Ordinance No. 348. 3928

Effective 04-14-00

**ARTICLE XIVb  
C/V ZONE (CITRUS/VINEYARD)**

**SECTION 14.71 INTENT.** The Board of Supervisors finds that there is a need in the County of Riverside for a zone classification designed to encourage the continuation and development of the cultivation of vineyards and citrus groves, including wineries and citrus processing operations.

The development standards of this zone are intended to ensure that vineyards and citrus operations, as well as the ambience of lands within the designated "Citrus/Vineyard and Rural Policy Area" of the Southwest Area Community Plan (SWAP) are preserved and protected. It is intended that limited incidental commercial uses, such as wine sales, sampling rooms, restaurants, delicatessens, bed and breakfast inns, and hotels shall be permitted only when they are secondary to the agricultural operations as defined in Section 14.72. These incidental commercial uses are to have a direct correlation to the vineyards, wineries and citrus farming and processing operations within the Citrus/Vineyard/Rural Policy Area. The intent of the limited incidental commercial uses is to provide economic viability to the primary vineyards and citrus operations.

Amended Effective:

06-18-99 (Ord. 348.3877)

Furthermore, in conjunction with development, the use of rural road standards as outlined in County Ordinance No. 460 (Regulating the Division of Land) shall be implemented so as to reinforce the rural intent of this zone.

Amended Effective:

06-18-99 (Ord. 348.3877)

**ARTICLE XVIIa**  
**SP ZONE (SPECIFIC PLAN)**

SECTION 17.25. INTENT. The Board of Supervisors hereby finds that it is in the best interest of the County to encourage specific plans of land use for the development of large property holdings, which are otherwise eligible for development under the Riverside County General Plan. The Board further finds that land use allocations assigned to property under a specific plan are based on a variety of environmental and planning factors that may provide for balanced development but may not conform entirely to the zoning classifications contained in this ordinance. It is the intent of the Board in adopting this article to provide a zoning classification tailored to specific plans of land use, and require implementing development to comply with the development standards contained in the adopted specific plan text.

SECTION 17.26. APPLICATION OF ZONE. The Specific Plan Zone shall be applied only to property for which a specific plan of land use has been adopted; provided, however, that the Specific Plan Zone may be adopted concurrently with a specific plan. The zone shall be applied only upon a finding that the specific plan of land use contains definitive development standards and requirements relating to land use, density, lot size and shape, siting of buildings, setbacks, circulation, drainage, landscaping, architecture, water, sewer, public facilities, grading, maintenance, open space, parking, and other elements deemed necessary for the proper development of the property.

SECTION 17.27. USES PERMITTED.

- a. The following uses may be permitted in the SP Zone, subject to the zoning requirements contained in the adopted specific plan and the procedural requirements of Subsection b. below:
  - (1) Residential uses including single-family and multi-family dwellings.
  - (2) Commercial and office uses.
  - (3) Manufacturing uses and industrial parks.
  - (4) Open space, recreation areas, and parks.
  - (5) Public facilities, including but not limited to, schools, libraries, government buildings, and water and sewer facilities.
  - (6) Health and community service facilities.
  - (7) Other uses adopted within the specific plan.
  - (8) Dry farming and field crops as interim uses.
  - (9) Uses incidental to the above.
- b. Any use permitted within a specific plan shall be subject to the permit requirements specified in the plan. Whenever the specific plan does not specify a procedure or lacks specificity with respect to the requirements for approval of any use, the use shall be subject to the most restrictive permit procedures contained in any zoning classification in which the use is listed.

SECTION 17.28. DEVELOPMENT STANDARDS. Uses shall conform to the development standards, conditions and any special restrictions contained in the adopted specific plan and any amendments thereto; provided, however, that if the specific plan lacks one or more standards, the applicable standards from the zoning classification

which most closely fits the land use assigned to the site shall be utilized.

  - (7) The Planning Director may require that additional notice of the hearing be given in any other manner he deems necessary or desirable.
- d. ADMINISTRATION OF OATHS. The Chairman may require that witnesses be sworn.
- e. HEARING AND NOTICE OF DECISION. The hearing body shall hear relevant testimony from interested persons and make its decision within a reasonable time after the close of the public hearing. Notice of the decision shall be filed by the Planning Director with the Clerk of the Board of Supervisors, together with a report of the proceedings, not more than 15 days after the decision. A copy of the notice of decision shall be mailed to the applicant and to any person who has made a written request for a copy of the decision. If the hearing body is unable to make a decision, that fact shall be filed with the Clerk of the Board in the same manner for reporting decisions and shall be considered as a notice of denial of the application by the hearing body. The Board shall hear relevant testimony from interested persons and within a reasonable time after the close of the hearing, make its decision sustaining, reversing or modifying the decision of the hearing body.
- h. **TRANSCRIPTS.**
- (1) Whenever any person desires to obtain a transcript of the oral proceedings of a public hearing before the Board of Supervisors, Planning Commission or the East Area Planning Council, or desires to have a record made of such proceedings, he shall, not less than seven days before the hearing, notify in writing the Clerk of the Board, if the hearing is before the Board, or the Secretary of the Planning Commission if the hearing is before the Planning Commission or the East Area Planning Council. The written request shall be accompanied by a deposit of a sum equal to one day's fee for a Court Reporter. The Clerk or Secretary shall thereupon arrange to have a Court Reporter present at the hearing. If the hearing is thereafter continued to another day, a like request, deposit and arrangement for a Court Reporter shall be made, if the record is desired. Such a person may directly arrange for attendance and payment of a Court Reporter instead of making such arrangements through the Clerk or Secretary by the person desiring the same.
  - (2) Whenever any person desires to obtain a Clerk's transcript of the documents involved in a proceeding before the Board of Supervisors, the Planning Commission or East Area Planning Council, he shall make a written request to the Clerk of the Board, if the matter is before the Board of Supervisors or to the Secretary of the Planning Commission, if the matter is before the Planning Commission or the East Area Planning Council. e.

**ALTERNATIVE PROGRAMS FOR PARKING.**

- (1) A residential, commercial or industrial project may provide for alternative programs which reduce parking demand in return for a reduction in the number of off-street parking spaces required.
- (2) Alternative programs that may be considered by the Planning Director under this provision include, but are not limited to, the following:
  - a) Private Car Pool/Van Pool Operations. Office or industrial developments which guarantee preferred parking spaces to employees who participate regularly in a car or van pool may have their parking requirement reduced by two parking spaces for every one space which is marked for car or van pool at a preferred location.
  - b) Mass Transit. Developments which are located within 150 feet of a mass transit facility may have their parking requirement reduced by two percent of the total number of required parking spaces.
  - c) Planned Residential Development - Senior Citizen. A 20 percent reduction in the total number of required parking spaces may be allowed when an alternative senior citizen transportation program is proposed.
  - d) Bicycle Parking. Developments which provide secured bicycle parking facilities exceeding the minimum requirement may reduce the number of required parking spaces by one vehicle space for every three additional bicycle spaces provided.
  - e) Shared Parking Requirements. The Planning Director may, upon application by the owner or lessee of any property, authorize shared use of parking facilities under the following conditions:
    1. Sufficient evidence shall be presented to the Planning Director to demonstrate that no substantial conflict in the principal hours or periods of peak demand will exist between the uses or structures which propose to share parking.
    2. The building or use for which an application for shared parking is being made shall be located within 150 feet of the parking area to be shared.
    3. No more than 50 percent of the parking space requirement shall be met through shared parking.
    4. Parties sharing off-street parking facilities shall provide evidence of a reciprocal parking agreement for such joint use by a proper legal instrument recorded in the office of the County Recorder with the number of copies as required and thereof filed with the County Building and Safety Department.

(Ord. 348.3804)

- ii) For projects within the "Rubidoux Village Policy Area" of the Jurupa Community Plan which are zoned R-VC (Rubidoux-Village Commercial), the Planning Director may, upon application by the owner or the lessee of any property, having 50 feet or more of street frontage or 7,500 square footage in building area, authorize shared use of parking facilities under the following conditions:
  - 1. Individual lots of less than 50 feet in width or 7500 square feet in area are exempt from the on-site parking requirement.
  - 2. Individual lots with areas between 7,500 and 15,000 square feet may use street and public parking to meet no more than 75 percent of the parking requirement.
  - 3. Individual lots in excess of 15,000 square feet may use street and public area parking to meet no more than 50 percent of the parking requirement.
  - 4. When street parking is used to meet the parking requirement, all regular and handicap stalls on the street within 600 feet of the boundaries of the project may be counted. This provision applies to parking along Mission Boulevard as well as the local streets that serve Mission Boulevard.
  - 5. Parking within public parking lots created as a function of the Jurupa Valley Redevelopment Plan (JVRP) already in existence may also be counted toward the shared parking allowance if located within 600 feet of the boundaries of the parcel in question.
  - 6. An exemption from the off-street parking requirements is granted for all existing uses and structures undergoing remodeling or improvements that do not propose to alter the existing permitted uses, expand the area devoted to such uses or alter the existing parking arrangement.
  - 7. Parking area improvement standards: In situations where off-street parking is required, the design of the parking area must respond to the following criteria:
    - (a) Access to parking areas over public or private sidewalks must be indicated by a change in paving texture.
    - (b) A landscape buffer of a minimum five feet in width must separate the parking area from a public right-of-way or the building setback line.

Added Effective:

(Ord. 348.3804)

f. **Special Review of Parking.** The Planning Director may reduce the parking requirement otherwise prescribed for any use or combination of uses as part of the review of a development plan including, but not limited to, a plot plan, a conditional use permit, a public use permit, a surface mining permit, a planned residential development or a specific plan, based on the following conditions:

- (1) The applicant shall submit a request for modification of parking standards, including sufficient evidence and documentation, to demonstrate to the Planning Director that unusual conditions warrant a parking reduction. Evidence shall include, but is not limited to, the following:
  - a) Information showing that the parking area serves uses having peak parking demands which occur at different times.
  - b) Floor plans which indicate that the floor area devoted to customer or employee use is less than typical for the size building proposed.
  - c) Documentation that other programs which will be implemented by the developer or tenant(s) will result in a reduced parking demand, such as the provision of monetary incentives to employees who regularly utilize public transit or participate in a car or van pool.
- (2) As a condition of approval of the parking reduction, the applicant may be required to record agreements or covenants prior to issuance of a building permit, which assure that appropriate programs are implemented for the duration of the parking reduction.

g. **Development Standards For off-Street Parking Facilities.**

- a. **LAYOUT DESIGN STANDARDS.** All parking areas shall be designed as follows:
  1. Location of Parking Areas. No parking space shall be located within three feet of any property line. No parking space located on driveways providing direct access to a street shall be located closer than ~~30~~<sup>35</sup> feet from the property line at the right-of-way.
  2. Parking Space and Driveway Specifications. The location and dimensions of parking spaces and aisles adjacent to parking spaces shall be arranged in accordance with the following exhibit entitled Riverside County Minimum Parking Standards, and the following tables entitled "Dimensions of Parking Spaces and Aisles" and "Dimensions of Driveways."

● Up to 20 percent of the total required parking may be sized for compact cars. Compact car parking spaces shall be clearly marked "COMPACT CARS ONLY." Compact car parking spaces may be reduced (from the dimensions listed in the table) in width by no more than one-half foot, and in length by no more than two feet. When an entire section of the parking area is restricted to compact car parking, and the parking spaces are at a 90 degree angle to the aisle, the aisle width may be reduced to 23 feet. Compact car parking sections shall be located so as to minimize the distance between them and the uses to be served.

- 6) Curbs, Bumpers, Wheel Stops or Similar Devices. Public parking areas shall be equipped with permanent curbs, bumpers, wheel stops or similar devices so that parked vehicles do not overhang required walkways, planters or landscaped areas.
- a) If the method used is designed to stop the wheel rather than the bumper of the vehicle, the stopping edge shall be placed no closer than two feet from the edge of any required walkway, planter or landscaped area, or from any building.
  - b) The innermost two feet of each parking space, between the wheel stop or other barrier, and any required planter or walkway, may either:
    - (1) be paved; or,
    - (2) be planted with low ground cover.

This additional planting area is considered part of the parking space and may not be counted toward satisfying any landscaping requirement(s).
- 7) Lighting.
- a) Parking area lighting is not required. However, if parking areas are lighted, such lighting facilities shall be located to prevent lights from shining directly onto adjoining properties or streets.
  - b) Parking area lighting shall be of an energy-efficient type. However, when such lighting is located within 30 miles of the Mt. Palomar Observatory, low-pressure sodium lamps shall be used. These shall be oriented and shielded to prevent direct illumination above the horizontal plane passing through the luminaire.
- 8) Walls. All paved parking areas, other than those required for single family residential uses, which adjoin property zoned R-1, R-1A, R-2, R-2A, R-3, R-3A, R-4, R-5, R-6, R-A, R-R or R-T, shall have a six-foot high solid masonry wall provided with an anti-graffiti coating installed to preclude a view of the parking area from such adjoining property. However, any walls within ten feet of any street or alley shall be 30 inches high.

b. **LOADING SPACE REQUIREMENTS.**

- (1) On each lot used for manufacturing, storage, warehousing, goods display, a department store, a wholesale store, a market, a hotel, a hospital, a laundry, dry cleaning or other uses which involve the receipt or distribution by vehicles of materials or merchandise, there shall be provided and maintained adequate loading space for delivery vehicle stacking, and for loading activities. The loading space and delivery vehicle stacking area shall be located and designed so as to avoid undue interference with the public use of streets and alleys.
- (2) Each required loading space shall be paved with six inches of concrete over a suitable base and shall not be less than ten feet wide, 35 feet long and 14 feet high.
- (3) The minimum number of loading spaces indicated in the following table shall be provided:

- NOTES:
- A higher percentage of accessible parking spaces is required for medical care outpatient facilities as follows:
  - Ten percent of the total number of parking spaces provided for outpatient facilities.
  - Twenty percent of total numbers of parking spaces provided for facilities that specialize in treatment or services for persons with mobility impairments.
- (2) Accessible parking spaces shall be located so as to provide for safety and optimum proximity to curb ramps or other pedestrian ways thereby, providing the most direct access to the primary entrance of the building served by the parking lot.
- (3) For a single accessible space, the space shall be 14 feet wide and outlined to provide a nine foot wide parking space and a five foot wide loading/unloading area.
- (4) For multiple accessible spaces, two spaces shall be provided within a 23 foot wide area outlined to provide a five foot wide loading/unloading area between the nine

foot wide parking spaces.

- (5) Each loading/unloading area for a van accessible space shall be eight feet wide with a minimum length of 18 feet.
- (6) A minimum of one in every eight accessible parking spaces shall be served by an access aisle with a minimum width of eight feet.
  - a) The parking space shall be designated van accessible.
  - b) All such van accessible parking spaces may be grouped on one level of a parking structure.
- (7) In each parking space, a wheel stop or curb shall be provided and located to prevent encroachment of cars over the walkways.
- (8) The parking spaces shall be located so that persons with disabilities are not compelled to wheel or walk behind parked cars other than their own.
- (9) Pedestrian ways which are accessible for persons with disabilities shall be provided from each such parking space to the related facilities and shall include curb cuts or ramps as needed.
  - a) Ramps shall not encroach into any parking space. However, ramps located at the front of accessible parking spaces may encroach into the length of such spaces when the encroachment does not limit the ability of persons with disabilities to leave or enter their vehicles, and when it is determined that compliance with any regulation of this subsection would create an unreasonable hardship.
  - b) Parking spaces may be provided which would require persons with disabilities to wheel or walk behind parking spaces that are not designed for accessibility when it is determined that compliance with the accessible parking regulations would create an unreasonable hardship.
- (10) Surface slopes for accessible parking spaces shall be the minimum possible, and shall not exceed one-fourth inch per foot (2.083 percent gradient) in any direction.
- (11) Each accessible parking space shall be identified by a permanently affixed reflectorized sign displaying the international symbol of accessibility.

  - b) The sign shall not be smaller than 70 square inches in area and shall be centered at the interior end of the parking space at a minimum height of 80 inches from the bottom of the sign to the parking space finished grade; or,
  - c) The sign may be centered on the wall of the interior end of the accessible parking space at a minimum height of three feet from the parking space finished grade or walkway.
- (12) An additional sign shall be posted in a conspicuous place, at each entrance to the off-street parking facilities. The sign shall not be less than 17 inches by 22 inches in size with lettering not less than one inch in height, which clearly and conspicuously states the following:

"Unauthorized vehicles parked in designated accessible spaces not displaying distinguishing placards or license plates issued for persons with disabilities may be towed away at owner's

expense. Towed vehicles may be reclaimed at \_\_\_\_\_ or by telephoning \_\_\_\_\_."

- (13) The surface of each accessible parking space shall have a surface identification duplicating the symbol of accessibility in blue paint of at least three square feet in size.
- (14) For additional accessible parking and site development standards, reference the California Code of Regulations, Title 24.

d. BICYCLE PARKING FACILITIES.

- (1) Bicycle Parking Facility Classifications. Bicycle parking facilities shall be classified as follows:
  - a) Class I, an enclosed box with a locking door, typically called a bicycle locker, where a single bicyclist has access to a bicycle storage compartment.
  - b) Class II, a stationary bicycle rack designed to secure the frame and both wheels of the bicycle, where the bicyclist supplies only a padlock.
  - c) Class III, a stationary bicycle rack, typically a cement slab or vertical metal bar, where the bicyclist supplies a padlock and chain or cable to secure the bicycle to the stationary object.
- (2) Bicycle Parking Requirements.
  - a) Minimum Bicycle Parking Facilities. The minimum bicycle parking shall be provided as follows:

## BICYCLE SPACES FOR BICYCLE PARKING FACILITY CLASS

	INDUSTRIAL	RESTAURANTS, AND COCKTAIL LOUNGES	COMMERCIAL, OFFICE, AND SERVICE USES NOT OTHERWISE LISTED
EMPLOYEES	<p>One bicycle space for every 25 parking spaces required. A minimum of two bicycle spaces required.</p> <p>Type of locker/racks: Class II racks.</p>

- NOTES:
- Where the application of the above table results in the requirement for a fraction of a bicycle parking space, such a space need not be provided unless the fraction exceeds 50 percent.
  - Where the application of the above table results in the requirement of fewer than six employee spaces, Class II racks need not be placed within an enclosed lockable area.

- b) Design Standards. Bicycle parking facilities shall be installed in a manner which allows adequate spacing for access to the bicycle and the locking device when the facilities are occupied. General space allowances shall include a two foot width and a six foot length per bicycle and a five foot wide maneuvering space behind the bicycle. The facilities shall be located on a hard, dust-free surface, preferably asphalt or concrete.
- c) Exemptions. Requests for exemptions from bicycle parking requirements shall be made in writing to the Planning Director.
  - 1. Exemptions from bicycle parking requirements shall be submitted and processed concurrently with the project application.
  - 2. Exemptions may be granted depending upon the location of the site with respect to an urbanized area, the nature and hours of operation of the proposed use, and the accessibility of the site by bicycle at present and in the future.

**b. LANDSCAPING, GENERAL PROVISIONS.**

#### SECTION 18.27. VARIANCES.

- a. **BASIS FOR VARIANCE.** Variances from the terms of this ordinance may be granted when, because of special circumstances applicable to a parcel of property, including size, shape, topography, location or surroundings, the strict application of this ordinance deprives such property of privileges enjoyed by other property in the vicinity that is under the same zoning classification.

A variance shall not be granted for a parcel of property which authorizes a use or activity that is not otherwise expressly authorized by the zone regulation governing the parcel of property, but shall be limited to modifications of property development standards, such as lot size, lot coverage, yards, and parking and landscape requirements.

- b. **APPLICATION.** Application for a variance shall be made in writing to the Planning Director on the forms provided by the Planning Department and shall be accompanied by the fees set

forth in County Ordinance No. 671. If the use for which the variance is sought also requires approval of a conditional or public use permit pursuant to the land division ordinance, the two applications shall be filed concurrently.

- (1) Applications for a variance that do not require an approval of a conditional or public use permit or land division ordinance approval shall supply the following information:
    - a) Name and address of the applicant.
    - b) Evidence of ownership of the premises or written permission of the owner to make the application.
    - c) A statement of the specific provisions of the ordinance for which the variance is requested and the variance that is requested.
    - d) A plot and development plan drawn in sufficient detail to clearly describe the following:
      1. Physical dimensions of property and structures.
      2. Location of existing and proposed structures.
      3. Setbacks.
      4. Methods of circulation.
      5. Ingress and egress.
      6. Utilization of property under the requested permit.
    - e) Such additional information as shall be required by the application form.
  - (2) Applications for a variance that also require approval of a permit or land division, shall be accepted for filing only if the principal application is accepted, and shall set for the specific provisions of the ordinance for which the variance is being requested.
  - (3) If the application for a variance is in connection with a land division pursuant to the land division ordinance, the application shall be construed to be a waiver of any shorter time limitations on processing both a variance and a land division; including time limitations on appeals of either application, so that both applications are processed in the public hearing held under Section 18.26 of this ordinance as one unit to final decision.
- c. **PUBLIC HEARING.** A public hearing shall be held on all variance applications in accordance with the provisions of Section 18.26 of this ordinance, and all the procedural requirements and rights of appeal as set forth therein shall govern the hearing. All public hearings on variances which require approval of a permit or land division shall be heard by the hearing body which has jurisdiction of the principal application. All public hearings on variances which do not require approval of a permit or land division within the area of jurisdiction of the East Area Planning Council shall be heard by the Council, and all public hearings on variances which do not require approval of a permit or land division outside the area jurisdiction of the East Area Planning Council shall be heard by the Planning Commission.
- d. **CONDITIONS.** Any variance granted shall be subject to such conditions as are necessary so that the adjustment does not constitute a grant of special privileges that is

inconsistent with the limitations upon other properties in the vicinity and zone in which the property is situated, and which are necessary to protect the health, safety and general welfare of the community.

- e. **USE OF VARIANCE.** Any variance that is granted shall be used within one year from the effective date thereof, or within such additional time as may be set in the conditions of approval, which shall not exceed a total of three years, except that a variance in connection with a land division may be used during the same period of time that the land division approval may be used; otherwise the variance shall be null and void. Notwithstanding the foregoing, if a variance is required to be used within less than three years, the permittee may, prior to its expiration, request an extension of time in which to use the variance. A request for extension of time shall be made to the Board of Supervisors, on forms provided by the Planning Department and shall be filed with the Planning Director, accompanied by a fee as set forth in County Ordinance No. 671. Within 30 days following the filing of a request for an extension, the Planning Director shall review the application, make a recommendation thereon, and forward the matter to the Clerk of the Board, who shall place the matter on the regular agenda of the Board. An extension of time may be granted by the Board upon a determination that valid reason exists for permittee not using the variance within the required period of time. If an extension is granted, the total time allowed for use of the variance shall not exceed a period of three years, calculated from the effective date of the issuance of the variance. The term "use" shall mean the beginning of substantial construction for which the variance has been granted, which construction must thereafter be pursued diligently to completion, or the actual occupancy of existing buildings or land under the terms of the authorized variance, or the recording of the final or parcel map in connection with an approved land division. The effective date of a variance shall be determined pursuant to Section 18.26 of this ordinance.

In addition the provisions of subsection a., above, regarding setbacks from lot lines do not apply if Planning Commission determines that the characteristics of the downwind property, such as, but not necessarily limited to, topography or use of such property as a transportation corridor, eliminate the ability to develop said downwind property with commercial WECS. Whenever a wind access setback reduction is proposed to the Planning Commission based on the characteristics of the downwind property, the wind access setback reduction shall be included in all notices regarding the commercial WECS permit, and, if granted, the commercial WECS permit shall specifically state the required alternative wind access setback.

(3) Scenic Resource Protection.

  - d. The setback specified in subsection c., above, shall be measured from the outer boundary of the public right of way of the designated highway.
  - e. Notwithstanding the provisions of subsection c., above, the setbacks therein specified may be reduced to 1.25 times the total WECS height if the Planning Commission determines that the characteristics of the surrounding property eliminate or substantially reduce considerations of scenic value. Whenever a setback reduction is proposed pursuant to this subsection, the setback reduction shall be included in all notices regarding the commercial WECS permit, and, if granted, the commercial WECS permit shall specifically state the required setback.
- (4) Safety and Security.

A bond or other appropriate form of security may be required to cover the cost of removal and site restoration.
  - b. Every unsafe commercial WECS and every inoperable commercial WECS is hereby declared to be a public nuisance which shall be subject to abatement by repair, rehabilitation, demolition, or removal in accordance with the procedure contained in Section 3 of County Ordinance No. 457. Every commercial WECS shall be subject to the provisions of this subsection commencing with the date of issuance of final building permit inspection approval. An inoperable commercial WECS shall not be considered a public nuisance provided the owner can demonstrate that modernization, rebuilding or repairs are in progress or planned and will be completed within no more than six months.
    - (1) A commercial WECS constructed pursuant to a commercial

  - b. All WECS siting shall comply with Federal Aviation Administration regulations for siting structures near an airport or VORTAC installation.
  - c. All WECS shall include a locking mechanism which prevents the blades from rotating when not producing power, in order to limit airport radar interference or "clutter". The Planning Commission may modify or eliminate the requirement for a locking mechanism if sufficient evidence is presented that no significant airport radar interference or "clutter" will be caused by the WECS or WECS array.
- (10) Site Disruption. Prior to the issuance of building permits for a commercial WECS development, all areas where significant site disruption is proposed shall be temporarily marked off. All construction activities shall be limited to the areas marked off.
- (11) Certification.

  - c. The rotor overspeed control system shall be certified in writing by a mechanical engineer, registered in any state, that it conforms with good engineering practices.

(12) Noise.

a. Permit Approval.

1. A commercial WECS permit shall not be granted unless the applicant demonstrates that the proposed WECS or WECS array complies with the setbacks requiring no acoustical studies as set forth in subsection d.(12)a.2, below, or that the projected WECS noise level will comply with the noise standards as set forth in Subsection d.(12)a.3, below. The projected WECS noise level is the level of noise projected to be produced by all commercial WECS proposed under the permit application and shall be calculated in accordance with the technical specifications and criteria adopted pursuant to Subsection d.(12)c, below. A variance from this property development standard may be granted pursuant to the provisions of Section 18.27 of this ordinance.
2. WECS array setbacks requiring no acoustical studies. WECS arrays with 10 or fewer WECS (comprised of WECS designed "in accordance with proven good engineering practices") set back (where each WECS in the array are) 2,000 feet or more from the nearest receptor as set forth in subsection d.(12)a.5, below, shall be permitted without an acoustical study. WECS arrays with more than 10 WECS (comprised of WECS designed "in accordance with proven good engineering practices") can qualify for this condition if each WECS in the array is set back 3,000 feet or greater. WECS designed with the following characteristics shall be deemed "in accordance with proven good engineering practices": at least 3 blades; upwind rotor; no furling; tapered and twisted blades; airfoils designed to stall softly (defined in technical specifications and criteria adopted pursuant to Subsection d(12)c, below). WECS arrays approved under this subsection shall have noise standards as set forth in subsection d.(12)a.3, below.
3. Noise Standards. The projected WECS noise level to each receptor (as set forth in Subsection d.(12)a.5, below) shall be at or below 55 dB, A weighted (unless at setback distances as set forth in Subsection d.(12)a.2, above, are adhered to).
4. The noise standard set forth in Subsection d.(12)a.3. above, shall be reduced by five dB(A) where it is projected that pure tone noise will be generated. A pure tone shall exist if the one-third octave band sound pressure level in the bandwidth of the tone exceeds the arithmetic average of the sound pressure levels on the two contiguous one-third octave bands by five dB for center frequencies of 500 Hz and above, and 8 dB for center frequencies between 160 and 400 Hz, and by 15 dB for center frequencies less than or equal to 125 Hz.

5. Receptor (the point of measurement) for the calculation of the WECS noise level projected pursuant to Subsection d.(12)a.1. above shall be determined as follows:
    - a) Existing structures in the vicinity of the commercial WECS project property which are actually used as a "habitable" dwelling, hospital, school, library, or nursing home shall be identified.
    - b) The point of measurement shall be a point ten (10) feet from the outer wall, or equivalent distance, from the WECS being measured to any "habitable" dwelling, hospital, school, library or nursing home.
  6. Low Frequency Noise Criteria. Where acoustical studies are required, and the WECS are not designed in "accordance with proven good engineering practices" as defined in subsection d.(12)a.2., above, the low frequency noise shall not exceed the following at a receptor: 75 dB,C weighted (5 to 100 hertz) or Predicted C(PC) for nonimpulsive WECS. 67 dB,C weighted (5 to 100 hertz) or PC for impulsive WECS (as defined in technical specification and criteria adopted pursuant to Subsection d.(12)c., below). WECS array low frequency impacts shall be calculated in accordance with technical specifications and criteria adopted pursuant to subsection d.(12)c, below.
- b. Operations.
    1. Unless the conditions of approval provide a more restrictive standard, a commercial WECS or WECS array shall not be operated so that noise is created exceeding 60 dB(A) where the point of measurement is a point ten (10) feet from the outer wall, or equivalent distance, from the WECS being measured to any "habitable" dwelling, hospital, school, library or nursing home.
    2. A commercial WECS or WECS array shall not be operated so that impulsive sound below 20 Hz adversely affects the habitability or use of any dwelling unit, hospital, school, library, or nursing home.
  - c. All noise measurements and noise projections shall be made in accordance with the technical specifications and criteria developed by the County Health Services Agency and adopted by resolution of the Board of Supervisors.
  - d. A toll-free telephone number shall be maintained for each commercial WECS project and shall be distributed to surrounding property owners to facilitate the reporting of noise irregularities and equipment malfunctions.
- (13) Electrical Distribution Lines.
- a. Electrical distribution lines on the project site shall be undergrounded up to the low voltage side of the step-up transformer or to the utility interface point of an on-site substation.
  - b. Any electrical distribution line of less than 34 kv, not subject to the

jurisdiction of the California Public Utilities Commission, which is located within one mile of a state scenic highway or a highway designated in the scenic highway element of the General Plan, or within an area designated by the Planning Director as visually critical or very critical, shall be installed underground if such installation is feasible.

- (14) **Monitoring.** Upon reasonable notice, County officials or their designated representatives may enter a lot on which a commercial WECS permit has been granted for the purpose of monitoring noise environmental impacts, and other impacts which may arise. Twenty-four hours advance notice shall be deemed reasonable notice.
- (16) **Height Limits.** A commercial WECS or WECS array shall conform to height limits of the zoning classification in which it is located. A lower height limit may be imposed as a condition of a commercial WECS permit.
- (17) **Development Impacts.** A one time fee and a requirement to provide public works or services may be imposed as a condition of a commercial WECS permit. Such exactions must be related to the public need created by the energy development. The purposes for which the permit exaction may be used include, but are not limited to, providing roads required by the wind development, and establishing and operating a monitoring system, a visitor center that is primarily oriented toward wind development and a wind energy information program for local residents.
- (18) **Signs.** No advertising sign or logo shall be placed or painted on any commercial WECS. A commercial WECS permit may permit the placement of no more than two advertising signs relating to the development on the project site, but no such sign shall exceed 15 square feet in surface area or eight feet in height.
- (19) **Color and Finish of WECS.** All commercial WECS shall be either light environmental colors (such as white, beige, or tan), or darker fully saturated colors (such as dark blue, maroon, rust red, or dark green), or galvanized. All commercial WECS shall have a matte or galvanized finish which weathers to a lusterless condition within six (6) months unless such finish adversely affects the performance of the WECS or other good cause is shown to permit any other finish.
- (20) **Contingent Approval.** A commercial WECS permit may be granted subject to necessary approvals from the Federal Aviation Administration or other approving authorities and utility acceptance of any electrical interconnection.
- (21) **General Conditions.** The County may impose conditions on the granting of a commercial WECS permit in order to achieve the purposes of this ordinance and the General Plan and to protect the health, safety or general welfare of the community.
- (22) **Findings.** The following findings shall be made in writing prior to granting a commercial WECS permit:
  - a. The project will be consistent with the Comprehensive General Plan.
  - b. The project will not be detrimental to the health, safety or general welfare

- of the community.
- c. The project site is or will be adequately served by roads and other public or private service facilities.
- (23) Notification. Upon approval of a commercial WECS permit, the Planning Department shall provide written notice to the California Energy Commission and the concerned utility.

e. USE OF PERMIT.

- (1) Any commercial WECS permit that is granted shall be used within two years from the effective date thereof, or within such additional time as may be set in the conditions of approval, which shall not exceed a total of five years; otherwise, the permit shall be null and void. Notwithstanding the foregoing, if a permit is required to be used within less than five years, the permittee may, prior to its expiration, request an extension of time in which to use the permit. A request for extension of time shall be made to the Board of Supervisors, on forms provided by the County Planning Department and shall be filed with the Planning Director, accompanied by the fee set forth in County Ordinance No. 671. Within 30 days following the filing of a request for an extension, the Planning Director shall review the application, make a recommendation thereon, and forward the matter on the regular agenda of the Board of Supervisors. An extension of time may be granted by the Board of Supervisors upon a determination that valid reason exists for permittee not using the permit within the required period of time. If an extension is granted, the total time allowed for use of the permit shall not exceed a period of five years, calculated from the effective date of the issuance of the permit. The term "use" shall mean the beginning of substantial construction of the use that is authorized, which construction must thereafter be pursued diligently to completion.
- (2) Life of Permit. A commercial WECS permit shall be valid for the useful life of the WECS included in the permit. The life of the permit shall be determined at the time of approval and shall not exceed 30 years.
- (3) (Deleted - 348.2686)
- f. REVOCATION OF PERMIT. A commercial WECS permit may be revoked pursuant to Section 18.31 of this ordinance.

NOTE: This ordinance is an urgency ordinance necessary for the immediate preservation of the public peace, health, or safety and shall go into immediate effect pursuant to Section 25123 of the Government Code. It is necessary for this ordinance to take effect immediately in that some may be approved commercial WECS be unable to meet the previously enacted minimum standard for power production even though such commercial WECS are fully operable, thereby impeding the timely development of otherwise acceptable commercial WECS projects.

## **ARTICLE XIXb MOBILEHOMES**

**SECTION 19.75. INTENT.** The California Legislature has enacted Section 65852.3 of the Government Code (effective July 1, 1981) which provides that counties shall not prohibit the installation of qualified mobilehomes on approved foundation systems on lots that are zoned for single-family dwellings. For the purposes of this ordinance, the term "mobilehome" shall be synonymous with the term "manufactured housing." County Ordinance No. 348 permits the installation of mobilehomes, not on foundations, in several of its existing zone classifications, subject to certain requirements and standards; it further permits for the installation of mobilehomes in the R-T and R-T-R Zones. It is the intent of the Board of Supervisors, in adopting this article, to enact provisions that will allow mobilehomes to be installed on foundations in compliance with Government Code Section 65852.3; to continue to allow the installation of mobilehomes not on foundations in certain zone classifications, and to continue to permit the installation of mobilehomes in the R-T and R-T-R Zones. This article is intended to supplement the provisions of this ordinance relating to mobilehomes, but shall take precedence over any portion of this ordinance that is inconsistent herewith.

Amended Effective:

01-05-84 (Ord. 348.2244)

**SECTION 19.76. FINDINGS.** Pursuant to Section 65852.3 of the Government Code, the Board of Supervisors determines that all lots zoned to permit the construction of conventional single family dwellings are compatible for the installation of a mobilehome on a foundation system.

**SECTION 19.77. MOBILEHOMES ON FOUNDATIONS.** A mobilehome may be installed on a foundation on any lot in the unincorporated area of the County of Riverside, that is zoned to permit the construction of a conventional single family dwelling, subject to development standards of that zone, provided that when the subject lot is adjacent to property containing a place, building, structure, or other object listed on the National Register of Historic Places, a mobilehome shall be permitted provided approval of a plot plan shall first have been obtained at a public hearing pursuant to the provisions of Section 18.30 of this ordinance.

**SECTION 19.78.** (Deleted by Ordinance 348.3053 - 10-05-89)

**SECTION 19.79. MOBILEHOMES NOT ON FOUNDATIONS.** The provisions in the various zone classifications that allow mobilehomes, subject to conditions

and requirements contained therein, shall remain in effect unless amended or repealed. All specific mobilehome provisions in the various zone classifications in County Ordinance No. 348 refer to mobilehomes not on a foundation system and shall continue in effect irrespective of the fact that certain zones may then provide for mobilehomes both on and not on a foundation system. For purposes, of permit issuance, the mobilehome on a foundation is allowed whenever a conventional single-family dwelling is allowed, subject to the requirements of this article. The mobilehome not on a foundation is allowed whenever it is specifically so provided in the various zone classifications in County Ordinance No. 348, subject to any requirements set forth therein. When a mobilehome is not in conformance with the development standards of the zone classification in which it is located, that mobilehome constitutes a nonconforming use, and as such cannot be altered except to comply with the requirements of this article, and as allowed in Subsection g. of Section 18.8 of this ordinance. However, there is no specific time period in which the mobilehome must be removed.

The Board finds that this article will provide needed housing for those persons who have been identified as impacted groups by the Housing Element of the Riverside General Plan. The Board also finds that this article will provide a standard for distinguishing between congregate care residential facilities and other multi-family uses.

**SECTION 19.102. DEVELOPMENT STANDARDS.** The following standards of development shall apply for congregate care residential facilities.

### Section 19.301. APPLICABILITY.

- a. Water-efficient landscape requirements contained in this article shall be applicable to all plot plans, conditional use permits, public use permits, surface mining permits, common areas included within subdivisions, requests for substantial conformance, and any other permit when the Planning Director deems it necessary. These requirements shall not be applicable to landscaping for individual single family dwellings or areas remaining in natural vegetation where no irrigation is proposed.

### Section 19.302. PLANT AND IRRIGATION REQUIREMENTS.

#### a. PLANT REQUIREMENTS.

- (1) The "Riverside County Guide to Trees, Shrubs and Groundcovers" is hereby incorporated by reference as a guide. The plant list contained in the "Riverside County Guide to Trees, Shrubs and Groundcovers" provides a classification of crop coefficient categories of 1, 2, 3, 4 and 5 for each plant. Plants with crop coefficient categories of 1 and 2 are plants with low water use requirements; plants with crop coefficient categories of 3 and 4 are plants with medium water use requirements; and plants with a crop coefficient category of 5 are plants with high water use requirements. Plants with crop coefficient categories of 2 and 4 are transitions. The plant list is provided to assist the project applicant in choosing and grouping plant species with similar water demands to facilitate

efficient irrigation. In order to incorporate plant species other than those listed, the project applicant shall provide the Planning Director with information indicating the water requirements of the species. This information shall include a description of the plant, including but not limited to, its water requirements, field data, and a comparison of the plant to a similar species included in the plant list. The selection of low water use or drought tolerant plant species is encouraged.

- (2) Plant types shall be grouped together in regards to their water, soil, sun, and shade requirement and in relationship to the buildings. Plants with different water needs should be irrigated separately. Plants with the following crop coefficient categories shall be grouped accordingly: crop coefficient categories 1 and 2, 2 and 3, 3 and 4, and 4 and 5. Deviation from these groupings shall not be permitted.
- (3) Trees for shade shall be provided for residential, commercial, and industrial buildings, parking lots and open space areas. These trees can be deciduous or evergreen and are to be incorporated to provide natural cooling opportunities for the purpose of energy and water conservation. Trees not listed in the "Riverside County Guide to Trees, Shrubs and Groundcovers" may be utilized subject to the approval of the Planning Director and provided the information required pursuant to Section 19.302.a.(1) is submitted.
- (4) Soil tests on all projects are recommended for appropriate specifications of soil amendments, and to facilitate selection of water-efficient plant species suitable for the site. Soil amendments such as compost shall be provided to improve water holding capacity of soil, where soil conditions warrant. Where appropriate, a minimum of two inches of mulch shall be added to the soil surface after planting.
- (5) Turf areas shall be used wisely in response to functional needs.

b. IRRIGATION REQUIREMENTS.

- (1) Landscaped areas shall be provided with automatically controlled irrigation timers, unless the use of the property would otherwise prohibit use of a timer. Such timers shall utilize rain shut off and soil moisture sensing devices. The planting areas shall be grouped in relation to moisture control zones based on similarity of water requirements (i.e., turf separate from shrub and groundcover; full sun exposure areas separate from shade areas; top of slope separate from toe of the slope). Each moisture control zone shall contain a soil moisture sensor placed in the active root system of the turf or plant material. Additional water conservation technology may be required, where necessary, at the discretion of the Planning Director.

- (2) Water systems for common open space areas shall be capable of utilizing non-potable water, if approved facilities are made available by the water purveyor. Provisions for the conversion to a non-potable water system shall be provided within the landscape plan. Water systems designed to utilize non-potable water shall be designed to meet all applicable standards of the California Regional Water Quality Control Board and the Riverside County Health Department. If a water system utilizes non-potable water, all landscaping within the project may exceed a maximum water demand of 80 percent of its reference evapotranspiration.
- (3) Separate valves shall be provided for separate water use planting areas, so that plants with similar water needs are irrigated by the same irrigation valve. Drip irrigation techniques shall be provided where appropriate (i.e., shrubs, massing in mulched areas) in instances where spray irrigation is not necessary.

Section 19.303. IMPLEMENTATION.

- a. In addition to the provisions contained in this article, the project applicant shall comply with all the provisions of Section 18.12 of this ordinance, including, but not limited to, parking, landscaping, irrigation and shading requirements. The project applicant shall also be required to comply with either Section 19.303.a.(1), Section 19.303.a.(2) or Section 19.303.a.(3) of this ordinance:
  - (1) All landscaping and irrigation plans submitted shall comply with the following requirements:
    - a) Landscaping plans shall be prepared using the Water Budget Formula contained in the "Riverside County Guide to Trees, Shrubs and Groundcovers." In addition, landscaping plans shall provide a water budget which includes estimated annual water use (in gallons/acre feet) and the area (in square feet/acres) to be irrigated; precipitation rates for each valve circuit; and a monthly irrigation schedule for the first year after all plants and turf are planted and the following year. Separate valves shall be provided for separate water-use planting areas, so that plant materials with similar water needs are irrigated by the same irrigation valve.
    - b) A watering schedule which incorporates the specific water needs of the plants and turf throughout the calendar year, including water needs both before and after the plants and turf have been established, shall be included with the irrigation plans. The watering schedule shall take into account the particular characteristics of the soil; shall be continuously available on site to those responsible for the landscape maintenance; and shall contain specifics as to optimum run time and frequency of watering, and irrigation hours per day.
  - (2) All landscaping and irrigation plans submitted shall comply with the following requirements:
    - a) The landscaping plan shall incorporate trees, shrubs and ground covers that have

low crop coefficient categories of 1 and 2 or medium crop coefficient categories of 3 and 4. See Section 19.302 of this ordinance.

- b) The irrigation plan shall incorporate appropriate irrigation equipment, drip irrigation, bubbler, spray head, and/or rotor irrigation heads in order to provide the most efficient water application.
  - c)
    - 1. Areas landscaped with cool season turf grass (crop coefficient categories of 4 or more) shall not exceed 25 percent of the total landscape design, or
    - 2. Areas landscaped with warm season turf grass (crop coefficient categories of 3) shall not exceed 30 percent of the total landscape design.
  - d) If the applicant desires to increase the size of the areas landscaped as specified in Section 19.303.a.(2) c. 1. or 2. of this ordinance, the applicant shall comply with the alternative referenced in Section 19.303.a.1. of this ordinance.
- (3) If the water purveyor for a proposed project has adopted water-efficient landscaping requirements, all landscaping and irrigation plans submitted shall comply with the water purveyor's requirements. Said plans shall be accompanied by a written document from the water purveyor delineating each requirement.

b. COMPLIANCE.

- (1) The applicant's landscape architect or the party responsible for preparing the landscaping and irrigation plans shall provide a compliance letter to the Planning Department and the Department of Building and Safety stating that the landscape and the irrigation system have been installed in compliance with the approved landscaping and irrigation plans. The compliance letter shall be submitted in accordance with the project conditions of approval prior to final inspection of the structure or issuance of occupancy permits, whichever occurs first.

Section 19.304. RESIDENTIAL MODEL HOME REQUIREMENTS.

- a. In residential subdivisions, all model homes in the project shall comply with the provisions of Article XIXf of this ordinance.
- b. The project applicant shall provide home buyers with sample water-efficient landscape and irrigation plans and additional educational material as approved by the Planning Director upon the sale of each dwelling unit within the project. The plans shall include a key identifying the common names of the plants used in the landscaping.
- c. The project applicant shall distribute outdoor water conservation pamphlets provided by local water purveyors, if available, to buyers upon the sale of each dwelling unit within the development.

- d. A sign shall be displayed in the front yard of each model home which is clearly visible to home buyers. The sign shall indicate that the model home features a water-efficient landscape and irrigation design.

**ARTICLE XX**  
**AMENDMENTS AND CHANGE OF ZONE**

SECTION 20.1. Amendments to this ordinance shall be made in accordance with the procedure set forth in Chapter 4 of the Planning and Zoning Law, (California Government Code, Section 65800, et seq) as now enacted or hereafter amended, and with the requirements of this article. An amendment to the ordinance may be initiated by either the Planning Commission or the Board of Supervisors.

SECTION 20.2.

- a. The owner of real property, or a person authorized by the owner, shall have the right to request that the County consider a change in the zoning classification that has been applied to his property. The right to request consideration of zone change does not imply that the change will be approved.
- b. Applications shall be made to the Planning Commission on forms provided by the Planning Department, shall supply all required information, and shall be accompanied by the filing fee set forth in County Ordinance No. 671.
- c. An application of the change of zone shall not be set for a public hearing unless:
  - (1) All procedures required by the Riverside County Rules Implementing the California Environmental Quality Act to hear a matter have been completed.
  - (2) The requested change of zone is consistent with the Riverside County General Plan.
- d. If the Planning Director determines that a requested change of zone is inconsistent with the Riverside County General Plan, the application will not be processed until the General Plan is amended and request is consistent with the General Plan. The Planning Director's determination shall be made within ten days after a completed zone change application has been filed with the Planning Department. A determination that a requested zone change is inconsistent with the General Plan may be appealed within ten days after the Planning Director has mailed or delivered notice of his determination to the applicant, in writing, to the Planning Commission, which shall be accompanied by the filing fee set forth in County Ordinance No. 671. If an appeal is filed, the matter shall be set for a hearing before the Planning Commission not less than 15 nor more than 45 days thereafter and notice of the date of hearing shall be mailed to the appellant. The determination by the Planning Commission as to consistency with the General Plan shall be final; however, it shall not constitute a final decision as to consistency of the proposed zone change with the General Plan.

SECTION 20.3. Amendments to this ordinance may be adopted by the Board of Supervisors in the same manner as any other ordinance, except that whenever an amendment proposes to change property from one zone to another, or to impose, remove or modify any of the following regulations, the amendment shall be adopted in the manner set forth in Section 20.3a. of this ordinance:

- a. Regulate the use of buildings, structures and land as between industry, business, residents, open space, including agriculture, recreation, enjoyment or scenic beauty and use of natural resources, and other purposes.
- b. Regulate signs and billboards.
- c. Regulate location, height, bulk, number of stories and size of buildings and structures; the size and use of lots, yards, courts and other open spaces; the percentage of a lot which may be occupied by a building or structure; the intensity of land use.
- d. Establish requirements for off-street parking and loading.
- e. Establish and maintain building setback lines.
- f. Create civic districts around civic centers, public parks, public buildings or public grounds and establish regulations.

SECTION 20.3a. Amendments to this ordinance which propose to change property from one zone to another, or to impose, remove or modify any of the regulations set forth in Section 20.3 of this ordinance, shall be adopted in the following manner:

After closing the public hearing the Planning Commission shall render its decision within a reasonable time and transmit it to the Board of Supervisors in the form of a written recommendation, which shall contain the reasons for the recommendation and, if the recommendation is to change a zone classification on property, the relationship of the proposed amendment to applicable general and specific plans. A copy of the recommendation shall be mailed to the applicant and proof thereof shall be shown on the original transmitted to the Board of Supervisors. If the Planning Commission does not reach a decision due to a tie vote, that fact shall be reported to the Board of Supervisors and the failure to reach a decision shall be deemed a recommendation against the proposed amendment.
- d. Upon receipt of the recommendation of the Planning Commission, the Clerk of the Board of Supervisors shall take the following action:
- (1) If the Planning Commission has recommended the approval of an amendment to change property from one zone to another, or the approval of an amendment to impose, remove or modify one of the above-listed regulations, the Clerk shall set the matter of public hearing before the Board of Supervisors at the earliest convenient day, and shall give notice of the time and place of the hearing in the same manner as notice was given of the hearing before the Planning Commission.

ten days after the decision of the Planning Commission appears on the Board's agenda, or the Board orders the matter set for public hearing. If the Board of Supervisors so orders, or if the applicant appeals, the Clerk of the Board shall set the matter for public hearing before the Board of Supervisors at the earliest convenient day and shall give notice of the time and place of the hearing in the same manner as is provided for giving notice of the hearing before the Planning Commission.

- e. After closing the public hearing the Board of Supervisors shall render its decision within a reasonable time and may approve, modify or disapprove the recommendation of the Planning Commission; provided, however, that any proposed modification of the Planning Commission's recommendation not previously considered by the Planning Commission shall first be referred back to the Planning Commission for a report and recommendation. The Planning Commission shall not be required to hold a public hearing thereon, and failure of the Planning Commission to report within 40 days after the reference, or such longer period of time as may be specified by the Board of Supervisors, shall be deemed to be an approval of the proposed modification.

- a. Without following the procedures otherwise required prior to the adoption of a zoning ordinance, the Board of Supervisors, to protect the public safety, health and welfare, may adopt as an urgency measure an interim ordinance prohibiting any uses which may be in conflict with a contemplated general plan, specific plan, or zoning proposal which the Board of Supervisors, Planning Commission or the Planning Department is considering or studying or intends to study within a reasonable time. Such urgency measure shall require a four-fifths vote of the Board of Supervisors for adoption. Such interim ordinance shall be of no further force and effect 45 days from the date of adoption thereof; provided, however, that after notice pursuant to California Government Code Section 65090 and public hearing, the Board of Supervisors may extend such interim ordinance for ten months and fifteen days subsequently extend such interim ordinance for one year. Any such extension shall also require a four-fifths vote for adoption. Not more than the two such extensions may be adopted.
- b. Alternatively, an interim ordinance adopted may by a four-fifths vote following notice pursuant to said Section 65090 and public hearing, in which case it shall be of no further

force and effect 45 days from its date of adoption; provided, however, that after notice pursuant to Section 65090 and public hearing, the Board of Supervisors may by a four-fifths vote extend such interim ordinance for 22 months and 15 days.

- c. When any interim ordinance has been adopted, every subsequent ordinance adopted pursuant to this section, covering the whole or a part of the same property shall automatically terminate and be of no further force or effect upon the termination of the first such ordinance or any extension thereof as herein provided.
- d. Adoption of an interim ordinance shall be deemed an order of the Board of Supervisors to the Planning Commission to initiate a zoning study of the land and that has been placed in the interim zone, which may include the study of other land in the vicinity thereof.
- e. The clerk shall schedule a public hearing before the Board to consider an extension of an interim ordinance which shall normally be at its second regular meeting before expiration of the initial 45 day period and any extension. The Clerk shall publish notice ten days before the hearing. This subsection shall not be applied if the effective date of a subsequent permanent zoning ordinance applicable to the same land will have passed before such expiration, or if the interim ordinance, has been repealed, or if the Board shall otherwise order.
- f. At or before the public hearing on the proposed extension, and at least ten days prior to the expiration of the interim ordinance or any extension, the Planning Director shall make a written report to the Board of Supervisors on the status of the zoning study. The report shall describe the measures taken to alleviate the condition which lead to the adoption of the ordinance.
- g. The prohibition of uses by interim ordinance may in whole or part be imposed by applying on an interim basis one or more of the zoning designations provided for by this County Ordinance No. 348 by reference to the applicable zoning symbols preceded by "I-" or to the title of a zoning classification preceded by "Interim".
- h. Whenever any area is placed in an interim zone, that area is subject to all of the provisions of County Ordinance No. 348, including its penalty provisions, applicable to the zone in which it has been placed. For the period of time that the interim zoning ordinance is in effect the permanent zoning is deemed superseded, but upon expiration thereof, the permanent zoning shall again be in full force and effect unless it has been previously repealed or superseded by new permanent zoning.
