B. INDIVIDUAL PLANNING AREAS

Development standards have been established at the individual Planning Area level. Criteria considered for this process is the uniformity of use as it relates to zoning and its relationship to adjoining products and surrounding topography. This section shall present a summary of land use and planning standards specified in Section III, utilizing plan view graphics and brief descriptions for each planning area.

The graphics for this section are derived from the Conceptual Landscape Plan. The figures convey the level of commitment to open space and streetscape, which create a framework for the development of the land use areas. While target uses have been suggested, the market shall determine the exact use and product type within the commercial designation, but it should be noted the commercial uses permitted within this document shall be consistent with the framework that has been established.

1. PLANNING AREA 1

<table>
<thead>
<tr>
<th>High Density Residential</th>
<th>8.0 Acres</th>
</tr>
</thead>
<tbody>
<tr>
<td>128 Units Maximum</td>
<td>16 DU/Acre</td>
</tr>
</tbody>
</table>

Development Standards:

- Refer to the Zoning Ordinance, Section III for permitted uses and development standards.
- A vegetation survey, impact and mitigation plan shall be completed during the tentative tract map planning phase.
- Extended roadway landscaping in addition to the dedicated ROW for Morton Road shall be provided to create a visual buffer in accordance with the Moreno Valley Community Policy Area Policies.
- Buffer landscaping shall be established between the residential use in Planning Area 1 and commercial use in Planning Area 2.
- Landscape screening shall be provided between Planning Area 1 and adjacent parcels when grading or site design does not provide a separation greater than ten feet.
- Landscaping for the collector street edge shall be provided for as depicted in the Design Guidelines (Collector Highway Edge Landscaping).
- Vehicle access shall be provided off Morton and Woodworth Road.

2. PLANNING AREA 2

| Commercial | 3.9 Acres |

Development Standards:

- Refer to Zoning Ordinance, Section III for permitted uses and development standards.
- Entry signage and Project entry treatment shall be constructed at the intersection of Santa Maria Road and the railroad crossing (Santa Maria Road Project Entry Exhibit).
- A vegetation survey, impact and mitigation plan shall be completed during the tentative tract map planning phase.
PLANNING AREA 1

LAND USE: High Residential
ACREAGE: 8.0 Acres
UNITS: 128
DENSITY: 16

TARGET USE: High Residential

WOODSWORTH ROAD PROJECT ENTRY

EXTENDED ROADWAY LANDSCAPING

RESIDENTIAL TO OPEN SPACE BUFFER

COLLECTOR HIGHWAY EDGE LANDSCAPING

RESIDENTIAL TO COMMERCIAL BUFFER
