IV. Specific Plan

B. PLANNING AREA DEVELOPMENT STANDARDS

Development standards and zoning regulations for THE RETREAT have been established at three levels: Development Plans and Standards which were addressed in Section IV.A.; Design Guidelines, which are provided in Section IV.C.; and Planning Area Development Standards, to which this section is devoted.

Planning Areas were formed on the basis of logical, separate units of development. Criteria considered in this process included the following: uniformity of use as it pertains to zoning, relationship to adjoining product, and relationship to surrounding topography.

The Planning Area graphics for this section (Figures 4B-1 through 4B-7) were derived from Figure 4A-1, Specific Plan Land Use Plan and Figure 4A-2, Specific Plan Land Use Plan (Illustrated). The site plans depicted herein are only conceptual in nature. Although development may conform closely to some elements of the illustrative plans provided in Section IV.C., Design Guidelines, it is anticipated that actual lotting and layouts will not be determined until the tract map or use permit stage.

A Specific Plan Zoning Ordinance was prepared and is contained in Section III of this Specific Plan document. The zoning provisions within that ordinance establish use restrictions for each Planning Area. The zoning provisions should be used in conjunction with the planning standards for each respective Planning Area. A summary of the land use densities and lot sizes is shown on the table below:

13. **Planning Area 13: Open Space**

a. **DESCRIPTIVE SUMMARY**

Planning Area 13, as shown on Figure 4B-7, provides for 557.5 acres of natural and landscaped open space. The open space predominately surrounds the low and medium density residential dwelling units and the golf course facility. A Secondary Recreational Trail will traverse the open space along the northern project boundary providing linkage to the County Regional Trails System and the Cleveland National Forest. On-site, the trail will run along the west side of Retreat Parkway through Planning Areas 2, 12 and 13 until it reaches the historic alignment of Bedford Canyon Motorway (opposite Planning Area 3). At this point, it will then traverse the golf course along the northern project boundary before rejoining the existing off-site alignment.

A second local trail is proposed to connect to the northern trail westerly of Planning Area 3. This trail will run along the west side of Retreat Parkway through portions of the golf course in Planning Area 12, through residential Planning Areas 2, 7, and 8 and through the park in Planning Area 10. A trail head is envisioned within Planning Area 13 adjacent to Forest Boundary Road in the southeastern section of the Specific Plan.
