The property encompasses approximately 95.2 acres within eastern Riverside County and is located northeast of the City of Indio, approximately seven (7) miles north of I-10. The proposed revision is requesting to add approximately 6.6 acres that were scraped for mining outside the 1995 approved mine limits but within their property boundary in the south-central portion for a revised total mine site of approximately 64.6 acres; extend the length of time for the mining permit for an additional 25 years until December 31, 2044, to allow future utilization of the construction aggregate resources (sand and gravel) for local construction projects; and eliminate the future use of an approved asphalt plant from long-term plans. Approximately 41 acres of the planned 64.6-acre site are currently disturbed by past mining activities. No changes to production rates are requested. Planned production will remain at an average of 100,000 tons per year (tpy) and occasionally a maximum of 200,000 (tpy) as previously approved. Skanska also submitted an Interim Management Plan (IMP) as the mine site had been operated only on an intermittent basis and had no reported production for a one (1) year period. The mine is anticipated to remain in an idle state for the near future. Project Planner: Dionne Harris at (951) 955-6836 or email at dharris@rivco.org.
