COUNTY OF RIVERSIDE PLANNING DEPARTMENT STAFF REPORT

PROJECT DESCRIPTION AND LOCATION:

Plot Plan No. 26076 proposes to utilize and re-permit an existing abandoned unmanned wireless communication facility that is proposed to consist of the existing 62-foot-high tower disguised as a pine tree with twelve (12) antennas, twelve (12) Remote Radio Units, one (1) parabolic antenna, two (2) RAYCAP boxes, two (2) Global Position System antennas attached to an existing equipment room, and replace two (2) existing A/C unit with two (2) new A/C units within the existing abandoned 480 sq. ft. lease area.

The subject property is currently used as the Riverside County Lakeland Village Fire Station located at 17521 Grand Avenue Lake Elsinore, CA.

BACKGROUND:

This site was previously approved for a disguised wireless facility (monopine) under approved Plot Plan No. 20281 dated October 17, 2005. Permits were issued and final for the construction of the disguised wireless facility by permit numbers BNR050234, BXX062320, and BEL051384. As the wireless facility never had a co-location permit filed or an extension of time applied for prior to the 10 year expiration date, it has expired. Additionally the site has not been in use for more than a year; so Plot Plan No. 20281 is deemed "expired".

This project was heard at the Director's Hearing dated February 6, 2017. The Indemnification Agreement was not completed by that date and was continued to February 27, 2017 to allow the applicant to complete the Indemnification Agreement. As of the time this report, the applicant and County Counsel are finalizing the agreement to have it completed by the time of the hearing.

SUMMARY OF FINDINGS:

- | | |
|---------------------------------------|--|
| 1. Existing General Plan Land Use: | Community Development: Commercial Retail (CD: CR) |
| 2. Surrounding General Plan Land Use: | Community Development: Commercial Retail (CD: CR) to the west and south; Community Development: Medium Density Residential (CD: MDR) to the east and north |
| 3. Existing Zoning: | General Commercial (C-1/C-P) |
| 4. Surrounding Zoning: | General Commercial (C-1/C-P) to the north, south |

- east, and west
5. Existing Land Use: County of Riverside Fire Station (Lakeland Village)
 6. Surrounding Land Use: Single Family Residences to the north and south;
Vacant Land to the east and west
 7. Project Data: Total Acreage: 1.15 acres
Lease area: 480 sq. ft.
 8. Environmental Concerns: Exempt from CEQA per Categorical Exemptions
California Code of Regulations, title 14 ("State
CEQA Guidelines"), Sections 15301 (Existing
Facilities) and 15302 (Replacement or
Reconstruction)

RECOMMENDATIONS:

FIND PLOT PLAN NO. 26076 EXEMPT from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15301 (Existing Facilities) and Section 15302 (Replacement or Reconstruction) based on the findings and conclusions provided in this staff report; and,

APPROVE PLOT PLAN NO. 26076, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

FINDINGS: The following findings are in addition to those incorporated in the summary of findings and in the attached environmental assessment, which is incorporated herein by reference.

1. The project site has the General Plan Land Use Designation of Community Development: Commercial Retail (CD: CR) (0.20 – 0.35 FAR) in the Elsinore Area Plan,.
2. The proposed use, a disguised wireless communication facility, is consistent with Community Development: Commercial Retail (CD: CR) designation which allows for development of single family detached residences, agriculture uses, and small scale commercial uses, such as wireless communication facilities.
3. The project site is surrounded by properties with General Plan Land Use Designations of Community Development: Commercial Retail (CD: CR) (0.20 – 0.35 FAR) to the west and south, Community Development: Medium Density Residential (CD: MDR) (2 - 5 da/ac) to the east and north.
4. The zoning classification for the subject site is General Commercial (C-1/C-P). The proposed use, a disguised wireless communication facility, is a permitted use, subject to approval of a plot plan, in that zone.
5. The project site is surrounded by properties which have zoning classification of General Commercial (C-1/C-P) to the north, south, east and west.
6. The subject property consists of a County of Riverside Fire Station (Lakeland Village). No other uses occur on the project site.

7. This disguised wireless communication facility project has met the requirements for approval per Section 19.404C; has met the processing requirements per Section 19.409; and is consistent with the development standards set forth in Section 19.410 for Ordinance No. 348, Article XIXg (Wireless Communication Facilities) based on the following:
 - a. The existing disguised wireless communication facility was designed and is still designed to be minimally visually intrusive per the following: It is disguised as a pine tree, allowing it to blend in with the surrounding area; the supporting equipment and enclosure is architecturally compatible with the surrounding area; the existing use is located within a County of Riverside Fire Station property and screened from view. This application has met the application requirements, processing requirements, and requirements for approval, location, and development standards set forth in Article 19g and Section 18.30 of Ordinance No. 348.
 - b. All required documentation for processing pursuant to Ordinance No. 348 Section 19.409 have been submitted, including a fully executed lease agreement, which was received and processed with the County of Riverside's Economic Development Agency, Real Estate Division, to re-establish the use of a disguised wireless communication facility.
 - c. The disguised wireless communication facility proposed is to re-establish a previously entitled wireless facility. Landscaping, parking, viewshed and treatment of the site is the same as it was originally approved under expired Plot Plan No. 20281. Since this entitlement was not extended by the previous tenant, this proposed plot plan was needed to re-establish the use.
 - d. The disguised wireless communication facility is located on a parcel zoned C-1/C-P. The project's zone classification is classified as non-residential. A disguised wireless communication facility in a non-residential zone classification must not exceed 70 feet in height. The proposed disguised monopine is 62 feet in height, not exceeding the maximum height for a non-residential zone classification.
 - e. Because the project is re-permitting an existing, developed site, there will be no disturbance to the natural landscape, and therefore disturbance to the natural landscape is not only minimized, but fully avoided.
 - f. The disguised wireless communication facility has existing walls from the fire station or previous wireless facility entitlement. No new walls or fencing is proposed for the re-permitting of the wireless facility.
 - g. The re-permitting of this disguised wireless communication facility will not impact the surrounding community or disturb any biological resources than what was previously permitted by Plot Plan No. 20281. Nothing currently has changed or will change at the site location.
 - h. The disguised wireless communication facility is setback approximately 95 feet from any habitable dwelling. The disguised wireless communication facility needs to be setback a distance equal to 125% of the height of the facility. With the height of the facility being 62 feet; the distance would need to be equal to 77.5 feet from a habitable dwelling. The nearest habitable dwelling is 95 feet away, and therefore the monopine exceeds the required setback distance.
 - i. The project site has two (2) existing light posts for the Fire Station. No additional outside lighting is proposed for this project.

- j. The disguised wireless communication facility will use the existing paved access of the Fire Station and parking lot for the minimal use of maintenance of the facility as needed.
 - k. The disguised wireless communication facility will use the previously approved areas for power and communication lines that was approved under Plot Plan No. 20281. Only changes will be for the updated equipment at those locations per approved Plot Plan No. 26076.
 - l. The disguised wireless communication facility is not roof mounted. All facilities and equipment will be installed in the same area and location as under the previous entitlement. This site is not a roof mounted facility project.
 - m. There is an existing equipment room that was previously used for the previous entitled wireless facility. Said equipment room again is being used for this re-establishment of a wireless facility. Total lease area including the monopine is 480 sq. ft.
 - n. The disguised wireless communication facility will be supported by two (2) new A/C units and equipment cabinets inside the existing equipment room on site. The equipment room is painted to match the existing storage building and consistent with the Fire Station itself and the surroundings of the area.
 - o. A standard condition of approval has been added to ensure that all noise produced by the disguised wireless communication facility will not exceed 60 decibels at the property line or 45 decibels inside the nearest dwelling, which is approximately 95 feet away.
8. This project is located within Lake Elsinore's Sphere of Influence. The City of Lake Elsinore was previously noticed under the original entitlement (per Plot Plan No. 20281) and no comments were received by the City at that time. Under Ordinance No. 348 Section 19.409.D, when a proposed wireless communication facility would be located within the sphere of influence of any city within the County and/or within one mile of city limits, Planning staff must transmit the application to the affected city for review and comment if a public hearing is required by Ordinance No. 348 Article 19g. For residential zoning classifications, no public hearing is required unless a property owner requests a public hearing. Because this project is in a residential zoning classification and no property owner has requested a hearing, there was no requirement to transmit this application to the City of Lake Elsinore, and, consistent with these provisions and given that this is the re-establishment of a prior use with no physical changes except the replacement of equipment in an area that is screened from view, no application was transmitted.
9. The proposed disguised wireless communication facility is within a Flood Plain. However, no additional construction to the proposed site, other than new antennas, replacement of A/C units, and equipment added or replaced in the existing enclosed equipment room, no further review was determined by Flood or Planning for this project.
10. The proposed disguised wireless facility is located within a Very High Fire Area. Most of the surrounding area and parcel(s) are developed with residences; and the project site is currently used as Lakeland Village Fire Station. The facility is at the rear of the fire station property.
11. The proposed project has been determined to be categorically exempt from CEQA, as set forth per Section 15301 (Existing Facilities) of the CEQA Guidelines. Section 15301 exempts the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing structures, facilities, mechanical equipment, or topographical features involving negligible or no

expansion of use beyond that existing at the time of the lead agency's determination. Examples of this exemption include but are not limited to (a) interior or exterior alterations involving such things as electrical conveyances, (b) existing facilities of both investor or publicly owned utilities used to provide electrical power, natural gas, sewerage, or other public utility services and (d) restoration or rehabilitation of deteriorated or damaged structures, facilities, or mechanical equipment to meet current standards of public health and safety. The proposed project is exempt under Section 15301 because it is restoring the previous use of a disguised wireless facility as a monopine, without increasing the previous lease area and with no expansion of use beyond that existing previously. This will re-establish wireless communication utility services for the residents in the surrounding neighborhood(s).

12. The proposed project has also been determined to be categorically exempt from CEQA, as set forth per Section 15302 (Replacement or Reconstruction) of the CEQA Guidelines. Section 15302 exempts the replacement or reconstruction of existing structures and facilities and will have the substantially the same purpose and capacity as the structures replaced. Examples of this exemption include but are not limited to (c) replacement or reconstruction of existing utility systems or facilities involving negligible or no expansion of capacity. The proposed project is exempt under Section 15302 because it is replacing the previous utility system or facility with minor amounts of replaced equipment and is a new utility or facility of the same use by a new provider and without expansion of the capacity. This will re-establish utility services for the residents in the surrounding neighborhood(s).
13. Because all aspects of the project are exempt under Sections 15301 and 15302, the project is exempt from CEQA and no further environmental review is required. In addition, there are no successive projects of the same type in the same place expected over time, there are no unusual circumstances such as scenic resources, historic buildings, trees, or rock outcroppings that will be affected by the project, and it is not on a hazardous waste site. Accordingly, no exception to the Section 15301 or 15302 exemptions applies.

CONCLUSIONS:

1. The proposed project is in conformance with the Community Development: Commercial Retail (CD: CR) Land Use Designation, and with all other elements of the Riverside County General Plan.
2. The proposed project is consistent with the General Commercial (C-1/C-P) zoning classification of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.
3. The public's health, safety, and general welfare are protected through project design.
4. The proposed project is compatible with the present and future logical development of the area.
5. The proposed project is exempt from CEQA and will not have a significant effect on the environment.
6. The proposed project will not preclude reserve design for the Western Riverside County Multiple Species Habitat Conservation Plan (WRCMSHCP).

INFORMATIONAL ITEMS:

1. As of this writing, no letters, in support or opposition have been received.

2. The project site is not located within:
 - a. An area drainage plan, or dam inundation area; or
 - b. The WRCMSHCP; or
 - c. The Stephens Kangaroo Rat Fee Area or Core Reserve Area; or,
 - d. A County Service Area (CSA); or
 - e. Not within an airport influence area or airport compatibility zone; or

3. The project site is located within:
 - a. The City of Lake Elsinore sphere of influence; and;
 - b. A 100-year flood plain; and
 - c. A Very High Fire Area; and
 - d. Zone B, 34.09 miles from Mt. Palomar Observatory (Ord. 655); and
 - e. An area with moderate potential for liquefaction; and

4. The subject site is currently designated as Assessor's Parcel Number 381-252-009.

The Planning Department will primarily direct communications regarding this application to the person identified above as the Applicant. The Applicant may be the property owner, representative, or other assigned agent.

AUTHORIZATION FOR CONCURRENT FEE TRANSFER

The applicant authorizes the Planning Department and TLMA to expedite the refund and billing process by transferring monies among concurrent applications to cover processing costs as necessary. Fees collected in excess of the actual cost of providing specific services will be refunded. If additional funds are needed to complete the processing of this application, the applicant will be billed, and processing of the application will cease until the outstanding balance is paid and sufficient funds are available to continue the processing of the application. The applicant understands the deposit fee process as described above, and that there will be NO refund of fees which have been expended as part of the application review or other related activities or services, even if the application is withdrawn or the application is ultimately denied.

BACKGROUND:

Summary

In 2006 the County of Riverside (County) entered into a ground lease with Nextel of California, Inc., (Sprint/Nextel) for the purpose of building, operating, and maintaining a communication facility on County owned property located at 33020 Maiden Lane, in the unincorporated area of Lakeland Village and identified as Assessor's Parcel Number: 381-252-005 (Premises), commonly known to the County as Fire Station #11 (Prior Lease). The Prior Lease was for initial term of five years, with one option to extend the term by five further years. In 2009, TowerCo Acquisitions LLC (TowerCo) became the successor in interest to Sprint/Nextel through an Assignment and Assumption of Ground. Sprint/Nextel retained space at the facility, as the primary sublessee.

On January 24, 2012, the County entered into a new communication site Lease (Existing Lease) with TowerCo Assets LLC who subsequently sold their interest, to SBA STEEL LLC, doing business as SBA Wireless (SBA). The Lease Agreement gave SBA the authorization to operate, and maintain an existing communication facility on the Premises. Since entering into the Existing Lease Sprint/Nextel has vacated the facility, leaving SBA without a tenant.

In a recent inquiry, SBA requested to extend the term of the existing Lease Agreement from the conclusion of the current expiration date of December 31, 2021, in order to accommodate Verizon, the newly proposed primary sublessee. The amended term shall commence on January 1, 2022 and expire on December 31, 2032. Additionally, SBA will be awarded three consecutive five year terms. Under the current contract SBA shares 40% of their non-primary sublease revenue with the County. The Economic Development Agency, Real Estate Division sees a potential for colocation at this facility, and the term extension on the lease makes the site more attractive to other carriers. As outlined above, the potential for colocation at the facility can transpire into a higher revenue share for the County.

The First Amendment to the Lease Agreement has been reviewed and determined to be categorically exempt from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15061(b) (3) and Section 15301 Class 1, Existing Facility, as it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment. The County's approval of the activity does not create any reasonably foreseeable physical change to the environment for this transaction.

RECITALS

- A. WHEREAS, County and TowerCo Assets LLC, a Delaware limited liability company entered into that certain unrecorded Communications Site Lease Agreement effective as of January 24, 2012 for a ten year term, and ultimately assigned the New Lease Agreement to Lessee pursuant to that certain unrecorded Master Assignment and Assumption Agreement dated October 15, 2014 (collectively, "Lease"), for Lessee's use of a portion of the real property for the purpose of maintaining and operating facilities for electronic communication equipment on County owned property ("Premises") located at 33020 Maiden Lane, Lake Elsinore, CA (Assessor's Parcel Number: 381-252-009) ("Property"), being more particularly described in the attached Exhibit "A"; and
- B. WHEREAS, County and Lessee propose to amend and restate the Term of the Lease as set forth below; and

NOW, THEREFORE, by mutual agreement of the Parties and in consideration of the mutual promises, rights and obligations hereinafter set forth, the Lease is hereby amended as follows:

1. **Defined Terms.** Any capitalized terms used in this First Amendment that are not defined herein shall have the meanings given those terms in the Lease.

2. **Term.** Section 3 is hereby amended.

In addition to the Term referenced in the Lease, the Lease is hereby amended to include one (1) additional successive term of ten years and three (3) additional successive terms of five (5) years (each an "Additional Renewal Term") beginning on January 1, 2022. Subject to the termination rights in Section 9 of the Lease, each Additional Renewal Term shall be deemed automatically extended, unless Lessee notifies County of its intention not to renew the Lease prior to the commencement of the succeeding Additional Renewal Term. The first Additional Renewal Term shall commence on January 1, 2022 ("Additional Renewal Term Commencement Date"), upon the expiration of the Term expiring on December 31, 2021.

3. **Use.** Section 2 Paragraph 2 is hereby amended.

County consents to the occupancy of the Premises by Lessee's proposed sub-tenant, Los Angeles SMSA Limited Partnership, a California limited partnership, d/b/a Verizon Wireless and its affiliates, successors or assigns ("Verizon"). The sublease to any further subtenant shall be in accordance with Article 4(C) and 13 of the Lease.

4. **Rent.** Section 4(c) is hereby modified.

(c) Upon written consent to sublease or license in accordance with Article 13 of the Lease, Lessee agrees to pay the County forty percent (40%) of the rental, license or similar payments actually received by Lessee (excluding any reimbursement of taxes, construction costs, installation costs, revenue share reimbursement or other expenses incurred by Lessee) within thirty (30) days after receipt of said payment by Lessee ("Additional Rent"). The obligation to pay Additional Rent will not apply to the Verizon sublease.

5. **Assignment and Subleasing.** The first three (3) sentences of Section 13(a) of the Lease are hereby deleted in their entirety and replaced as follows:

Lessee may not assign, or otherwise transfer all or any part of its interest in this Lease or in the Premises without the prior written consent of County; provided, however, that Lessee may assign its interest to its parent company, any subsidiary or affiliate, or to any successor-in-interest or entity acquiring fifty-one percent (51%) or more of its stock or assets, subject to any financing entity's interest, if any. Notwithstanding the foregoing, Lessee may sublet all or a portion of the Premises to one or more entities for communications uses only.

6. **Miscellaneous.** Section 19 is hereby amended as follows:

Lessee:

SBA Steel LLC
Attn: Site Administration
8051 Congress Avenue
Boca Raton, FL 33487-1307
RE: CA45808-A/West Lake 2, CA

County:

County of Riverside
Attn: Economic Development Agency
3403 10th Street, Suite 400
Riverside, CA 92501

7. **Further Cooperation.** The Parties agree to execute such other instruments, agreements and amendments to documents as may be necessary or appropriate to effectuate the Lease as amended by this First Amendment.

8. **Interpretation.** This First Amendment, when combined with the Lease, sets forth and contains the entire understanding and agreement of the Parties hereto and correctly sets forth the rights, duties and obligations of each to the other as of this date.

9. **Waivers; Amendments.** All waivers of the provisions of this First Amendment and all amendments hereto must be in writing and signed by the appropriate authorities of County and Lessee.

10. **Effectiveness of Lease Agreement; First Amendment to Prevail.** Except as modified and amended by this First Amendment all other terms and conditions of the Lease remain unmodified and in full force and effect. The provisions of this First Amendment shall prevail over any inconsistency or conflicting provisions of the Lease.

11. **Severability.** If any term or provision of this First Amendment shall be held by a court of competent jurisdiction to be invalid or unenforceable, the remainder of this First Amendment shall not be affected thereby and each other term and provision of this First Amendment shall be valid and enforceable to the fullest extent permitted by law.

12. The effective date of this First Amendment is the date the Parties execute this First Amendment. If the Parties execute this First Amendment on more than one date, then the last date this First Amendment is executed by a party shall be the Effective Date.

13. This Memorandum and Amendment will be governed by and construed and enforced in accordance with the laws of the state in which the Property is located without regard to principles of conflicts of law.

14. County represents and warrants to Lessee that the County is the sole owner in fee simple title to the Premises and easements and the County's interest under the Lease and that consent or approval of no other person is necessary for the County to enter into this Memorandum and Amendment.

15. This Memorandum and Amendment may be executed in one or more counterparts, and by the different parties hereto in separate counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same Memorandum and Amendment.

16. Lessee shall have the right to record this Memorandum and Amendment.

NOTICE OF EXEMPTION

9/14/16 Date

Initial

June 27, 2016

Project Name: County of Riverside, Economic Development Agency (EDA) First Amendment to Communication Site Lease, SBA-Fire Station #11, Lake Elsinore

Project Number: FM0473431002200

Project Location: 33020 Maiden Lane, Lake Elsinore, California 92530; Assessor's Parcel Number (APN) 381-252-005 (See Attached Exhibit)

Description of Project: The County of Riverside (County) has an existing ground lease with SBA STEEL LLC, doing business as SBA Wireless (SBA) as the successor in interest to Sprint. The Lease Agreement entitles SBA to operate, and maintain an existing communication facility on that certain real property located at 33020 Maiden Lane, Lake Elsinore, California and identified as Assessor's Parcel Number: 381-252-005, commonly known to the County as Fire Station #11. SBA has requested to modify the existing Lease Agreement, for the purpose of extending the term from the conclusion of the current expiration date of December 31, 2021. The amended term shall commence on January 1, 2022 and expire on December 31, 2032. Additionally SBA will be awarded three consecutive five year terms. The term extension on the lease is anticipated to make the site more attractive to other carriers, resulting in a colocation of the facility and increased revenue. The First Amendment to the Lease is identified as the Project under the California Environmental Quality Act (CEQA). The use of the site under the First Amendment to the Lease would occur in the same manner as with the existing use. The operation of the facility will continue to provide communications services and will not result in a change or an expansion of existing use. No additional direct or indirect physical environmental impacts are anticipated.

Name of Public Agency Approving Project: County of Riverside, Economic Development Agency

Name of Person or Agency Carrying Out Project: County of Riverside, Economic Development Agency, and SBA STEEL LLC, a Florida limited liability company, doing business as SBA Wireless

Exempt Status: State CEQA Guidelines, Section 15301, Class 1, Existing Facilities Exemption; Section 15061(b) (3), General Rule or "Common Sense" Exemption, Codified under Title 14, Articles 5 and 19, Sections 15061 and 15300 to 15301.

Reasons Why Project is Exempt: The proposed Project is categorically exempt from the provisions of CEQA specifically by the State CEQA Guidelines as identified below. The Project will not result in any specific or general exceptions to the use of the categorical exemption as detailed under State CEQA Guidelines Section 15300.2. The Project will not cause an impact to an environmental resource of hazardous or critical concern nor would the Project include a reasonable possibility of having a significant effect on the environment due to unusual circumstances. The Project would not result in impacts to scenic highways, hazardous waste sites, historic resources, or other sensitive natural environments, or have a cumulative effect to the environment. No significant environmental impacts are anticipated to occur with the Lease which includes the operation of communication services.

- **Section 15301 – Class 1 Existing Facilities Exemption:** This categorical exemption includes the operation, repair, maintenance, leasing, or minor alteration of existing public or private structures or facilities, provided the exemption only involves negligible or no expansion of the previous site’s use. The Project, as proposed, is limited to the Lease that includes operation of communication services. The use of the site would continue in the same manner as under the current lease and would not require any expansion of service or facilities; therefore, the Project is exempt as the Project meets the scope and intent of the Class 1 Exemption identified in Section 15301, Article 19, Categorical Exemptions of the CEQA Guidelines.
- **Section 15061 (b) (3) – “Common Sense” Exemption:** In accordance with CEQA, the use of the Common Sense Exemption is based on the “general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment.” State CEQA Guidelines, Section 15061(b) (3). The use of this exemption is appropriate if “it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.” *Ibid*. This determination is an issue of fact and if sufficient evidence exists in the record that the activity cannot have a significant effect on the environment, then the exemption applies and no further evaluation under CEQA is required. See *No Oil, Inc. v. City of Los Angeles* (1974) 13 Cal. 3d 68. The ruling in this case stated that if a project falls within a category exempt by administrative regulation or 'it can be seen with certainty that the activity in question will not have a significant effect on the environment', no further agency evaluation is required. With certainty, there is no possibility that the Project may have a significant effect on the environment. The proposed amendment to the Lease Agreement is limited to a time extension and will not result in any direct or indirect physical environmental impacts. The use and operation of the facility will be substantially similar to the existing use and will not create any new environmental impacts to the surrounding area. No alterations and no impacts beyond the ongoing, existing use of the site would occur. Therefore, in no way, would the Project as proposed have the potential to cause a significant environmental impact and the Project is exempt from further CEQA analysis.

Based upon the identified exemptions above, the County of Riverside, Economic Development Agency hereby concludes that no physical environmental impacts are anticipated to occur and the Project as proposed is exempt under CEQA. No further environmental analysis is warranted.

Project Title/Case No.: Verizon Wireless (Churchill) / PP26076

Project Location: In the unincorporated area of Riverside County, more specifically located 17521 Grand Ave. Lake Elsinore, CA

Project Description: Plot Plan No. 26076 proposes to utilize and re-permit an existing abandoned unmanned wireless communication facility that is proposed to consist of the existing 62-foot-high tower disguised as a pine tree with twelve (12) antennas, twelve (12) Remote Radio Units, one (1) parabolic antenna, two (2) RAYCAP boxes, two (2) Global Position System antennas attached to an existing equipment room, and replace two (2) existing A/C unit with two (2) new A/C units within the existing abandoned 480 sq. ft. lease area.

Name of Public Agency Approving Project: Riverside County Planning Department

Project Applicant & Address: SBA Steel LLC, 8051 Congress Ave Boca Raton, CA 33487

Exempt Status: (Check one)

- Ministerial (Sec. 21080(b)(1); 15268)
 Declared Emergency (Sec. 21080(b)(3); 15269(a))
 Emergency Project (Sec. 21080(b)(4); 15269 (b)(c))
- Categorical Exemption (15301-Existing Facilities & 15302 Replacement & Reconstruction)
 Statutory Exemption (_____)
 Other: catchall

Reasons why project is exempt: The proposed project has been determined to be categorically exempt from CEQA, as set forth per Section 15301 (Existing Facilities) of the CEQA Guidelines. Section 15301 exempts the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing structures, facilities, mechanical equipment, or topographical features involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. Examples of this exemption include but are not limited to (a) interior or exterior alterations involving such things as electrical conveyances, (b) existing facilities of both investor or publicly owned utilities used to provide electrical power, natural gas, sewerage, or other public utility services and (d) restoration or rehabilitation of deteriorated or damaged structures, facilities, or mechanical equipment to meet current standards of public health and safety. The proposed project is exempt under Section 15301 because it is restoring the previous use of a disguised wireless facility as a monopine, without increasing the previous lease area and with no expansion of use beyond that existing previously. This will re-establish wireless communication utility services for the residents in the surrounding neighborhood(s). The proposed project has also been determined to be categorically exempt from CEQA, as set forth per Section 15302 (Replacement or Reconstruction) of the CEQA Guidelines. Section 15302 exempts the replacement or reconstruction of existing structures and facilities and will have the substantially the same purpose and capacity as the structures replaced. Examples of this exemption include but are not limited to (c) replacement or reconstruction of existing utility systems or facilities involving negligible or no expansion of capacity. The proposed project is exempt under Section 15302 because it is replacing the previous utility system or facility with minor amounts of replaced equipment and is a new utility or facility of the same use by a new provider and without expansion of the capacity. This will re-establish utility services for the residents in the surrounding neighborhood(s). Because all aspects of the project are exempt under Sections 15301 and 15302, the project is exempt from CEQA and no further environmental review is required. In addition, there are no successive projects of the same type in the same place expected over time, there are no unusual circumstances such as scenic resources, historic buildings, trees, or rock outcroppings that will be affected by the project, and it is not on a hazardous waste site. Accordingly, no exception to the Section 15301 or 15302 exemptions applies.

**COUNTY OF RIVERSIDE PLANNING DEPARTMENT
STAFF REPORT**

PROJECT DESCRIPTION AND LOCATION:

PLOT PLAN NO. 25943 is Verizon Wireless's proposal to co-locate new wireless communication equipment on an existing undisguised 90-foot monopole, to consist of twelve (12) eight foot high panel antennas, twelve (12) Remote Radio Units, two (2) surge protector units, one (1) four foot diameter microwave dish on the monopole; and add two (2) Global Positioning Satellite antennas on equipment cabinets and one (1) DC generator within the existing wireless communication facilities lease area.

The project is located south of Roberts Road, north of Kross Road, and west of Wood Road. The project has an address of 15209 Wood Rd.

This project was heard at the Director's Hearing dated February 6, 2017. The Indemnification Agreement was not completed by that date and was continued to February 27, 2017 to allow the applicant to complete the Indemnification Agreement. As of the time this report, the Indemnification Agreement is complete.

RECOMMENDATIONS:

FIND PLOT PLAN NO. 25943 exempt from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15301 (Existing Facilities) based on the findings and conclusions provided in this staff report; and,

APPROVE PLOT PLAN NO. 25943, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

FINDINGS: The following findings are in addition to those incorporated in the summary of findings which is incorporated herein by reference.

1. The existing project site is designated Rural Community: Very Low Density Residential (RC: VLDR) (1 ac. min.) on the Lake Mathews/Woodcrest Area Plan.
2. The existing use, a wireless facility, is consistent with the General Plan designation of Rural Community: Very Low Density Residential (RC: VLDR), which allows for limited agricultural, animal keeping, and small scale commercial uses. A wireless communication facilities is a small scale utility structure.
3. The project site is surrounded by properties which are designated Rural Community: Very Low Density Residential (RC: VLDR). To the east is the City of Riverside.
4. The zoning for the subject site is Light Agricultural (A-1-1) (1 ac. Min.).
5. The project site is surrounded by properties which are zoned Light Agricultural (A-1-1) (1 ac. Min.). To the east is the City of Riverside.
6. The existing use, an undisguised wireless facility, was permitted by Plot Plan No. 15481 on January 25, 1999. Ordinance No. 348 Article 19g, which sets forth processing requirements and development standards for wireless communication facilities, was not adopted until 2004. While Plot Plan No. 15481 would not meet the Article 19g requirements if it were applied for today, it was a legal use when approved. In addition, for residential zones such as A-1-1, Ordinance No. 348 Section 19.405 allows co-locations up to 50 feet or as long as the co-location does not increase the height of the existing facility by more than 10 feet. However, federal law preempts conflicting local laws. Under the federal Spectrum Act, local agencies "may not deny and shall approve" applications for co-locations that do not "substantially change" the dimensions of the existing wireless tower upon which it will be co-located, subject to certain other conditions. The regulations adopted pursuant to the Spectrum Act explicitly state that a change is not "substantial" if it increases the height of a wireless tower by less than 10 percent or if the addition of an appurtenance protrudes less than 20 feet from the wireless tower. The proposed co-location would add additional eight-foot in size panel antennas located 62 feet high and a parabolic antenna at 53 foot high on the existing monopole, While the height of the existing monopole will not change from its original approval, the height of the proposed co-located equipment conflicts with the 50-foot height limitation in Ordinance No. 348. However, because the federal Spectrum Act preempts the County's conflicting requirements regarding the maximum height of collocations, the County's requirements are superseded by the Spectrum Act, because the co-located equipment will not add height to the tower and will protrude less than 20 feet. Federal law preempts the County Ordinance in this regard, therefore the proposed co-location is consistent with the applicable development standards as to height.

7. This undisguised wireless communication facility project has met the requirements for approval per Section 19.405C; has met the processing requirements per Section 19.409; and is consistent with the development standards set forth in Section 19.410 for Ordinance No. 348, Article XIXg (Wireless Communication Facilities) based on the following:
- a. The existing facility is owned by Crown Castle. The proposed co-location sponsor for this project is Verizon Wireless. These are two (2) different wireless service providers.
 - b. The existing and proposed supporting equipment for the undisguised wireless facility is enclosed by a masonry wall that is neutral or light tan in color and screened by small trees or shrubs. The landscaping for the existing site will be updated and completed per the original entitlement (Plot Plan No. 15481 or 24594 and 24594S1).
 - c. A fully executed service agreement has been received for the proposed disguised wireless communication facility.
 - d. No area disturbance is proposed for the co-location. The existing enclosed lease area was previously addressed under the original entitlement. The proposed new equipment is contained within that said existing lease area.
 - e. No additional fencing or walls are proposed for this project. The proposed new equipment is contained within the existing lease area enclosed by an existing masonry wall.
 - f. The height of the existing undisguised monopole is not changing from the original entitlement for this proposed co-location.
 - g. No impacts to the surrounding community or biological resources will be effected by the proposed co-location.
 - h. The existing undisguised wireless communication facility was originally conditioned to include landscaping. The proposed provider for this co-location will update and landscape back into compliance.
 - i. The existing undisguised wireless communication facility is not within the Mt. Palomar lighting ordinance (Ord. 655). No lighting is proposed for this co-location.
 - j. The additional equipment installed into the existing lease area of the existing undisguised wireless communication facility will not increase the noise levels beyond what is the standard per Ordinance 348 of 45 decibels inside the nearest dwelling and 60 decibels at the property line.
 - k. The existing undisguised wireless communication facility has a temporary parking area provided from the original entitlement, no additional parking is required.
 - l. The subject project site is a residential property over 18,000 square feet and doesn't require paved access. However there is an existing all weather access surface on the subject site.
 - m. Power and a communications line, a co-location of antennas and equipment, will be installed below ground. The project will use existing easements for the running of the power and communication lines.

- n. No roof-mounted equipment or shelters proposed for the project. The provider for the co-location will remove the existing equipment shelter for placement of their equipment inside the existing enclosed lease area.
 - o. As stated previously in this staff report, the existing undisguised wireless communication facility was originally permitted as a monopole. Adding or the changing of antennas or equipment will not alter the viewshed that has been in place since the original entitlement and subsequent alterations.
 - p. No setbacks will be altered due to the proposed co-location. The existing undisguised monopole and existing lease area are at the same location and setback was what was originally permitted (per Plot Plan No. 15481).
 - q. The proposed support facilities for the project provider will be enclosed inside the existing equipment enclosure that is screened by an existing 8 foot high masonry wall that is neutral or light tan in color with landscaping surrounding the lease area.
 - r. The existing treatment of the undisguised wireless communication facility is beige and the equipment and antenna will match the existing monopole treatment.
8. Single Family residences have been constructed in the project vicinity.
9. This project is not located within a Criteria Area of the Western Riverside Multi-Species Habitat Conservation Plan (WRMSHCP).
10. This project is within the City Sphere of Influence of the City of Riverside.. The City of Riverside did not state any concerns or issues with the prior entitlement of the existing monopole tower for previously approved Plot Plan No. 15481. However, Ordinance No. 348 Section 19.409.D. states that "When a proposed wireless communication facility would be located within the sphere of influence of any city within the County and/or within one mile of city limits, Planning staff shall transmit the application to the affected city for review and comment if a public hearing is required by this article." Because it is a co-location in a residential zoning classification, no public hearing is required under Ordinance No. 348 section B.2. unless a property owner requests a public hearing. However, a neighboring property owner has requested a public hearing. Thus, a hearing is required and the application was transmitted to the City of Riverside for review and comment. No response was received by the date of this staff report.
11. This project site is located within the March Air Reserve Base Airport Influence area (AIA). The tower the previously reviewed by the Airport Land Use Commission (ALUC) and was found to be consistent.
12. The project site is within the Stephen's Kangaroo Rat Fee (SKR) area per Ordinance No. 663. However, this is a co-location to an existing wireless facility, and the additional equipment cabinets are located inside the existing, developed wireless facilities lease area. No additional SKR fees will be required to be paid for this co-location.
13. Fire protection and suppression services are available through Riverside County Fire Department.

14. The proposed project has been determined to be categorically exempt from CEQA per section 15301 (Existing Facilities) of the State CEQA Guidelines. Section 15301 exempts the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographic features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. Expansions to existing structures are permitted under Section 15301 as long as the expansion doesn't exceed 50 percent of the floor area of the structures before the addition or 2,500 square feet, whichever is less. The proposed project is exempt under Section 15301 because it consists of the permitting and minor alteration of a wireless communications facility with the addition of a small amount of additional equipment on the existing monopole, plus two new antennas and a generator with the existing equipment cabinets. The minor additions to the non-disguised monopole are very small in comparison to the existing monopole size and equipment and will allow for increased wireless receptions with no new ground disturbance or major visual impact. The existing lease area and height of the monopole will not increase, so the expansion size is far less than the 50 percent of floor area or 2,500 square feet.

Because all aspects of the project are exempt under Section 15301, PP25943 is exempt from CEQA and no further environmental review is required. In addition, there are no successive projects of the same type in the same place expected over time, there are no unusual circumstances such as scenic resources, historic buildings, trees, or rock outcroppings that will be affected by the project, and it is not on a hazardous waste site. Accordingly, no exception to the Section 15301 exemption applies.

INFORMATIONAL ITEM:

1. Staff received an inquiry as a result of the optional hearing notice on this project. The nearby property owner requested a public hearing on the co-location project having concerns due to the fact that the existing monopole wasn't being upgraded to a disguised tower. Staff responded to the nearby neighbor informing them that since this is an existing monopole and cell site location, we cannot require the provider part to disguise the entire tower. The project site was originally approved by Plot Plan No. 15481 for a 90 foot tall monopole. Several other entitlements for co-locations and permits for changing antennas or equipment have occurred over the years with no requirement or request for upgrading the existing monopole tower. Since notification for this hearing date, no other phone calls have been received regarding the wireless facility. No letters in support or in opposition have been received.

CONCLUSIONS:

1. The proposed project is in conformance with the Rural Community: Very Low Density Residential (RC: VLDR) Land Use Designation, and with all other elements of the Riverside County General Plan.
2. The proposed project is consistent with the Light Agricultural (A-1-1) (1 ac. Min.) zoning classification of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.
3. The public's health, safety, and general welfare are protected through project design.
4. The proposed project is compatible with the present and future logical development of the area.

5. The proposed project will not have a significant effect on the environment.
6. The proposed project will not preclude reserve design for the Western Riverside County Multiple Species Habitat Conservation Plan (WRCMSHCP).

INFORMATIONAL ITEMS:

1. As of this writing, no further letters or contact, in support or opposition have been received.
2. The project site is not located within:
 - a. The WRMSHCP criteria area; or
 - b. A 100-year flood plain, an area drainage plan, or dam inundation area; or
 - c. A High Fire Area; or
 - d. A Liquefaction area; or
 - e. A Subsidence Area; or
 - f. A County Service Area; or
 - g. The Mt. Palomar Lighting Ord. ,655; or
 - h. A Fault Zone.
3. The project site is located within:
 - a. The city of Riverside sphere of influence; and
 - b. The March Air Reserve Base, Zone D; and
 - c. The Stephens Kangaroo Rat Fee Area or Core Reserve Area; and
 - d. The boundaries of the Riverside USD;
4. The subject site is currently designated as Assessor's Parcel Number 280-150-009.

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1 USE - PROJECT DESCRIPTION RECOMMND

PLOT PLAN NO. 25943 is Verizon Wireless's proposal to co-locate new wireless communication equipment on an existing undisguised 90-foot monopole, to consist of twelve (12) eight foot high panel antennas, twelve (12) Remote Radio Units, two (2) surge protector units, one (1) four foot diameter microwave dish on the monopole; and add two (2) Global Positioning Satellite antennas on equipment cabinets and one (1) DC generator within the existing wireless communication facilities lease area.

10. EVERY. 2 USE - HOLD HARMLESS RECOMMND

The applicant/permittee or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside or its agents, officers, and employees (COUNTY) from the following:

(a) any claim, action, or proceeding against the COUNTY to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the [PLOT PLAN] [CONDITIONAL USE PERMIT] [PUBLIC USE PERMIT]; and,

(b) any claim, action or proceeding against the COUNTY to attack, set aside, void or annul any other decision made by the COUNTY concerning the [PLOT PLAN] [CONDITIONAL USE PERMIT] [PUBLIC USE PERMIT], including, but not limited to, decisions made in response to California Public Records Act requests.

The COUNTY shall promptly notify the applicant/permittee of any such claim, action, or proceeding and shall cooperate fully in the defense. If the COUNTY fails to promptly notify the applicant/permittee of any such claim, action, or proceeding or fails to cooperate fully in the defense, the applicant/permittee shall not, thereafter, be responsible to defend, indemnify or hold harmless the COUNTY.

The obligations imposed by this condition include, but are not limited to, the following: the applicant/permittee shall pay all legal services expenses the COUNTY incurs in connection with any such claim, action or proceeding, whether it incurs such expenses directly, whether it is

ordered by a court to pay such expenses, or whether it incurs such expenses by providing legal services through its Office of County Counsel.

10. EVERY. 3 USE - DEFINITIONS RECOMMND

The words identified in the following list that appear in all capitals in the attached conditions of Plot Plan No. 25943 shall be henceforth defined as follows:

APPROVED EXHIBIT A = Plot Plan No. 25943, Exhibit A, dated February 6, 2017.

E HEALTH DEPARTMENT

10.E HEALTH. 1 USE - NOISE STUDY RECOMMND

Noise Consultant:Helix Enviromental Planning
7578 El Cajon Blvd, La Mesa CA 91942

Noise Study:Verizon Wireless Telecommunications Facility -
"Kross", Noise Impact Study, March 9, 2016

Based on the County of Riverside, Industrial Hygiene Program's review of the aforementioned Noise Study, PP25943 shall comply with the recommendations set forth under the Industrial Hygiene Program's response letter dated March 23, 2016 c/o Steve Uhlman.

For further information, please contact the Industrial Hygiene Program at (951) 955-8980.

10.E HEALTH. 2 USE - NO WASTEWATER PLUMBING RECOMMND

The project comprises structures without wastewater plumbing. If wastewater plumbing fixtures are proposed in the future, the applicant shall contact the Department of Environmental Health for the requirements.

10.E HEALTH. 3 USE - EMERGENCY GENERATOR RECOMMND

For any proposed use of emergency generators, the following shall apply:

a) A Business Emergency Plan (BEP) shall be submitted to the County of Riverside, Hazardous Materials Management

Branch (HMMB).

- b) A concrete berm shall be installed around all diesel backup generators, especially those designed with single-walled tanks.
- c) If the fuel tank capacity is greater than or equal to 1,320 gallons, the facility shall be required to prepare a Spill Prevention Control and Countermeasure (SPCC) plan. The SPCC shall be written in compliance with Federal rules and regulations.
- d) If the generator is located indoors, all entrance doors shall be labeled with an NFPA 704 sign with the appropriate NFPA ratings.
- e) If the generator is located outdoors, the NFPA 704 sign shall be placed on the most visible side of the exterior surface of the generator unit, or if fenced, on the most visible side of the fence, with the appropriate NFPA ratings.
- f) The location and capacity of the "day tank", if proposed, shall be clearly identified in the chemical inventory and facility map sections of the BEP.
- g) The business shall address the handling of spills and leaks in the Prevention, Mitigation, and Abatement sections of the BEP.
- h) If the generator is located in a remote site, HMMB shall conduct an inspection to determine whether any exemptions can be granted.

PLANNING DEPARTMENT

10.PLANNING. 1 USE - COMPLY WITH ORD./CODES RECOMMND

The development of these premises shall comply with the standards of Ordinance No. 348 and all other applicable Riverside County ordinances and State and Federal codes.

The development of the premises shall conform substantially with that as shown on APPROVED EXHIBIT A, unless otherwise amended by these conditions of approval.

10. GENERAL CONDITIONS

10.PLANNING. 2 USE - FEES FOR REVIEW RECOMMND

Any subsequent submittals required by these conditions of approval, including but not limited to grading plan, building plan or mitigation monitoring review, shall be reviewed on an hourly basis (research fee), or other such review fee as may be in effect at the time of submittal, as required by Ordinance No. 671. Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 3 USE - LIGHTING HOODED/DIRECTED RECOMMND

Any outside lighting shall be hooded and directed so as not to shine directly upon adjoining property or public rights-of-way.

10.PLANNING. 4 USE - CEASED OPERATIONS RECOMMND

In the event the use hereby permitted ceases operation for a period of one (1) year or more, this approval shall become null and void.

10.PLANNING. 6 USE - CO-LOCATION RECOMMND

The applicant/operator of the facility shall agree to allow the co-location of equipment of other wireless telecommunications providers at this site when applications are received by the County and it is considered feasible, subject to an agreement between the applicant/operator, the other proposed wireless telecommunications provider, and the property owner.

10.PLANNING. 7 USE - FUTURE INTERFERENCE RECOMMND

If the operation of the facilities authorized by this approved (PP25943) generates electronic interference with or otherwise impairs the operation of Riverside County communication facilities, the applicant shall consult with Riverside County Information Technology staff and implement mitigation measures acceptable to the Riverside County Department of Information Technology.

10.PLANNING. 10 USE - NO USE PROPOSED LIMIT CT RECOMMND

The balance of the subject property, APN 280-150-009 (excluding the lease area and access easement), shall

10.PLANNING. 11 USE - EQUIPMENT/BLDG COLOR CT RECOMMND

The equipment cabinet color shall be grey or in earthtones, which will blend with the surrounding setting.

The color of the antenna array shall match the of the existing monopole so as to lessen the visual impact.

Changes in the above listed colors shall be reviewed and approved by the Planning Department prior to installation of the structures, or prior to repainting of the structures.

10.PLANNING. 12 USE - SITE MAINTENANCE CT RECOMMND

The project site shall be kept in good repair. Graffiti shall be removed from any structures within one week of observation and/or notification. The project site and a minimum area of 10 feet around the project site shall be kept free of weeds and other obtrusive vegetation for fire prevention purposes.

10.PLANNING. 13 USE - BUSINESS LICENSING RECOMMND

Every person conducting a business within the unincorporated area of Riverside County, as defined in Riverside County Ordinance No. 857, shall obtain a business license. For more information regarding business registration, contact the Business Registration and License Program Office of the Building and Safety Department at www.rctlma.org.buslic.

10.PLANNING. 14 USE - CAUSES FOR REVOCATION RECOMMND

In the event the use hereby permitted under this permit,
a) is found to be in violation of the terms and conditions of this permit,
b) is found to have been obtained by fraud or perjured testimony, or
c) is found to be detrimental to the public health, safety or general welfare, or is a public nuisance, this permit

10.PLANNING. 17 USE - NOISE REDUCTION RECOMMND

In accordance with Section 19.410.g. of Ordinance No. 348, and for the life of the project, all noise produced by the wireless communication facility shall in no case produce noise which exceeds 45 dB inside the nearest dwelling and 60 dB at the project site's property line.

20. PRIOR TO A CERTAIN DATE

PLANNING DEPARTMENT

20.PLANNING. 1 USE - EXPIRATION DATE-PP RECOMMND

This approval shall be used within two (2) years of approval date; otherwise, it shall become null and void and of no effect whatsoever. By use is meant the beginning of substantial construction contemplated by this approval within a two (2) year period which is thereafter diligently pursued to completion or of the actual occupancy of existing buildings or land under the terms of the authorized use.

20.PLANNING. 2 USE - LIFE OF PERMIT RECOMMND

A wireless communication facility shall have an initial approval period (life) of ten (10) years that may be extended if a revised permit application is made and approved by the Planning Director or the Planning Commission, whichever was the original approving officer or body. Such extensions, if approved, shall be in increments of ten (10) years. The determination as to the appropriateness of such extensions shall be made, in part, on adherence to the original conditions of approval and the number of complaints, if any, received by the County. In the case of co-located facilities, the permits of all co-locaters shall automatically be extended until the last co-locater's permit expires.

PLANNING DEPARTMENT

90.PLANNING. 1 USE - UTILITIES UNDERGROUND RECOMMND

All utilities, except electrical lines rated 33 kV or greater, shall be installed underground. If the permittee provides to the Department of Building and Safety and the Planning Department a definitive statement from the utility provider refusing to allow underground installation of the utilities they provide, this condition shall be null and void with respect to that utility.

90.PLANNING. 2 USE - WALL & FENCE LOCATIONS RECOMMND

Wall and/or fence locations shall be in conformance with APPROVED EXHIBIT A.

90.PLANNING. 6 USE - SIGNAGE REQUIREMENT RECOMMND

Prior to final inspection of any building permit, the permit holder, developer or successor-in-interest shall install a sign no smaller than 12 inches by 12 inches upon an exterior wall or fence that surrounds the lease area that provides the following contact information:

- Address of wireless communications facility and any internal site identification number or code;
- Name(s) of company who operates the wireless communications facility;
- Full company address, including mailing address and division name that will address problems;
- Telephone number of wireless communications facility company.

If a co-located facility (addition antennas and/or equipment shelters or cabinets) are added to an existing facility, an additional sign, including the above described information, shall be installed on said shelter or cabinet stating the name of the company who operates the primary wireless communications facility and the name of the company that operates the co-located facility.

ADMINISTRATION
RIVERSIDE COUNTY
PLANNING DEPARTMENT

This is to notify you that the proposed application referenced below has been filed with the Riverside County Planning Department and will be considered for approval subject to certain conditions.

If you wish to comment on this application, please submit written comments to the Planning Department at the above address no later than 5:00 P.M. on November 3, 2016. **NO PUBLIC HEARING WILL BE HELD ON THE APPLICATION UNLESS YOU REQUEST A HEARING IN WRITING PRIOR TO THE AFOREMENTIONED DATE.** The decision of the Planning Director is considered final unless an appeal is filed by you or another interested party within 10 days of the approval date. If a public hearing is scheduled before the Planning Director, a separate notice will be published and mailed to interested parties.

PLOT PLAN NO. 25943, exempt from CEQA, is an application submitted by Verizon Wireless for property located in the Woodcrest Zoning District, Lake Mathews/Woodcrest Area Plan, First Supervisorial District, and more generally located Southerly of Roberts Road, northerly of Kross Road, and westerly of Wood Road; and pursuant to Ordinance No. 348, Riverside County Land Use Ordinance, proposes to permit Verizon Wireless co-location of (12) eight foot high panel antennas, (12) RRUs, (12) A2 backpacks, (2) surge protector units, (1) four foot diameter microwave dish; with (2) GPS antennas on equipment cabinets, and (1) DC generator inside a 8 x 14 lease area for Verizon. Verizon will remove the decommissioned equipment shelter formally for Nextel that is within their lease area. Verizon's lease area is inside the overall existing walled off cell site location on the subject property at 15209 Wood Rd. Verizon will add, update, and replace any damaged or dying landscaping for the cell site.

For further information regarding this project, please contact Tim Wheeler, Urban Regional Planner III at 951-955-6060 or e-mail wheeler@rctlma.org. The case file for the proposed project may be viewed Monday through Friday, from 8:00 A.M. to 5:00 P.M. at the Planning Department office, located at 4080 Lemon St. 12th Floor, Riverside, CA 92501. If you have any comments to submit or wish to request a public hearing, please complete and return the bottom portion sheet to this office by the above-mentioned date.

I, Michael Williams, am requesting that a Public Hearing be held regarding the proposed Verizon cell tower replacement of the existing tower located at Riverside County Plot Plan #25943.

The current cell tower detracts from the neighborhood and potentially reduces the property values of the residences within view of the site. At a minimum, this facility should be subject to the existing County ordinance 348.4835 Article XIXg Section 19 requiring these structures to be disguised.

Furthermore, due to the number and type of antennae proposed, the "Palm tree" will not suffice as adequate integration into the local environment. Appropriate options would include a Pine Tree, Wind Mill, or Water Tower.

Lastly, as technology and residential home sites in this area have developed dramatically since this original tower was erected, I would like to see a current alternative site survey plan, justifying the replacement of this tower back into this existing location.

LAND USE and PERMIT APPLICATION PROCESSING AGREEMENT
Agreement for Payment of Costs of Application Processing

TO BE COMPLETED BY APPLICANT:

This agreement is by and between the County of Riverside, hereafter "County of Riverside",
and ^{SAC wireless for} Verizon Wireless hereafter "Applicant" and Jensen/Crown Castle "Property Owner".

Description of application/permit use:

Verizon Colocation on existing monopole. Installation of (12) new antennas and related equipment.

If your application is subject to Deposit-based Fee, the following applies

Section 1. Deposit-based Fees

Purpose: The Riverside County Board of Supervisors has adopted ordinances to collect "Deposit-based Fees" for the costs of reviewing certain applications for land use review and permits. The Applicant is required to deposit funds to initiate staff review of an application. The initial deposit may be supplemented by additional fees, based upon actual and projected labor costs for the permit. County departments draw against these deposited funds at the staff hourly rates adopted by the Board of Supervisors. The Applicant and Property Owner are responsible for any supplemental fees necessary to cover any costs which were not covered by the initial deposit.

Section 2. Applicant and Property Owner Responsibilities for Deposit-based Fee Applications

- A. Applicant agrees to make an initial deposit in the amount as indicated by County ordinance, at the time this Agreement is signed and submitted with a complete application to the County of Riverside. Applicant acknowledges that this is an initial deposit and additional funds may be needed to complete their case. The County of Riverside will not pay interest on deposits. Applicant understands that any delays in making a subsequent deposit from the date of written notice requesting such additional deposit by County of Riverside, may result in the stoppage of work.
- B. Within 15 days of the service by mail of the County of Riverside's written notice that the application permit deposit has been reduced to a balance of less than 20% of the initial deposit or that the deposit is otherwise insufficient to cover the expected costs to completion, the Applicant agrees to make an additional payment of an amount as determined by the County of Riverside to replenish the deposit. Please note that the processing of the application or permit may stop if the amount on deposit has been expended. The Applicant agrees to continue making such payments until the County of Riverside is reimbursed for all costs related to this application or permit. The County of Riverside is entitled to recover its costs, including attorney's fees, in collecting unpaid accounts that would have been drawn on the deposit were it not depleted.
- C. The Property Owner acknowledges that the Applicant is authorized to submit this agreement and related application(s) for land use review or permit on this property. The Property Owner also acknowledges that should the Applicant not reimburse the County of Riverside for all costs related to this application or permit, the Property Owner shall become immediately liable for these costs which shall be paid within 15 days of the service by mail of notice to said property Owner by the County.

- D. This Agreement shall only be executed by an authorized representative of the Applicant and the Property Owner. The person(s) executing this Agreement represents that he/she has the express authority to enter into this agreement on behalf of the Applicant and/or Property Owner.
- E. This Agreement is not assignable without written consent by the County of Riverside. The County of Riverside will not consent to assignment of this Agreement until all outstanding costs have been paid by Applicant.
- F. Deposit statements, requests for deposits or refunds shall be directed to Applicant at the address identified in Section 4.

Section 3. To ensure quality service, Applicant is responsible to provide one-week written notice to the County of Riverside Transportation and Land Management Agency (TLMA) Permit Assistance Centers if any of the information below changes.

Project Title/Case No.: **PP25943 / No EA**

Project Location: In the unincorporated area of Riverside County, more specifically located at the address of 15209 Wood Rd. Riv.

Project Description: PLOT PLAN NO. 25943 is Verizon Wireless's proposal to co-locate new wireless communication equipment on an existing undisguised 90-foot monopole, to consist of twelve (12) eight foot high panel antennas, twelve (12) Remote Radio Units, two (2) surge protector units, one (1) four foot diameter microwave dish on the monopole; and add two (2) Global Positioning Satellite antennas on equipment cabinets and one (1) DC generator within the existing wireless communication facilities lease area.

Name of Public Agency Approving Project: Riverside County Planning Department

Project Applicant & Address: Verizon Wireless c/o Courtney Standridge 5015 Shoreham Pl. Ste. 150, San Diego, CA 92122

Exempt Status: (Check one)

- Ministerial (Sec. 21080(b)(1); 15268)
- Declared Emergency (Sec. 21080(b)(3); 15269(a))
- Emergency Project (Sec. 21080(b)(4); 15269 (b)(c))
- Categorical Exemption (15301 Existing Facilities)
- Statutory Exemption (_____)
- Other: (catchall)

Reasons why project is exempt: The proposed project has been determined to be categorically exempt from CEQA per section 15301 (Existing Facilities) of the State CEQA Guidelines. Section 15301 exempts the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographic features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. Expansions to existing structures are permitted under Section 15301 as long as the expansion doesn't exceed 50 percent of the floor area of the structures before the addition or 2,500 square feet, whichever is less. The proposed project is exempt under Section 15301 because it consists of the permitting and minor alteration of a wireless communications facility with the addition of a small amount of additional equipment on the existing monopole, plus two new antennas and a generator with the existing equipment cabinets. The minor additions to the non-disguised monopole are very small in comparison to the existing monopole size and equipment and will allow for increased wireless receptions with no new ground disturbance or major visual impact. The existing lease area and height of the monopole will not increase, so the expansion size is far less than the 50 percent of floor area or 2,500 square feet. Because all aspects of the project are exempt under Section 15301, PP25943 is exempt from CEQA and no further environmental review is required. In addition, there are no successive projects of the same type in the same place expected over time, there are no unusual circumstances such as scenic resources, historic buildings, trees, or rock outcroppings that will be affected by the project, and it is not on a hazardous waste site. Accordingly, no exception to the Section 15301 exemption applies.
