8. **PLANNING AREA 8A & B** — Medium-High Density / Single Family Residential and Open Space

a. **Descriptive Summary**

1) **Planning Area 8A**

Planning Area 8A consists of a neighborhood of single family detached and duplexes northwest of Del Webb Boulevard and east of Washington Street. Perimeter wall, landscape buffer/windscreen and greenbelt areas along Washington Street will help mitigate noise impacts for lots adjacent to Washington Street.

No attempt will be made to keep all the large lots within a single block or neighborhood, so that each of the single family neighborhoods will contain a mix of housing lot sizes and types, intermingled as the market and conditions require. Four sizes of single family lots are initially envisioned: 7000 s.f. ("A" lots), 6000 s.f. ("SF-60" lots), 5000 s.f. ("SF-50" lots), and 4000-4500 s.f. ("SF-45" lots). The smaller lots will allow zero lot line configurations and cluster design concepts. (Note: these lot designations are Del Webb's and pertain to this project only, and do not correspond to any Riverside County standards.)

2) **Planning Area 8B**

Planning Area 8B is planned as a 4.1 acre Open Space and Government Facilities areas which may include an informational kiosk about the Coachella Valley Fringe-Toed Lizard (CVFTL) preserve. The site may also be used for well sites with landscaping.

The generated traffic volume by the proposed development on Washington Street will require a realignment of the existing radius curve north of the main project entry. That portion of Washington Street which curves north of the main project entry will be realigned in order to accommodate a reversing curve having a radii of 1250 feet as required by the Riverside County Transportation Department.
