

RIVERSIDE COUNTY PLANNING DEPARTMENT

John Hildebrand
Planning Director

MULTIPLE SPECIES HABITAT CONSERVATION PLAN (MSHCP) EXPEDITED REVIEW PROCESS (ERP) SUPPLEMENTAL INFORMATION FORM

PROJECT INFORMATION:	
<i>Please provide the following information. (Attach additional pages if necessary)</i>	
Related Permit Number (If applicable):	(i.e., BGR012345)
Identify the MSHCP Criteria cell(s) in which the parcel is located.	
This information can be found on the Conservation Summary Report Generator available online at: http://onlineservices.rctlma.org/content/rcip_report_generator.aspx	
Written project description, including if there have been any recent lot line adjustments or parcel mergers:	
Were any previous biological surveys performed on the above referenced Assessor's Parcel Number(s)? Yes No If yes, please provide documentation with this application.	
Describe unique biological features (i.e., washes, streams, oak trees, juniper trees, and rock outcroppings):	
Would the property owner(s) be interested in conveying (selling/transferring/donating) property to the Multi-Species Habitat Conservation Plan for conservation purposes? Yes No	

The following items/information must be provided when the ERP application is submitted to the Environmental Programs Division (EPD); otherwise it will be deemed incomplete:

- A. A series of current ground-level color photographs showing the project site, together with a key map showing the location and direction from where the photographs were taken and the approximate area of view (see [ERP Site Plan Example](#)).
- B. A Site Plan which clearly shows the following information (see [ERP Site Plan Example](#)):
 - 1. North Arrow.
 - 2. Overall dimensions of the property and lot lines.
 - 3. Location and names of adjoining streets.
 - 4. Location and dimensions of existing and proposed buildings, structures, and driveways.

EXPEDITED REVIEW PROCESS (ERP) SUPPLEMENTAL INFORMATION FORM

- 5. Location and dimensions of any easements, Environmental Constraint Sheet (ECS), or rights-of- way traversing the property.

Based upon the location of the subject property, the MSHCP may require the preparation of a habitat assessment for one or more of covered species for the subject property. Check one of the boxes below to indicate the property owner's desire:

I authorize, pursuant to [Government Code Section 65105](#), County personnel to enter the subject property for habitat assessment purposes, provided that the entry, examination, and survey **do not** interfere with the use of the land.

I have chosen to hire a biologist from the County's List of Approved Environmental Consultants for the purpose of preparing a habitat assessment, and do not authorize County personnel to enter the subject property for assessment purposes. The completed habitat assessment will then be provided to the Environmental Programs Division for review and approval.

I/We, as the property owner(s), understand that if, at the conclusion of a habitat assessment, a focused survey is needed to fully determine the potential impacts of the project upon the covered species, the property owner(s) will be responsible for the preparation of said survey. The results must be provided to the Environmental Programs Division (EPD) for review and approval.

FOR COUNTY OF RIVERSIDE USE ONLY
