PROJECT DESCRIPTION AND LOCATION:

Plot Plan No. 26076 proposes to utilize and re-permit an existing abandoned unmanned wireless communication facility that is proposed to consist of the existing 62-foot-high tower disguised as a pine tree with twelve (12) antennas, twelve (12) Remote Radio Units, one (1) parabolic antenna, two (2) RAYCAP boxes, two (2) Global Position System antennas attached to an existing equipment room, and replace two (2) existing A/C unit with two (2) new A/C units within the existing abandoned 480 sq. ft. lease area.

The subject property is currently used as the Riverside County Lakeland Village Fire Station located at 17521 Grand Avenue Lake Elsinore, CA.

BACKGROUND:

This site was previously approved for a disguised wireless facility (monopine) under approved Plot Plan No. 20281 dated October 17, 2005. Permits were issued and final for the construction of the disguised wireless facility by permit numbers BNR050234, BXX062320, and BEL051384. As the wireless facility never had a co-location permit filed or an extension of time applied for prior to the 10 year expiration date, it has expired.

This project was heard at the Director’s Hearing dated February 6, 2017. The Indemnification Agreement was not completed by that date and was continued to February 27, 2017 to allow the applicant to complete the Indemnification Agreement. On February 27, 2017, the Indemnification Agreement still wasn’t completed and the project was continued to March 6, 2017. As of the time this report, the applicant is getting the required notarized signatures on the agreement to have it completed by the time of the hearing.

5. Existing Land Use: County of Riverside Fire Station (Lakeland Village)
6. Surrounding Land Use: Single Family Residences to the north and south; Vacant Land to the east and west
7. Project Data: Total Acreage: 1.15 acres
   Lease area: 480 sq. ft.
8. Environmental Concerns: Exempt from CEQA per Categorical Exemptions California Code of Regulations, title 14 ("State CEQA Guidelines"), Sections 15301 (Existing Facilities) and 15302 (Replacement or Reconstruction)

RECOMMENDATIONS:

FIND PLOT PLAN NO. 26076 EXEMPT from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15301 (Existing Facilities) and Section 15302 (Replacement or Reconstruction) based on the findings and conclusions provided in this staff report; and,

APPROVE PLOT PLAN NO. 26076, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

FINDINGS: The following findings are in addition to those incorporated in the summary of findings and in the attached environmental assessment, which is incorporated herein by reference.

1. The project site has the General Plan Land Use Designation of Community Development: Commercial Retail (CD: CR) (0.20 – 0.35 FAR) in the Elsinore Area Plan.

2. The proposed use, a disguised wireless communication facility, is consistent with Community Development: Commercial Retail (CD: CR) designation which allows for development of single family detached residences, agriculture uses, and small scale commercial uses, such as wireless communication facilities.

3. The project site is surrounded by properties with General Plan Land Use Designations of Community Development: Commercial Retail (CD: CR) (0.20 – 0.35 FAR) to the west and south, Community Development: Medium Density Residential (CD: MDR) (2 - 5 da/ac) to the east and north.

4. The zoning classification for the subject site is General Commercial (C-1/C-P). The proposed use, a disguised wireless communication facility, is a permitted use, subject to approval of a plot plan, in that zone.

5. The project site is surrounded by properties which have zoning classification of General Commercial (C-1/C-P) to the north, south, east and west.
6. The subject property consists of a County of Riverside Fire Station (Lakeland Village). No other uses occur on the project site.

7. This disguised wireless communication facility project has met the requirements for approval per Section 19.404C; has met the processing requirements per Section 19.409; and is consistent with the development standards set forth in Section 19.410 for Ordinance No. 348, Article XIXg (Wireless Communication Facilities) based on the following:

a. The existing disguised wireless communication facility was designed and is still designed to be minimally visually intrusive per the following: It is disguised as a pine tree, allowing it to blend in with the surrounding area; the supporting equipment and enclosure is architecturally compatible with the surrounding area; the existing use is located within a County of Riverside Fire Station property and screened from view. This application has met the application requirements, processing requirements, and requirements for approval, location, and development standards set forth in Article 19g and Section 18.30 of Ordinance No. 348.

b. All required documentation for processing pursuant to Ordinance No. 348 Section 19.409 have been submitted, including a fully executed lease agreement, which was received and processed with the County of Riverside’s Economic Development Agency, Real Estate Division, to re-establish the use of a disguised wireless communication facility.

c. The disguised wireless communication facility proposed is to re-establish a previously entitled wireless facility. Landscaping, parking, viewed and treatment of the site is the same as it was originally approved under expired Plot Plan No. 20281. Since this entitlement was not extended by the previous tenant, this proposed plot plan was needed to re-establish the use.

d. The disguised wireless communication facility is located on a parcel zoned C-1/C-P. The project’s zone classification is classified as non-residential. A disguised wireless communication facility in a non-residential zone classification must not exceed 70 feet in height. The proposed disguised monopine is 62 feet in height, not exceeding the maximum height for a non-residential zone classification.

e. Because the project is re-permitting an existing, developed site, there will be no disturbance to the natural landscape, and therefore disturbance to the natural landscape is not only minimized, but fully avoided.

f. The disguised wireless communication facility has existing walls from the fire station or previous wireless facility entitlement. No new walls or fencing is proposed for the re-permitting of the wireless facility.

g. The re-permitting of this disguised wireless communication facility will not impact the surrounding community or disturb any biological resources than what was previously permitted by Plot Plan No. 20281. Nothing currently has changed or will change at the site location.

h. The disguised wireless communication facility is setback approximately 95 feet from any habitable dwelling. The disguised wireless communication facility needs to be setback a distance equal to 125% of the height of the facility. With the height of the facility being 62 feet; the distance would need to be equal to 77.5 feet from a habitable dwelling. The nearest habitable dwelling is 95 feet away, and therefore the monopine exceeds the required setback distance.
i. The project site has two (2) existing light posts for the Fire Station. No additional outside lighting is proposed for this project.

j. The disguised wireless communication facility will use the existing paved access of the Fire Station and parking lot for the minimal use of maintenance of the facility as needed.

k. The disguised wireless communication facility will use the previously approved areas for power and communication lines that was approved under Plot Plan No. 20281. Only changes will be for the updated equipment at those locations per approved Plot Plan No. 26076.

l. The disguised wireless communication facility is not roof mounted. All facilities and equipment will be installed in the same area and location as under the previous entitlement. This site is not a roof mounted facility project.

m. There is an existing equipment room that was previously used for the previous entitled wireless facility. Said equipment room again is being used for this re-establishment of a wireless facility. Total lease area including the monopole is 480 sq. ft.

n. The disguised wireless communication facility will be supported by two (2) new A/C units and equipment cabinets inside the existing equipment room on site. The equipment room is painted to match the existing storage building and consistent with the Fire Station itself and the surroundings of the area.

o. A standard condition of approval has been added to ensure that all noise produced by the disguised wireless communication facility will not exceed 60 decibels at the property line or 45 decibels inside the nearest dwelling, which is approximately 95 feet away.

8. This project is located within Lake Elsinore’s Sphere of Influence. The City of Lake Elsinore was previously noticed under the original entitlement (per Plot Plan No. 20281) and no comments were received by the City at that time. Under Ordinance No. 348 Section 19.409.D, when a proposed wireless communication facility would be located within the sphere of influence of any city within the County and/or within one mile of city limits, Planning staff must transmit the application to the affected city for review and comment if a public hearing is required by Ordinance No. 348 Article 19g. For residential zoning classifications, no public hearing is required unless a property owner requests a public hearing. Because this project is in a residential zoning classification and no property owner has requested a hearing, there was no requirement to transmit this application to the City of Lake Elsinore, and, consistent with these provisions and given that this is the re-establishment of a prior use with no physical changes except the replacement of equipment in an area that is screened from view, no application was transmitted.

9. The proposed disguised wireless communication facility is within a Flood Plain. However, no additional construction to the proposed site, other than new antennas, replacement of A/C units, and equipment added or replaced in the existing enclosed equipment room, no further review was determined by Flood or Planning for this project.

10. The proposed disguised wireless facility is located within a Very High Fire Area. Most of the surrounding area and parcel(s) are developed with residences; and the project site is currently used as Lakeland Village Fire Station. The facility is at the rear of the fire station property.
11. The proposed project has been determined to be categorically exempt from CEQA, as set forth per Section 15301 (Existing Facilities) of the CEQA Guidelines. Section 15301 exempts the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing structures, facilities, mechanical equipment, or topographical features involving negligible or no expansion of use beyond that existing at the time of the lead agency’s determination. Examples of this exemption include but are not limited to (a) interior or exterior alterations involving such things as electrical conveyances, (b) existing facilities of both investor or publicly owned utilities used to provide electrical power, natural gas, sewerage, or other public utility services and (c) restoration or rehabilitation of deteriorated or damaged structures, facilities, or mechanical equipment to meet current standards of public health and safety. The proposed project is exempt under Section 15301 because it is restoring the previous use of a disguised wireless facility as a monopine, without increasing the previous lease area and with no expansion of use beyond that existing previously. This will re-establish wireless communication utility services for the residents in the surrounding neighborhood(s).

12. The proposed project has also been determined to be categorically exempt from CEQA, as set forth per Section 15302 (Replacement or Reconstruction) of the CEQA Guidelines. Section 15302 exempts the replacement or reconstruction of existing structures and facilities and will have the substantially the same purpose and capacity as the structures replaced. Examples of this exemption include but are not limited to (c) replacement or reconstruction of existing utility systems or facilities involving negligible or no expansion of capacity. The proposed project is exempt under Section 15302 because it is replacing the previous utility system or facility with minor amounts of replaced equipment and is a new utility or facility of the same use by a new provider and without expansion of the capacity. This will re-establish utility services for the residents in the surrounding neighborhood(s).

13. Because all aspects of the project are exempt under Sections 15301 and 15302, the project is exempt from CEQA and no further environmental review is required. In addition, there are no successive projects of the same type in the same place expected over time, there are no unusual circumstances such as scenic resources, historic buildings, trees, or rock outcroppings that will be affected by the project, and it is not on a hazardous waste site. Accordingly, no exception to the Section 15301 or 15302 exemptions applies.

CONCLUSIONS:

1. The proposed project is in conformance with the Community Development: Commercial Retail (CD: CR) Land Use Designation, and with all other elements of the Riverside County General Plan.

2. The proposed project is consistent with the General Commercial (C-1/C-P) zoning classification of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.

3. The public’s health, safety, and general welfare are protected through project design.

4. The proposed project is compatible with the present and future logical development of the area.

5. The proposed project is exempt from CEQA and will not have a significant effect on the environment.
6. The proposed project will not preclude reserve design for the Western Riverside County Multiple Species Habitat Conservation Plan (WRCMSHCP).

BACKGROUND:
Summary

In 2006 the County of Riverside (County) entered into a ground lease with Nextel of California, Inc., (Sprint/Nextel) for the purpose of building, operating, and maintaining a communication facility on County owned property located at 33020 Maiden Lane, in the unincorporated area of Lakeland Village and identified as Assessor’s Parcel Number: 381-252-005 (Premises), commonly known to the County as Fire Station #11 (Prior Lease). The Prior Lease was for initial term of five years, with one option to extend the term by five further years. In 2009, TowerCo Acquisitions LLC (TowerCo) became the successor in interest to Sprint/Nextel through an Assignment and Assumption of Ground. Sprint/Nextel retained space at the facility, as the primary sublessee.

On January 24, 2012, the County entered into a new communication site Lease (Existing Lease) with TowerCo Assets LLC who subsequently sold their interest, to SBA STEEL LLC, doing business as SBA Wireless (SBA). The Lease Agreement gave SBA the authorization to operate, and maintain an existing communication facility on the Premises. Since entering into the Existing Lease Sprint/Nextel has vacated the facility, leaving SBA without a tenant.

In a recent inquiry, SBA requested to extend the term of the existing Lease Agreement from the conclusion of the current expiration date of December 31, 2021, in order to accommodate Verizon, the newly proposed primary sublessee. The amended term shall commence on January 1, 2022 and expire on December 31, 2032. Additionally, SBA will be awarded three consecutive five year terms. Under the current contract SBA shares 40% of their non-primary sublease revenue with the County. The Economic Development Agency, Real Estate Division sees a potential for colocation at this facility, and the term extension on the lease makes the site more attractive to other carriers. As outlined above, the potential for colocation at the facility can transpire into a higher revenue share for the County.

The First Amendment to the Lease Agreement has been reviewed and determined to be categorically exempt from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15061(b)(3) and Section 15301 Class 1, Existing Facility, as it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment. The County’s approval of the activity does not create any reasonably foreseeable physical change to the environment for this transaction.

NOTICE OF EXEMPTION

June 27, 2016

Project Name: County of Riverside, Economic Development Agency (EDA) First Amendment to Communication Site Lease, SBA-Fire Station #11, Lake Elsinore

Project Number: PM0473431002200

Project Location: 33020 Maiden Lane, Lake Elsinore, California 92530; Assessor’s Parcel Number (APN) 381-252-005 (See Attached Exhibits)

Description of Project: The County of Riverside (County) has an existing ground lease with SBA STEEL LLC, doing business as SBA Wireless (SBA) as the successor in interest to Sprint. The Lease Agreement entitles SBA to operate, and maintain an existing communication facility on that certain real property located at 33020 Maiden Lane, Lake Elsinore, California and identified as Assessor’s Parcel Number: 381-252-005, commonly known to the County as Fire Station #11. SBA has requested to modify the existing Lease Agreement, for the purpose of extending the term from the conclusion of the current expiration date of December 31, 2021. The amended term shall commence on January 1, 2022 and expire on December 31, 2032. Additionally SBA will be awarded three consecutive five year terms. The term extension on the lease is anticipated to make the site more attractive to other carriers, resulting in a colocation of the facility and increased revenue. The First Amendment to the Lease is identified as the Project under the California Environmental Quality Act (CEQA). The use of the site under the First Amendment to the Lease would occur in the same manner as with the existing use. The operation of the facility will continue to provide communications services and will not result in a change or an expansion of existing use. No additional direct or indirect physical environmental impacts are anticipated.

Name of Public Agency Approving Project: County of Riverside, Economic Development Agency

Name of Person or Agency Carrying Out Project: County of Riverside, Economic Development Agency, and SBA STEEL LLC, a Florida limited liability company, doing business as SBA Wireless

Exempt Status: State CEQA Guidelines, Section 15301, Class 1, Existing Facilities Exemption; Section 15061(b) (3), General Rule or “Common Sense” Exemption, Codified under Title 14, Articles 5 and 19, Sections 15061 and 15300 to 15301.

Reasons Why Project is Exempt: The proposed Project is categorically exempt from the provisions of CEQA specifically by the State CEQA Guidelines as identified below. The Project will not result in any specific or general exceptions to the use of the categorical exemption as detailed under State CEQA Guidelines Section 15300.2. The Project will not cause an impact to an environmental resource of hazardous or critical concern nor would the Project include a reasonable possibility of having a significant effect on the environment due to unusual circumstances. The Project would not result in impacts to scenic highways, hazardous waste sites, historic resources, or other sensitive natural environments, or have a cumulative effect to the environment. No significant environmental impacts are anticipated to occur with the Lease which includes the operation of communication services.

SEP 13 2016 3-20

www.rivcoeda.org
* Section 15301 - Class 1 Existing Facilities Exemption: This categorical exemption includes the operation, repair, maintenance, leasing, or minor alteration of existing public or private structures or facilities, provided the exemption only involves negligible or no expansion of the previous site's use. The Project, as proposed, is limited to the lease that includes operation of communication services. The use of the site would continue in the same manner as under the current lease and would not require any expansion of services or facilities; therefore, the Project is exempt as the Project meets the scope and intent of the Class 1 Exemption identified in Section 15301, Article 19, Categorical Exemptions of the CEQA Guidelines.

* Section 15061 (b) (3) - "Common Sense" Exemption: In accordance with CEQA, the use of the Common Sense Exemption is based on the “general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment.” State CEQA Guidelines, Section 15061(b) (3). The use of this exemption is appropriate if “it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.” Ibid. This determination is an issue of fact and if sufficient evidence exists in the record that the activity cannot have a significant effect on the environment, then the exemption applies and no further evaluation under CEQA is required. See No Oil, Inc. v. City of Los Angeles (1974) 13 Cal. 3d 68. The ruling in this case stated that if a project falls within a category exempt by administrative regulation or 'it can be seen with certainty that the activity in question will not have a significant effect on the environment', no further agency evaluation is required. With certainty, there is no possibility that the Project may have a significant effect on the environment. The proposed amendment to the Lease Agreement is limited to a time extension and will not result in any direct or indirect physical environmental impacts. The use and operation of the facility will be substantially similar to the existing use and will not create any new environmental impacts to the surrounding area. No alterations and no impacts beyond the ongoing, existing use of the site would occur. Therefore, in no way, would the Project as proposed have the potential to cause a significant environmental impact and the Project is exempt from further CEQA analysis.

Based upon the identified exemptions above, the County of Riverside, Economic Development Agency hereby concludes that no physical environmental impacts are anticipated to occur and the Project as proposed is exempt under CEQA. No further environmental analysis is warranted.
