with the approved Waste Recycling Plan shall be presented by the project proponent to the Co. Waste Resources Dept.
90. PRIOR TO BLDG FINAL INSPECTION

TRANS DEPARTMENT

90.TRANS. 13  USE - UTILITY INSTALL

Electrical power, telephone, communication, street lighting, and cable television lines shall be placed underground in accordance with Ordinance 460 and 461, or as approved by the Transportation Department. This also applies to existing overhead lines which are 33.6 kilovolts or below along the project frontage and between the nearest poles offsite in each direction of the project site.

A certificate should be obtained from the pertinent utility company and submitted to the Department of Transportation as proof of completion.

90.TRANS. 25  USE - LC LNDSCP INSPECT DEPOSIT

Prior to building permit final inspection, the developer/permit holder shall file an Inspection Request Form and deposit sufficient funds to cover the costs of the Pre-Installation, the Installation, and One Year Post-Establishment landscape inspections. In the event that an open landscape case is not available, then the applicant shall open a FEE ONLY case to conduct inspections. The deposit required for landscape inspections shall be determined by the Riverside County Landscape Division. The Transportation Department shall clear this condition upon determination of compliance.

90.TRANS. 26  USE - LNDSCPE INSPECTN RQRMTS

The permit holder's (or on-site representative) landscape architect is responsible for preparing the landscaping and irrigation plans and shall arrange for an installation inspection with the Transportation Department at least five (5) working days prior to the installation of any landscape or irrigation components.

Upon successful completion of the installation inspection, the applicant will arrange for a 6th-month installation inspection at least five (5) working days prior to the final building inspection or issuance of the occupancy permit, whichever occurs first, and comply with the Transportation Department's (80.TRANS) condition entitled "USE-LANDSCAPING SECURITY" and (90.TRANS) condition entitled "LANDSCAPE INSPECTION DEPOSIT." Upon successful completion of the installation inspection, the County
90. PRIOR TO BLDG FINAL INSPECTION

90.TRAN. 26  USE - LNDSCPE INSPECTN RQMTS (cont.) RECOMMEND

Transportation Department's landscape inspector and the permit holder's landscape architect (or on-site representative) shall execute a Landscape Certificate of Completion that shall be submitted to the Transportation Department and the Department of Building and Safety. The Transportation Department shall clear this condition upon determination of compliance.

90.TRAN. 27  USE - LC COMPLY W/ LNDSCP/ IRR RECOMMEND

The developer/permit holder shall coordinate with their designated landscape representative and the Riverside County Transportation Department's landscape inspector to ensure all landscape planting and irrigation systems have been installed in accordance with APPROVED EXHIBITS, landscaping, irrigation, and shading plans. The Transportation Department will ensure that all landscaping is healthy, free of weeds, disease and pests; and, irrigation systems are properly constructed and determined to be in good working order. The developer/permit holder's designated landscape representative and the Riverside County Transportation Department's landscape inspector shall determine compliance with this condition and execute a Landscape Certificate of Completion. Upon determination of compliance, the Transportation Department shall clear this condition.

90.TRAN. 28  USE - DRAINAGE IMRPROV COMPLETE RECOMMEND

All drainage improvements including the construction of drainage swales, storm drains, inlet structures, and retention systems are required to be completed prior to occupancy.

90.TRAN. 29  USE - EASEMENT FOR DRAINAGE 2 RECOMMEND

The project proponent will prepare and record easements for drainage purposes by separate instrument to the benefit of public, for areas where drainage facilities and other drainage appurtenances are required and/or where drainage flow patterns must be maintained to convey flood plain water. All drainage easements shall be recorded by separate instrument and noted as follows, "Drainage Easement - no building, obstructions, or encroachments are allowed." All drainage easements shall be maintained by the owner in perpetuity.

RE: AIRPORT LAND USE COMMISSION (ALUC) DEVELOPMENT REVIEW – DIRECTOR'S DETERMINATION

File No.: ZAP1060BD15
Related File No.: PM 36837(Tentative Parcel Map) and PP 25686 (Plot Plan)
APN: 607-070-018

Dear Mr. Olivas:

Under the delegation of the Riverside County Airport Land Use Commission (ALUC), staff reviewed Tentative Parcel Map No. 36837 proposing to divide the above-referenced four-acre property located at the southeast corner of Washington Street and 41st Avenue in the unincorporated community of Bermuda Dunes into two parcels with lot sizes of 1.99 and 2.01 acres and Plot Plan No. 25686 proposing to establish a 28,342 square foot two story medical office building on the southerly 2.01 acre parcel of the Tentative Parcel Map.

The site is located within Airport Compatibility Zone D of the Bermuda Dunes Airport Influence Area (AIA). The proposed building is anticipated to accommodate a maximum of 179 people, resulting in an average intensity of 89 persons per acre within the 2.01-acre site area, which would be consistent with the Compatibility Zone D average acre criterion of 100 people. The proposed building would be entirely located within a single-acre area (210 feet by 210 feet area), but the anticipated maximum of 179 people is consistent with the Compatibility Zone D single-acre criterion of 300 people.

Based on the distance of the parcel to the end of the runway at 6,240 feet and the elevation of the westerly end of the runway at 73 feet above mean sea level (AMSL), FAA Obstruction Evaluation review would be required for any structure with a top point elevation exceeding 135.4 feet AMSL. The proposed finished floor elevation is 109.9 feet AMSL and the maximum building height proposed is 38 feet for a total elevation of 147.9 feet AMSL. Therefore, FAA Obstruction Evaluation review for height/elevation reasons was required. The proposed building was submitted for FAA obstruction evaluation review and assigned Aeronautical Study No. (ASN) 2015-AWP-7127-OE. The FAA Obstruction Evaluation Service has issued a “Determination of No Hazard to Air Navigation” for the ASN.

As ALUC Director, I hereby find the above-referenced project CONSISTENT with the 2004 Bermuda Dunes Airport Land Use Compatibility Plan, subject to the following conditions:
CONDITIONS:

1. Any new outdoor lighting that is installed shall be hooded or shielded so as to prevent either the spillage of lumens or reflection into the sky, and shall comply with the requirements of Riverside County Ordinance No. 655, as applicable.

2. The Plot Plan proposes the establishment of a two-story medical office building. The following uses are not included in the Plot Plan and shall be prohibited on this site, in accordance with Note 4 on Table 4 of the Western Coachella Valley Area Plan:

   (a) Any use which would direct a steady light or flashing light of red, white, green, or amber colors associated with airport operations toward an aircraft engaged in an initial straight climb following takeoff or toward an aircraft engaged in a straight final approach toward a landing at an airport, other than an FAA-approved navigational signal light or visual approach slope indicator.

   (b) Any use which would cause sunlight to be reflected towards an aircraft engaged in an initial straight climb following takeoff or towards an aircraft engaged in a straight final approach towards a landing at an airport.

   (c) Any use which would generate smoke or water vapor or which would attract large concentrations of birds, or which may otherwise affect safe air navigation within the area.

   (d) Any use which would generate electrical interference that may be detrimental to the operation of aircraft and/or aircraft instrumentation.

3. The attached notice shall be provided to all potential purchasers of the property and tenants of the existing and proposed buildings thereon.

4. The Federal Aviation Administration has conducted an aeronautical study of the proposed building (Aeronautical Study No. 2015-AWP-7127-OE) and has determined that neither marking nor lighting of the structure is necessary for aviation safety. However, if marking and/or lighting for aviation safety are accomplished on a voluntary basis, such marking and/or lighting (if any) shall be installed in accordance with FAA Advisory Circular 70/7460-1 K Change 2 and shall be maintained in accordance therewith for the life of the project.

5. The maximum height of the proposed structure, including all roof-mounted appurtenances (if any), shall not exceed 38 feet above ground level, and the maximum elevation at the top of the structure shall not exceed 148 feet above mean sea level.

6. The specific coordinates, height, and top point elevation of the proposed structure shall not be amended without further review by the Airport Land Use Commission and the Federal Aviation Administration; provided, however, that reduction in building height or elevation shall not require further review by the Airport Land Use Commission.
7. Temporary construction equipment used during actual construction of the structure shall not exceed the height of the structure, unless separate notice is provided to the Federal Aviation Administration through the Form 7460-1 process.

8. Within five (5) days after construction of the structure reaches its greatest height, FAA Form 7460-2 (Part II), Notice of Actual Construction or Alteration, shall be completed by the project proponent or his/her designee and e-filed with the Federal Aviation Administration. (Go to https://oeaaa.faa.gov for instructions.) This requirement is also applicable in the event the project is abandoned.

9. No detention basins are depicted on the plans submitted to ALUC. Any detention basins installed on the site shall be designed so as to provide for a maximum 48-hour detention period following the conclusion of the storm event for the design storm (may be less, but not more), and to remain totally dry between rainfalls.

If you have any questions, please contact Russell Brady, Contract Planner, at (951) 955-0549, or John Guerin, Principal Planner, at (951) 955-0982.

Sincerely,
RIVERSIDE COUNTY AIRPORT LAND USE COMMISSION

Edward C. Cooper, Director

NOTICE OF AIRPORT IN VICINITY

This property is presently located in the vicinity of an airport, within what is known as an airport influence area. For that reason, the property may be subject to some of the annoyances or inconveniences associated with proximity to airport operations (for example: noise, vibration, or odors). Individual sensitivities to those annoyances can vary from person to person. You may wish to consider what airport annoyances, if any, are associated with the property before you complete your purchase and determine whether they are acceptable to you. Business & Professions Code Section 11010 (b) (13)(A)
** DETERMINATION OF NO HAZARD TO AIR NAVIGATION **

The Federal Aviation Administration has conducted an aeronautical study under the provisions of 49 U.S.C., Section 44718 and if applicable Title 14 of the Code of Federal Regulations, part 77, concerning:

Structure: Building JFK Medical Facility  
Location: Bermuda Dunes, CA  
Latitude: 33-44-55.00N NAD 83  
Longitude: 116-18-10.00W  
Heights: 110 feet site elevation (SE)  
38 feet above ground level (AGL)  
148 feet above mean sea level (AMSL)

This aeronautical study revealed that the structure does not exceed obstruction standards and would not be a hazard to air navigation provided the following condition(s), if any, is(are) met:

It is required that FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or:

- At least 10 days prior to start of construction (7460-2, Part 1)  
- X Within 5 days after the construction reaches its greatest height (7460-2, Part 2)

Based on this evaluation, marking and lighting are not necessary for aviation safety. However, if marking/lighting are accomplished on a voluntary basis, we recommend it be installed and maintained in accordance with FAA Advisory circular 70/7460-1 K Change 2.

This determination expires on 01/21/2017 unless:

(a) the construction is started (not necessarily completed) and FAA Form 7460-2, Notice of Actual Construction or Alteration, is received by this office.  
(b) extended, revised, or terminated by the issuing office.  
(c) the construction is subject to the licensing authority of the Federal Communications Commission (FCC) and an application for a construction permit has been filed, as required by the FCC, within 6 months of the date of this determination. In such case, the determination expires on the date prescribed by the FCC for completion of construction, or the date the FCC denies the application.
NOTE: REQUEST FOR EXTENSION OF THE EFFECTIVE PERIOD OF THIS DETERMINATION MUST BE E-FILED AT LEAST 15 DAYS PRIOR TO THE EXPIRATION DATE. AFTER RE-EVALUATION OF CURRENT OPERATIONS IN THE AREA OF THE STRUCTURE TO DETERMINE THAT NO SIGNIFICANT AERONAUTICAL CHANGES HAVE OCCURRED, YOUR DETERMINATION MAY BE ELIGIBLE FOR ONE EXTENSION OF THE EFFECTIVE PERIOD.

This determination is based, in part, on the foregoing description which includes specific coordinates, heights, frequency(ies) and power. Any changes in coordinates, heights, and frequencies or use of greater power will void this determination. Any future construction or alteration, including increase to heights, power, or the addition of other transmitters, requires separate notice to the FAA.

This determination does include temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the structure. However, this equipment shall not exceed the overall heights as indicated above. Equipment which has a height greater than the studied structure requires separate notice to the FAA.

This determination concerns the effect of this structure on the safe and efficient use of navigable airspace by aircraft and does not relieve the sponsor of compliance responsibilities relating to any law, ordinance, or regulation of any Federal, State, or local government body.

Any failure or malfunction that lasts more than thirty (30) minutes and affects a top light or flashing obstruction light, regardless of its position, should be reported immediately to (877) 487-6867 so a Notice to Airmen (NOTAM) can be issued. As soon as the normal operation is restored, notify the same number.

If we can be of further assistance, please contact our office at (425) 227-2625. On any future correspondence concerning this matter, please refer to Aeronautical Study Number 2015-AWP-7127-OE.

Palm Desert, CA 92211

RE: Plot Plan (PP) No. 25686
Proposal: The Plot Plan proposes a medical office building (87,000 square feet)
APN: 607-070-018

Dear Mr. Olivas:

The Riverside County Waste Management Department (RCWMD) has reviewed the proposed project located south of 41st Avenue, east of Washington Street, and west of Sparkey Way, in the Western Coachella Valley Area Plan. In order to mitigate the project's potential solid waste impacts and help the County comply with AB 939 (Integrated Waste Management Act), AB 1327 (California Solid Waste Reuse and Recycling Access Act), the California Green Building Standards, and AB 341 (Mandatory Commercial Recycling) through diverting solid waste from landfill disposal, the RCWMD recommends that the following conditions be made a part of any Conditions of Approval for the project:

1. **Prior to issuance of a building permit**, the applicant shall submit three (3) copies of a Recyclables Collection and Loading Area plot plan to the Riverside County Waste Management Department for review and approval. The plot plan shall conform to *Design Guidelines for Recyclables Collection and Loading Areas*, provided by the Waste Management Department, and shall show the location of and access to the collection area for recyclable materials, along with its dimensions and construction detail, including elevation/façade, construction materials and signage. The plot plan shall clearly indicate how the trash and recycling enclosures shall be accessed by the hauler.

2. **Prior to final building inspection**, the applicant shall construct the recyclables collection and loading area in compliance with the Recyclables Collection and Loading Area plot plan, as approved and stamped by the Riverside County Waste Management Department.

3. **Prior to issuance of a building permit**, a Waste Recycling Plan (WRP) shall be submitted to the Riverside County Waste Management Department for approval. At a minimum, the WRP must identify the materials (i.e., concrete, asphalt, wood, etc.) that will be generated by construction and development, the projected amounts, the measures/methods that will be taken to recycle, reuse, and/or reduce the amount of materials, the facilities and/or haulers that will be utilized, and the targeted recycling or reduction rate. During project construction, the project site shall have, at a minimum, two (2) bins: one for waste disposal and the other for the recycling of Construction and Demolition (C&D) materials. Additional bins are encouraged to be used for further source separation of C&D recyclable materials. Accurate record keeping (receipts) for recycling of C&D recyclable materials and solid waste disposal must be kept. Arrangements can be made through the franchise hauler.
4. **Prior to issuance of an occupancy permit**, evidence (i.e., receipts or other type of verification) to demonstrate project compliance with the approved WRP shall be presented by the project proponent to the Planning Division of the Riverside County Waste Management Department in order to clear the project for occupancy permits. Receipts must clearly identify the amount of waste disposed and Construction and Demolition (C&D) materials recycled.

5. Hazardous materials are not accepted at Riverside County landfills. In compliance with federal, state, and local regulations and ordinances, any hazardous waste generated in association with the project shall be disposed of at a permitted Hazardous Waste disposal facility. Hazardous waste materials include, but are not limited to, paint, batteries, oil, asbestos, and solvents. For further information regarding the determination, transport, and disposal of hazardous waste, please contact the Riverside County Department of Environmental Health, Environmental Protection and Oversight Division, at 1.888.722.4234.

6. AB 341 focuses on increased commercial waste recycling as a method to reduce greenhouse gas (GHG) emissions. The regulation requires businesses and organizations that generate four or more cubic yards of waste per week and multifamily units of 5 or more, to recycle. A business shall take at least one of the following actions in order to reuse, recycle, compost, or otherwise divert commercial solid waste from disposal:
   - Source separate recyclable and/or compostable material from solid waste and donate or self-haul the material to recycling facilities.
   - Subscribe to a recycling service with their waste hauler.
   - Provide recycling service to their tenants (if commercial or multi-family complex).
   - Demonstrate compliance with the requirements of California Code of Regulations Title 14.

   For more information, please visit:
   [www.rivcowm.org/opencms/recycling/recycling_and_compost_business.html#mandatory](http://www.rivcowm.org/opencms/recycling/recycling_and_compost_business.html#mandatory)

7. Consider xeriscaping and using drought tolerant/low maintenance vegetation in all landscaped areas of the project.

Thank you for the opportunity to review this proposal. If you have any questions, please call me at (951) 486-3200.

Sincerely,

RE: Tentative Parcel Map No. 36837/ Plot Plan No. 25686 (Medical offices)

A noise study is not required based upon the submitted diagram showing a significant distance to the nearest sensitive receptors. However, they still need to follow:

1. Facility-related noise, as projected to any portion of any surrounding property containing a “sensitive receiver, habitable dwelling, hospital, school, library or nursing home”, must not exceed the following worst-case noise levels 45 dB(A) – 10 minute noise equivalent level (“leq”), between the hours of 10:00 p.m. to 7:00 a.m. (nighttime standard) and 65 dB (A) – 10 minute leq, between 7:00 a.m. and 10:00 p.m. (daytime standard). No playing soccer after 10:00 p.m.

2. Whenever a construction site is within one-quarter (1/4) of a mile of an occupied residence or residences, no construction activities shall be undertaken between the hours of 6:00 p.m. and 6:00 a.m. during the months of June through September and between the hours of 6:00 p.m. and 7:00 a.m. during the months of October through May. Exceptions to these standards shall be allowed only with the written consent of the building official.

3. All construction vehicles, equipment fixed or mobile shall be equipped with properly operating and maintained mufflers.

Please contact Steve Hinde if you have any questions.

Jay Olivas
Riverside County Planning Department
77588 El Duna Court, Suite H
Palm Desert, CA 92211

Dear Mr. Olivas:

Subject: TPM 36837—Plot Plan No. 25686, EA 42732

This letter supersedes Coachella Valley Water District’s (CVWD’s) letter dated October 7, 2014 (copy enclosed).

The proposed subdivision of TPM 36837 or new two-story building for PP 25686 does not conflict with CVWD stormwater facilities.

This area is designated Zone X on Federal Flood Insurance rate maps, which are in effect at this time by the Federal Emergency Management Agency (FEMA).

Flood protection measures for local drainage shall comply with California Drainage Law and provide that stormwater flows are received onto and discharged from this property in a manner that is reasonably compatible with predevelopment conditions.

The County of Riverside (County) shall require mitigation measures to be incorporated into the development to prevent flooding of the site or downstream properties. These measures shall require on-site retention of the incremental increase of runoff from the 100-year storm.

Since the stormwater issues of this development are local drainage, CVWD does not need to review drainage design further.
The project is located within the service area of CVWD for the provision of domestic water and sanitation service. The initiation of said service to this area will be subject to the satisfaction of terms and conditions established by CVWD and imposed from time to time, including but not limited to fees and charges, water conservation measures, etc.

CVWD may need additional facilities to provide for the orderly expansion of its domestic water and sanitation systems. These facilities may include pipelines, wells, reservoirs, booster pumping stations, lift stations, treatment plants and other facilities. The developer may be required to construct/install these facilities and then convey said facilities to CVWD along with the land and/or easements on which these facilities will be located. The terms and conditions for the planning, design, construction/installation, and conveyance of property interests shall be determined by CVWD pursuant to its rules and regulations as said requirements may be revised from time to time. These sites shall be shown on the parcel map as lots and/or easements to be deeded to CVWD for “CVWD public services” purposes.

This notice of domestic water and sanitation service availability only applies to the specific property for which it was issued and shall expire three (3) years from date of issuance. Unless or until all requirements for the initiation of service are met, the developer shall not be deemed to have any vested right or other commitment to receive water and/or sanitation service. In the event all of the terms, conditions, fees and charges are not satisfied on or before the expiration date, this notice shall expire. Upon expiration, the developer will be required to submit a new application and otherwise comply with any and all new or amended requirements for the provision of service as may be determined by CVWD pursuant to its rules and regulations.

Domestic water and sanitation service remains at all times subject to changes in regulations adopted by CVWD’s Board of Directors including reductions in, or suspensions of, service.

This development is subject to the County’s Landscape Ordinance which was adopted in accordance with the State’s Model Water Efficient Landscape Ordinance and CVWD’s Ordinance 1374. The purpose of these ordinances is to establish effective water efficient landscaping requirements for newly installed and rehabilitated landscapes. In order to ensure this development’s compliance, plans for grading, landscaping and irrigation systems shall be submitted to CVWD for review prior to installation. This review is intended to promote efficient water management. However, by reviewing the plans, CVWD does not represent or warrant any amount of water or financial savings.

This development lies within the study area of the 2010 Water Management Plan Update. The groundwater basin in the Coachella Valley is in a state of overdraft. Each new development contributes incrementally to the overdraft. CVWD has a Water Management Plan in place to reduce the overdraft to the groundwater basin. The elements of the Water Management Plan
include supplemental imported water, source substitution and water conservation. The plan lists specific actions for reducing overdraft. The elements and actions described in the plan shall be incorporated into the design of this development to reduce its negative impact on the Coachella Valley groundwater basin.

If you have any questions, please call Tommy Fowlkes, Development Services Supervisor, extension 3535.

Sincerely,

Carrie Oliphant
Engineering Services Manager

Riverside, CA 92502-1409  

Dear Mr. Bugtai:

Subject: TPM 36837, 41120 Washington St. (APN 607-070-018)

This area is designated Zone X on Federal Flood Insurance rate maps, which are in effect at this time by the Federal Emergency Management Agency (FEMA).

The Riverside County (County) shall require mitigation measures to be incorporated into the development to prevent flooding of the site or downstream properties. These measures shall require on-site retention of runoff from the 100-year storm.

Since the stormwater issues of this development are local drainage, Coachella Valley Water District (CVWD) does not need to review drainage design further.

CVWD will provide domestic water and sanitation service to this area and such service will be subject to the satisfaction of terms and conditions established by CVWD and exercised from time to time, including but not limited to fees and charges, water conservation measures, etc.

CVWD may need additional facilities to provide for the orderly expansion of its domestic water and sanitation systems. These facilities may include pipelines, wells, reservoirs, booster pumping stations, lift stations, treatment plants and other facilities. The developer may be required to install these facilities and provide land and/or easements on which some of these facilities will be located. These sites shall be shown on the map as lots and/or easements to be deeded to CVWD for such purpose.

This notice of domestic water and sanitation service availability can only be used and relied upon for the specific property for which it was issued and shall expire three (3) years from date of issuance.
Domestic water and sanitation service remains at all times subject to changes in regulations adopted by CVWD's Board of Directors including reductions in or suspensions of service.

This development is subject to the County's Landscape Ordinance which was adopted in accordance with the State's Model Water Efficient Landscape Ordinance and CVWD's Ordinance 1374. The purpose of these ordinances is to establish effective water efficient landscaping requirements for newly installed and rehabilitated landscapes. In order to ensure this development’s compliance, plans for grading, landscaping and irrigation systems shall be submitted to CVWD for review. This review is for ensuring efficient water management.

This development lies within the study area of the 2010 Water Management Plan Update. The groundwater basin in the Coachella Valley is in a state of overdraft. Each new development contributes incrementally to the overdraft. CVWD has a Water Management Plan in place to reduce the overdraft to the groundwater basin. The elements of the Water Management Plan include supplemental imported water, source substitution and water conservation. The plan lists specific actions for reducing overdraft. The elements and actions described in the plan shall be incorporated into the design of this development to reduce its negative impact on the Coachella Valley groundwater basin.

If you have any questions please call Tommy Fowlkes, Development Services Supervisor, extension 3535.

Bermuda Dunes Community Council Agenda and Minutes
6:00 p.m. Thursday, May 14, 2015
Bermuda Dunes Community Center 78-400 Avenue 42, Bermuda Dunes, CA 92203

I. **Pledge of Allegiance**

II. **Roll Call** - Jeff Wattenbarger not present

III. **Approval of the Minutes** – Approved as Presented

IV. **Councilmember Reports and Comments** - None

V. **Staff Reports**: Presenters must direct their report to the council. At the conclusion of the presentation, Chair may allow questions. Each speaker must first be recognized by the Chair.

1. Office of Supervisor John J. Benoit – Joe Pradetto, 760-863-8211, jpradetto@rcbos.org

   *Short falls in the Sheriff and Fire Departments due to increased salaries. Being audited.*

   *A new Land Use Ordinance will outlaw turf grass in front yards – only desert landscaping will be allowed*

   *Vacation Rental Ordinance – In Progress*
   *Joe suggested people with particular problems write him a note*

   *Desert Recreation District will begin running our BD Community Center*
   *Manny Marrijo and Courtney Gadblan will share responsibilities*
   *Manny’s # 760 564 9921, Courtney’s # 760 347 4263*

2. Sheriff’s Department – Lt. Johnny Rodriguez, 760-863-990, jrodriqu@riversidesheriff.org

   *Gave Report. Mail theft has increased in Bermuda Dunes*

3. CAL Fire – Battalion Chief Eddy Moore, 760-540-1878, eddy.moore@fire.ca.gov

   *Not Present*

4. Code Enforcement – Francisco Mendez, 760-393-3344, fmmendez@rctima.org

   *Not Present*
5. Other Departments

VI. **New Business:** Presenters must direct their report to the council. At the conclusion of the presentation, Chair may allow questions. Each speaker must first be recognized by the Chair.

1. Project: JFK Medical Office Building – Parcel Map 36837
   a. Recommendation:
   b. Background:
   c. Location: 41120 Washington Street, Indio, CA (Southeast Corner of Washington St. and 41st Ave.)
   d. APN Number(s) 607-070-018
   e. Planning Department Case Number(s): Parcel Map 36837 & Plot Plan 25686
   f. Status within Riverside County Planning office: Land Development Committee (LDC) date December 11, 2014
   g. County Planner: Jay Olivas, 760-863-7050, jolivas@retlma.org
   h. Zoning/General Plan (GP) Designation: R-3-4000, Medical Professional Office
   i. Will you be requesting a zone/GP designation change? No
   j. Total square feet of building(s)? 30,192 SF Gross, 24,186 SF leasable
   k. An ADVISORY ACTION/VOTE of Community Council members is required before Director’s Hearing (DH), Planning Commission (PC) or Board of Supervisor (BOS) reviews.
   l. Contact information for the developer making the presentation

**ACTION:** Approved, Vote 4 yes, 1 absent

2. Direction: Overlay Revise
   a. Recommendation: Discuss direction for pursuing revisions to the Overlay.
   b. Background: At the March 12, 2015, Bermuda Dunes Community Council meeting, council members requested an item to discuss revising the Bermuda Dunes Neighborhood Preservation Overlay Standards (Overlay). The Overlay provides enhanced code enforcement standards for the community of Bermuda Dunes. This includes stricter standards for parking, yard maintenance and street appearances than what applies to other unincorporated communities.
Public opinion on the Overlay appears to be split. Some residents have criticized the Overlay for being too relaxed, while others consider it overly strict.

The language of the Overlay ordinance may be reviewed here: https://www.municode.com/library/ca/riverside_county/codes/code_of_ordinances?nodeId=TIT17ZO_CH17.292BEDUNEPROVZQ.

**ACTION:** Joe advised that the Supervisor has suggested that we wait on this as it is very expensive and had been voted down several years ago.

*Joe also suggested that anyone with specific issues, please contact him via email or phone.*

3. Direction: Median Maintenance Assessment  
   a. Recommendation: Discuss and provide direction for pursuing an assessment district to fund median improvements and maintenance.  
   b. Background: In 2009 residents voted down a proposal to create and maintain decorative street signs, community entrance signs, landscaped medians and a park. Since then, the median on certain parts of Avenue 42 have gone without a dedicated funding source for improvements and maintenance. A group of residents recently wrote to Supervisor Benoit requesting improved landscaping in the medians. This item is going to the community council to gauge interest in pursuing an assessment district to pay for the requested improvements.

   **ACTION:** Joe was directed by BDCC Council to proceed forward with median assessment for desert maintenance and plants. This will also include the proposed park where the Desert Christian School is now located.

4. Announcement: The Coachella Valley Irrigated Lands Coalition will hold a workshop to help owners and operators of irrigated land to comply with the new order. The workshop will be from 3 – 5 p.m., Tuesday, June 16, 2016, at CVWD’s Forbes Auditorium (51501 Tyler Street, Coachella, CA). Contact Lorrie Cooper at 760 837-7901 or admin@CVILC.ag for more information.  
   a. Background: The Colorado River Basin Regional Water Control Board (CRBRWCB) issued an order requiring owners and operators of irrigated (canal & well) lands larger than 5 acres to develop a groundwater monitoring plan. These plans can be developed by individuals or by a coalition on behalf a large group of individuals. Failure to comply with the order could result in up to a $1,000 per day fine.

ATTN: Jay Olivas
P.O. Box 1409
Riverside, CA 92502-1409

RE: Tentative Parcel Map No 36836/Plot Plan No 25686

Dear Mr. Olivas,

I just recently found out that there is a plan to build a two-story medical office building at 41st Ave and Washington Street and Sparkey Way with approximately 287 parking spaces.

We have lived in Woodhaven Country Club since 1989. During this time the traffic flow and speed of traffic has increased to a point that we can no longer safely use the front entrance. We have to wait several minutes up to 10 minutes or more to feel safe negotiate leaving into or out of the complex. With the new development of a medical center and extra parking spaces we feel that a signal light should be installed at the entrance of Woodhaven Country Club so we can have accessibility to leave the complex without the potential of a severe auto mishap.

I would hope that you take this into strong consideration because at this point with the current traffic flow as is this will only generate more problems from this new addition.

Thank you for your consideration.

Sincerely,

Marilyn and Sidney Olinger

Assessor’s Parcel Number(s): 607-070-018

Section: 7 Township: 5S Range: 7E

Approximate Gross Acreage: 4 acres
APPLICATION FOR SUBDIVISION AND DEVELOPMENT

General location (cross streets, etc.): North of Easthaven Road, South of 41st Avenue, East of Aparkey Way, West of Washington St

Thomas Brothers map, edition year, page number, and coordinates: 2007, pg 819, GRD - F4

Proposal (describe project, indicate the number of proposed lots/parcels, units, and the schedule of the subdivision, whether the project is a Vesting Map or Planned Residential Development (PRD):

Proposed Final Map & Monumentation to split APN 607-070-018 into two (2) parcels.

Related cases filed in conjunction with this request:

Plot Plan No. 13317 - 1992

Is there a previous development application filed on the same site: Yes ☐ No ☐

If yes, provide Case No(s). Plot Plan No. 13317 - 1992 (Parcel Map, Zone Change, etc.)

EA No. (if known) EA 36340 EIR No. (if applicable):

Have any special studies or reports, such as a traffic study, biological report, archaeological report, geological or geotechnical reports, been prepared for the subject property? Yes ☐ No ☐

If yes, indicate the type of report(s) and provide a copy: Preliminary Water Quality Management Plan

Is water service available at the project site: Yes ☐ No ☐

If "No," how far must the water line(s) be extended to provide service? (distance in feet/miles) ______

Is sewer service available at the site? Yes ☐ No ☐

If "No," how far must the sewer line(s) be extended to provide service? (distance in feet/miles) ______

Will the proposal eventually require landscaping either on-site or as part of a road improvement or other common area improvements? Yes ☐ No ☐

Will the proposal result in cut or fill slopes steeper than 2.1 or higher than 10 feet? Yes ☐ No ☐

How much grading is proposed for the project site?

Estimated amount of cut = cubic yards: Future Pad - Balance earthwork: Cut 600 C.Y.

Estimated amount of fill = cubic yards Fill 600 C.Y.
APPLICATION FOR SUBDIVISION AND DEVELOPMENT

Does the project need to import or export dirt? Yes □ No □
Import ___________________ Export ___________________ Neither ___________________

What is the anticipated source/destination of the import/export?

What is the anticipated route of travel for transport of the soil material?

How many anticipated truckloads? ________________________________ truck loads.

What is the square footage of usable pad area? (area excluding all slopes) 30,000 sq. ft.

If this is a residential subdivision, is it located in a Recreation and Park District or County Service Area authorized to collect fees for park and recreational services? Yes □ No □

If yes, does the subdivision intend to dedicate land or pay Quimby fees, or a combination of both?
Dedicate land □ Pay Quimby fees □ Combination of both □

Is the subdivision located within 8½ miles of March Air Reserve Base? Yes □ No □

If yes, will any structure exceed fifty-feet (50’) in height (above ground level)? Yes □ No □

Does the subdivision exceed more than one acre in area? Yes □ No □

Is the development project located within any of the following watersheds (refer to Riverside County Land Information System (RCLIS) [http://www3.tlma.co.riverside.ca.us/pa/rcis/index.html] for watershed location)?

□ Santa Ana River □ Santa Margarita River □ Whitewater River
### HAZARDOUS WASTE SITE DISCLOSURE STATEMENT

Government Code Section 65962.5 requires the applicant for any development project to consult specified state-prepared lists of hazardous waste sites and submit a signed statement to the local agency indicating whether the project is located on or near an identified site. Under the statute, no application shall be accepted as complete without this signed statement.

I (we) certify that I (we) have investigated our project with respect to its location on or near an identified hazardous waste site and that my (our) answers are true and correct to the best of my (our) knowledge. My (Our) investigation has shown that:

- [ ] The project is not located on or near an identified hazardous waste site.
- [ ] The project is located on or near an identified hazardous waste site. Please list the location of the hazardous waste site(s) on an attached sheet.

☐ Check this box if additional persons or entities have an ownership interest in the subject property(ies) in addition to that indicated above; and attach a separate sheet that references the use permit type and number and list those names, mailing addresses, phone and fax numbers, and email addresses; and provide signatures of those persons or entities having an interest in the real property(ies) involved in this application.

AUTHORITY FOR THIS APPLICATION IS HEREBY GIVEN:

I certify that I am/we are the record owner(s) or authorized agent, and that the information filed is true and correct to the best of my knowledge, and in accordance with Govt. Code Section 65105, acknowledge that in the performance of their functions, planning agency personnel may enter upon any land and make examinations and surveys, provided that the entries, examinations, and surveys do not interfere with the use of the land by those persons lawfully entitled to the possession thereof.

(If an authorized agent signs, the agent must submit a letter signed by the owner(s) indicating authority to sign on the owner(s)'s behalf, and if this application is submitted electronically, the “wet-signed” signatures must be submitted to the Planning Department after submittal but before the use permit is ready for public hearing.)

Kip Dubbs
PRINTED NAME OF PROPERTY OWNER(S)       SIGNATURE OF PROPERTY OWNER(S)

PRINTED NAME OF PROPERTY OWNER(S)       SIGNATURE OF PROPERTY OWNER(S)

The Planning Department will primarily direct communications regarding this application to the person identified above as the Applicant. The Applicant may be the property owner, representative, or other assigned agent.

AUTHORIZATION FOR CONCURRENT FEE TRANSFER

The applicant authorizes the Planning Department and TLMA to expedite the refund and billing process by transferring monies among concurrent applications to cover processing costs as necessary. Fees collected in excess of the actual cost of providing specific services will be refunded. If additional funds are needed to complete the processing of this application, the applicant will be billed, and processing of the application will cease until the outstanding balance is paid and sufficient funds are available to continue the processing of the application. The applicant understands the deposit fee process as described above, and that there will be NO refund of fees which have been expended as part of the application review or other related activities or services, even if the application is withdrawn or the application is ultimately denied.

LAND USE and PERMIT APPLICATION PROCESSING AGREEMENT
Agreement for Payment of Costs of Application Processing

TO BE COMPLETED BY APPLICANT:

This agreement is by and between the County of Riverside, hereafter “County of Riverside”,
and Omni Washington Street Medical, LLC hereafter “Applicant” and Omni Washington Street Medical, LLC Property Owner”.

Description of application/permit use:
Proposed Tentative Parcel Map 36831 & Plot Plan for
APN 607-070-01R

If your application is subject to Deposit–based Fee, the following applies

Section 1. Deposit-based Fees

Purpose: The Riverside County Board of Supervisors has adopted ordinances to collect “Deposit-based Fees” for the costs of reviewing certain applications for land use review and permits. The Applicant is required to deposit funds to initiate staff review of an application. The initial deposit may be supplemented by additional fees, based upon actual and projected labor costs for the permit. County departments draw against these deposited funds at the staff hourly rates adopted by the Board of Supervisors. The Applicant and Property Owner are responsible for any supplemental fees necessary to cover any costs which were not covered by the initial deposit.

Section 2. Applicant and Property Owner Responsibilities for Deposit-based Fee Applications

A. Applicant agrees to make an initial deposit in the amount as indicated by County ordinance, at the time this Agreement is signed and submitted with a complete application to the County of Riverside. Applicant acknowledges that this is an initial deposit and additional funds may be needed to complete their case. The County of Riverside will not pay interest on deposits. Applicant understands that any delays in making a subsequent deposit from the date of written notice requesting such additional deposit by County of Riverside, may result in the stoppage of work.

B. Within 15 days of the service by mail of the County of Riverside’s written notice that the application permit deposit has been reduced to a balance of less than 20% of the initial deposit or that the deposit is otherwise insufficient to cover the expected costs to completion, the Applicant agrees to make an additional payment of an amount as determined by the County of Riverside to replenish the deposit. Please note that the processing of the application or permit may stop if the amount on deposit has been expended. The Applicant agrees to continue making such payments until the County of Riverside is reimbursed for all costs related to this application or permit. The County of Riverside is entitled to recover its costs, including attorney’s fees, in collecting unpaid accounts that would have been drawn on the deposit were it not depleted.

C. The Property Owner acknowledges that the Applicant is authorized to submit this agreement and related application(s) for land use review or permit on this property. The Property Owner also acknowledges that should the Applicant not reimburse the County of Riverside for all costs related to this application or permit, the Property Owner shall become immediately liable for these costs which shall be paid within 15 days of the service by mail of notice to said property Owner by the County.
D. This Agreement shall only be executed by an authorized representative of the Applicant and the Property Owner. The person(s) executing this Agreement represents that he/she has the express authority to enter into this agreement on behalf of the Applicant and/or Property Owner.

E. This Agreement is not assignable without written consent by the County of Riverside. The County of Riverside will not consent to assignment of this Agreement until all outstanding costs have been paid by Applicant.

F. Deposit statements, requests for deposits or refunds shall be directed to Applicant at the address identified in Section 4.

Section 3. To ensure quality service, Applicant is responsible to provide one-week written notice to the County of Riverside Transportation and Land Management Agency (TLMA) Permit Assistance Centers if any of the information below changes.

Section 4. Applicant and Owner Information

1. PROPERTY INFORMATION:

Assessors Parcel Number(s): 607-070-018

INDEMNIFICATION AGREEMENT

This INDEMNIFICATION AGREEMENT ("Agreement"), made by and between the COUNTY OF RIVERSIDE, a political subdivision of the State of California ("COUNTY"), and Omni Washington Street Medical, LLC, a Delaware Limited Liability Company registered in the State of California ("PROPERTY OWNER"), relating to the PROPERTY OWNER’S indemnification of the COUNTY under the terms set forth herein:

WITNESSETH:

WHEREAS, the PROPERTY OWNER has a legal interest in the certain real property described as APN 607-070-018 ("PROPERTY"); and,

WHEREAS, on October 10, 2014, PROPERTY OWNER filed an application for Parcel Map No. 36837 and Plot Plan No. 25686 ("PROJECT"); and,

WHEREAS, judicial challenges of projects requiring discretionary approvals, including, but not limited to, California Environmental Quality Act determinations, are costly and time consuming. Additionally, project opponents often seek an award of attorneys’ fees in such challenges; and,

WHEREAS, since property owners are the primary beneficiaries of such approvals, it is appropriate that such owners bear the expense of defending against any such judicial challenge, and bear the responsibility of any costs, attorneys’ fees and damages which may be awarded to a successful challenger; and,

WHEREAS, in the event a judicial challenge is commenced against the PROJECT, the COUNTY has requested and the PROPERTY OWNER has agreed to defend, indemnify and hold harmless the COUNTY, its agents, officers, or employees from any claim, action or proceeding against the COUNTY, its agents, officers, or employees to attack, set aside, void or annul any approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the PROJECT or its associated environmental documentation ("LITIGATION"); and,

WHEREAS, this Agreement is entered into by the COUNTY and PROPERTY OWNER to establish specific terms concerning PROPERTY OWNER’S indemnification obligation for the PROJECT.

NOW, THEREFORE, it is mutually agreed between COUNTY and PROPERTY OWNER as follows:

1. Indemnification. PROPERTY OWNER, at its own expense, shall defend, indemnify and hold harmless the COUNTY, its agents, officers, and employees from and against any claim, action or proceeding brought against the
COUNTY, its agents, officers, and employees to attack, set aside, void or annul any approval of the PROJECT including any associated costs, damages, and expenses including, but not limited to, costs associated with Public Records Act requests submitted to the COUNTY related to the PROJECT and an award of attorneys’ fees and costs incurred or arising out of the above-referenced claim, action or proceeding brought against the COUNTY ("Indemnification Obligation.")

2. **Defense Cooperation.** PROPERTY OWNER and the COUNTY shall reasonably cooperate in all aspects of the LITIGATION. Nothing contained in this Agreement, however, shall be construed to limit the discretion of COUNTY, in the interest of the public welfare, to settle, defend, appeal or to decline to settle or to terminate or forego defense or appeal of the LITIGATION. It is also understood and agreed that all litigation pleadings are subject to review, revision and approval by COUNTY’s Office of County Counsel.

3. **Representation and Payment for Legal Services Rendered.** COUNTY shall have the absolute right to approve any and all counsel retained to defend COUNTY in the LITIGATION. PROPERTY OWNER shall pay the attorneys’ fees and costs of the legal firm retained by PROPERTY OWNER to represent the COUNTY in the LITIGATION. Failure by PROPERTY OWNER to pay such attorneys’ fees and costs may be treated as an abandonment of the PROJECT and as a default of PROPERTY OWNER’s obligations under this Agreement.

4. **Payment for COUNTY’s LITIGATION Costs.** Payment for COUNTY’s costs related to the LITIGATION shall be made on a deposit basis. LITIGATION costs include any associated costs, fees, damages, and expenses as further described in Section 1. herein as Indemnification Obligation. Within thirty (30) days of receipt of notice from COUNTY that LITIGATION has been initiated against the PROJECT, PROPERTY OWNER shall initially deposit with the COUNTY’s Planning Department the total amount of Twenty Thousand Dollars ($20,000). PROPERTY OWNER shall deposit with COUNTY such additional amounts as COUNTY reasonably and in good faith determines, from time to time, are necessary to cover costs and expenses incurred by the COUNTY, including but not limited to, the Office of County Counsel, Riverside County Planning Department and the Riverside County Clerk of the Board associated with the LITIGATION. Within ten (10) days of written notice from COUNTY, PROPERTY OWNER shall make such additional deposits. Collectively, the initial deposit and additional deposits shall be referred to herein as the “Deposit.”

5. **Return of Deposit.** COUNTY shall return to PROPERTY OWNER any funds remaining on deposit after ninety (90) days have passed since final adjudication of the LITIGATION.
6. **Notices.** For all purposes herein, notices shall be effective when personally delivered, delivered by commercial overnight delivery service, or sent by certified or registered mail, return receipt requested, to the appropriate address set forth below:

**COUNTY:**
Office of County Counsel  
Attn: Melissa Cushman  
3960 Orange Street, Suite 500  
Riverside, CA 92501

**PROPERTY OWNER:**
Omni West Group, Inc.  
Attn: Kip Dubbs  
23187 La Cadena Dr., Ste. 102  
Laguna Hills, CA 92653

7. **Default and Termination.** This Agreement is not subject to termination, except by mutual agreement or as otherwise provided herein. In the event of a default of PROPERTY OWNER’s obligations under this Agreement, COUNTY shall provide written notification to PROPERTY OWNER of such alleged default and PROPERTY OWNER shall have ten (10) days after receipt of written notification to cure any such alleged default. If PROPERTY OWNER fails to cure such alleged default within the specified time period or otherwise reach agreement with the COUNTY on a resolution of the alleged default, COUNTY may, in its sole discretion, do any of the following or combination thereof:

a. Deem PROPERTY OWNER’s default of PROPERTY OWNER’s obligations as abandonment of the PROJECT and as a breach of this Agreement;

b. Rescind any PROJECT approvals previously granted;

c. Settle the LITIGATION.

In the event of a default, PROPERTY OWNER shall remain responsible for any costs and attorney’s fees awarded by the Court or as a result of settlement and other expenses incurred by the COUNTY related to the LITIGATION or settlement.

8. **COUNTY Review of the PROJECT.** Nothing in this Agreement shall be construed to limit, direct, impede or influence the COUNTY’s review and consideration of the PROJECT.

9. **Complete Agreement/Governing Law.** This Agreement represents the complete understanding between the parties with respect to matters set forth herein. This Agreement shall be construed in accordance with the laws of the State of California.

10. **Successors and Assigns.** The obligations specific herein shall be made, and are binding on the successors in interest of the PROPERTY OWNER, whether the succession is by agreement, by operation of law or by any other means.
11. **Amendment and Waiver.** No modification, waiver, amendment or discharge of this Agreement shall be valid unless the same is in writing and signed by all parties.

12. **Severability.** If any term, provision, covenant or condition of this Agreement is held to be invalid, void or otherwise unenforceable, to any extent, by any court of competent jurisdiction, the remainder of this Agreement shall not be affected thereby, and each term, provision, covenant or condition of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

13. **Survival of Indemnification.** The parties agree that this Agreement shall constitute a separate agreement from any PROJECT approval, and if the PROJECT, in part or in whole, is invalidated, rendered null or set aside by a court of competent jurisdiction, the parties agree to be bound by the terms of this Agreement, which shall survive such invalidation, nullification or setting aside.

14. **Interpretation.** The parties have been advised by their respective attorneys, or if not represented by an attorney, represent that they had an opportunity to be so represented in the review of this Agreement. Any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not be applied in interpreting this Agreement.

15. **Captions and Headings.** The captions and section headings used in this Agreement are inserted for convenience of reference only and are not intended to define, limit or affect the construction or interpretation of any term or provision hereof.

16. **Jurisdiction and Venue.** Any action at law or in equity arising under this Agreement or brought by a party hereto for the purpose of enforcing, construing or determining the validity of any provision of this Agreement shall be filed in the Courts of Riverside County, State of California, and the parties hereto waive all provisions of law providing for the filing, removal or change of venue to any other court or jurisdiction.

17. **Counterparts; Facsimile & Electronic Execution.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same document. To facilitate execution of this Agreement, the parties may execute and exchange facsimile or electronic counterparts, and facsimile or electronic counterparts shall serve as originals.
18. **Joint and Several Liability.** In the event there is more than one PROPERTY OWNER, the liability of PROPERTY OWNER shall be joint and several, and PROPERTY OWNER each of them shall be jointly and severally liable for performance of all of the obligations of PROPERTY OWNER under this Agreement.

19. **Effective Date.** The effective date of this Agreement is the date the parties sign the Agreement. If the parties sign the Agreement on more than one date, then the last date the Agreement is signed by a party shall be the effective date.

**IN WITNESS WHEREOF,** the parties hereto have duly caused this Agreement to be executed by their authorized representatives as of the date written.

Notary Public Signature

INSTRUCTIONS FOR COMPLETING THIS FORM
This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknowledgments from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print: the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. he/she/they, is/are) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
  - Securely attach this document to the signed document with a staple.

PROPERTY OWNERS CERTIFICATION FORM

I, ___________VINNIE NGUYEN_________ certify that on ____________May 11, 2017__________,

The attached property owners list was prepared by ____________Riverside County GIS__________,

APN (s) or case numbers ____________ PM36837 / PP25686__________ For

Company or Individual’s Name ____________RCIT - GIS__________

Distance buffered ____________ 600’

Pursuant to application requirements furnished by the Riverside County Planning Department.

Said list is a complete and true compilation of the owners of the subject property and all other property owners within 600 feet of the property involved, or if that area yields less than 25 different owners, all property owners within a notification area expanded to yield a minimum of 25 different owners, to a maximum notification area of 2,400 feet from the project boundaries, based upon the latest equalized assessment rolls. If the project is a subdivision with identified off-site access/improvements, said list includes a complete and true compilation of the names and mailing addresses of the owners of all property that is adjacent to the proposed off-site improvement/alignment.

I further certify that the information filed is true and correct to the best of my knowledge. I understand that incorrect or incomplete information may be grounds for rejection or denial of the application.

INTENT TO ADOPT A NEGATIVE DECLARATION

A PUBLIC HEARING has been scheduled, pursuant to Riverside County Land Use Ordinance No. 348, before the RIVERSIDE COUNTY DIRECTOR’S HEARING to consider the project shown below:

TENTATIVE PARCEL MAP NO. 36837/PLOT PLAN NO. 25686 – Intent to Adopt a Negative Declaration – Owner/Applicant: Omni Washington Street Medical, LLC – Engineer/Representative: A&B Consulting Engineers – Fourth Supervisorial District – Bermuda Dunes Zoning District – Western Coachella Valley Area Plan: Community Development: Commercial Office (CD-CO) (0.25 – 1.00 Floor Area Ratio) – Location: Southerly of 41st Avenue, easterly of Washington Street, and westerly of Sparkey Way – 4.17 Acres – Zoning: General Residential – 4,000 sq. ft. (R-3-4000) – REQUEST: Tentative Parcel Map proposes to subdivide four (4) acres into two (2) parcels (Schedule H) of approximately two (2) acres each containing an existing two-story medical office building (14,171 sq. ft. footprint, 28,489 sq. ft. rentable/leasable space) on proposed Parcel 1 up to approximately 38 feet in height, and, Plot Plan proposes a new two-story medical office building (14,171 sq. ft. footprint, 28,711 sq. ft. rentable/leasable space) up to approximately 38 feet in height on proposed Parcel 2, with overall site containing approximately 287 parking spaces (257 spaces, 30 vanpool credits), with drainage facilities and landscaping. (Quasi-Judicial)

TIME OF HEARING: 1:30 pm or as soon as possible thereafter
DATE OF HEARING: JULY 17, 2017
PLACE OF HEARING: PALM DESERT PERMIT CENTER
77-588 EL DUNA CT., SUITE H
PALM DESERT, CA 92211

For further information regarding this project, please contact Project Planner Jay Olivas at (760) 863-7050 or email at jolivas@rivco.org, or go to the County Planning Department’s Director’s Hearing agenda web page at http://planning.rclma.org/PublicHearings.aspx.

The Riverside County Planning Department has determined that the above project will not have a significant effect on the environment and has recommended adoption of a negative declaration. The Planning Director will consider the proposed project and the proposed negative declaration, at the public hearing. The case file for the proposed project and the proposed negative declaration may be viewed Monday through Friday, 8:30 a.m. to 5:00 p.m., at the County of Riverside Planning Department, 4080 Lemon Street, 12th Floor, Riverside, CA 92501. For further information or an appointment, contact the project planner.

Any person wishing to comment on a proposed project may do so, in writing, between the date of this notice and the public hearing or appear and be heard at the time and place noted above. All comments received prior to the public hearing will be submitted to the Planning Director, and the Planning Director will consider such comments, in addition to any oral testimony, before making a decision on the proposed project.

If you challenge this project in court, you may be limited to raising only those issues you or someone else raised at the public hearing, described in this notice, or in written correspondence delivered to the Planning Director at, or prior to, the public hearing. Be advised that, as a result of public hearings and comment, the Planning Director may amend, in whole or in part, the proposed project. Accordingly, the designations, development standards, design or improvements, or any properties or lands, within the boundaries of the proposed project, may be changed in a way other than specifically proposed.

North of Lat 39321 Badger Street.
Project Location

Tentative Parcel Map proposes to subdivide four (4) acres into two (2) parcels (Schedule H) of approximately two (2) acres each containing an existing two-story medical office building (14,171 square feet footprint, 26,489 s.f. rentable/leaseable) on Parcel 1 up to approximately 38 feet in height, and, Plot Plan proposes a new two-story medical office building (14,171 square feet footprint, 26,711 max. rentable/leaseable) up to approximately 38 feet in height on Parcel 2, with overall site containing approximately 287 parking spaces (257 spaces, 30 van/pool credits).
Project Description

This is to advise that the Riverside County Planning Director, as the lead agency, has approved the above-referenced project on July 17, 2017, and has made the following determinations regarding that project:

1.  The project WILL NOT have a significant effect on the environment.
2.  A Negative Declaration was prepared for the project pursuant to the provisions of the California Environmental Quality Act ($2,216.25+ $50.00) and reflects the independent judgment of the Lead Agency.
3.  Mitigation measures WERE NOT made a condition of the approval of the project.
4.  A Mitigation Monitoring and Reporting Plan/Program WAS NOT adopted.
5.  A statement of Overruling Considerations WAS NOT adopted for the project.
6.  Findings were made pursuant to the provisions of CEQA.

This is to certify that the Negative Declaration, with comments, responses, and record of project approval is available to the general public at: Riverside County Planning Department, 77588 El Duna Ct. Palm Desert, CA 92211.
